Welcome, Area Engineer Stephen O'Connor!!!

"Confident, enthused, and ready," is how I would describe my feelings as the new area engineer for Franklin and Jefferson counties. I cannot wait to call Jefferson County my new home! After living and working in St. Louis County for

Judy and Stephen

nearly three decades, my wife and I are planning to move to Jefferson County in the near future!

Working with Judy Wagner as I transitioned into this position was a pleasure and in the process I made a life-long friend.

Similar to Judy, this is the start of my second career after retiring as operations manager for St. Louis County. In this position, I've learned communication is key. Knowing the key players to find an answer is crucial and part of my daily

mantra in the work place.

My previous job has equipped me with the people skills it takes to serve the needs of the thousands of residents in

Franklin and Jefferson counties. I enjoy getting out of the office and meeting people face-to-face instead of strictly over the phone or through emails. I promise to listen to any concerns, and questions, while searching for a solution.

If you have any questions or concerns, please email me or call me directly at 314-453-5021.

Upcoming Work

Route H over Bourbeuse River will be closed beginning Monday, September 9, 2019.

MoDOT will close this route to place a new bridge deck, pavement, and barriers in the area.

Drivers can use Route 50, Route CC, and Route AC as alternate routes.

The route is expected to reopen by late November.

For up-to-date traffic impacts and closures, visit our Traveler Information Map at traveler.modot.org.
