RE: Notice to Bidders
Project Name: La Bonne Parkway Reconstruction
Addendum Number 02

This addendum is issued to provide clarifications and responses to questions raised by prospective bidders.

All bidders are encouraged to carefully review and incorporate the information provided herein into their bid proposals:

1. Responses to prospective bidder questions:

Question 1:

Single Curb Inlet, Untrapped. What do you mean when you say untrapped?

Response:

An untrapped curb inlet does not have an internal/external trap, which prevents sewer gases in combined drainage systems, from escaping. See JSP-K for additional information.

Question 2:

Contractor Furnished Surveying and Staking: What exactly needs to be surveyed and staked?
Could you please elaborate on this.

Response:

This work shall consist of providing the necessary surveying and staking for the project including items such as the new roadway profiles, reconstructed intersections, drainage items, sidewalks, etc. See JSP-L for additional information.

Question 3:

Is the contractor responsible for testing the material or will the municipality be doing the concrete testing?

Response:

The Contractor will not be required to test material at specific intervals; however, they will be responsible for ensuring the material provided meets all requirements detailed within the specifications. The City will conduct independent quality assurance testing.

Question 4:

For the 7” thick concrete sections, what is required for the transverse joints? Will dowel basket assemblies be required?

Response:

Dowel basket assemblies will not be required. Transverse joints shall be sawed Type “C” in accordance with St. Louis County Transportation Standard Drawing C502.1 “Typical Concrete Pavement Joint Layout for Residential Streets” and drawing C502.13 “Concrete Joints”.

Question 5:

Can the vertical Integral curb be doweled on per St. Louis County standard?

Response:

Yes

2. Conclusion:

Prospective bidders are advised to thoroughly review all documents, including this addendum, before submitting their bids. Failure to incorporate the clarifications and updated information into your bid submission may result in disqualification.
