

# Improve I-70 Kansas City

## Summer 2025 Update

2025 - Phase 1

2026 - Phase 2

2027 - Phase 3

2028

### Construction Update

**I-70 at Benton Blvd. (Benton Curve)** - Crews built up fills in the median of I-70 in preparation for the future realignment of westbound I-70. Crews have installed wick drains (see video below) to accelerate soil settlement and have begun driving piles for the future westbound I-70 bridge over Benton Blvd.

**23rd St. Bridge over I-70** - The old bridge was demolished in May, 2025. Much of the new bridge has been constructed over the summer with new girders installed and a new concrete deck poured.

**25<sup>th</sup> St. Pedestrian Bridge over I-70** - Crews have prepped the area for a new pedestrian bridge over I-70, poured bridge columns, and set girders over the interstate.

**I-70 at Jackson Ave. (Jackson Curve)** - Crews have built up fills in the median for the future realignment of eastbound I-70. The future eastbound I-70 bridge over Jackson Ave. is taking shape with the columns built and girders installed.

### Latest Videos

### What's Next?

**I-70 at Benton Blvd. (Benton Curve)** - Continued construction of future I-70 WB bridge over Benton Blvd.

**23<sup>rd</sup> St. Bridge over I-70** - Complete bridge and roadway at 23<sup>rd</sup> St.

**25<sup>th</sup> St. Pedestrian Bridge over I-70** - Complete bridge and sidewalk tie-ins at 25<sup>th</sup> St.

**I-70 at Jackson Ave. (Jackson Curve)** - Continued construction of future I-70 EB bridge over Jackson Ave.

**2026** - Reconstruct 27<sup>th</sup> St., Cleveland Ave., Lister Ave., & Oakley Ave. pedestrian bridges over I-70.
