

IRON COUNTY ROUTE 21/72

The project includes an overlay, adding edgeline rumble stripes, widening 4 horizontal curves and making improvements to the horizontal curve at Royal Gorge. Improvements will extend from Route E near Arcadia to Route 49 near Glover.

TIMELINE

Tentatively, the project is expected to be let in April 2023. Construction could begin early as summer 2023 with completion anticipated in spring 2024.

TRAFFIC IMPACTS

Flaggers will guide traffic through the work zone as the overlay is completed. Widening work will be completed adjacent to the existing roadway. During work at Royal Gorge (curve 5), a one-month road closure is possible.
