INTERSECTION IMPROVEMENTS

ROUTE 61/Y IN BLOOMSDALE, MO

ABOUT

The proposed project includes upgrading the Route 61/Y intersection to improve turning movements. This will be accomplished by widening and increasing some of the radiuses at the existing intersection. The project also includes drainage improvements and adding a pedestrian crossing along Route 61.

TIMELINE

Tentatively, the project is expected to be let in May 2026. Construction could begin as early as mid-summer 2026, with completion anticipated in winter 2026.

TRAFFIC

Work will be staged to allow the intersection to remain open with minor detours, as needed.
