Re: Extension of registration period for motor vehicles registered in Missouri under the International Registration Plan

Missouri recently implemented a new online credentialing system for registrants. To provide relief in the form of a registration extension to allow registrants more time to use the new system, the Missouri Department of Transportation will extend by one month the validity period of vehicles registered under the International Registration Plan (IRP) with registrations expiring June 30, 2022. Vehicles with registrations originally expiring on June 30, 2022 will remain valid through July 31, 2022.

Notwithstanding these extensions, registrants are strongly encouraged to submit renewal applications as soon as possible in order to ensure timely processing.

We ask that law enforcement agencies in all IRP member jurisdictions refrain from taking action against vehicles with Missouri apportioned license plates expiring on June 30, 2022 until the extension period indicated above has ended.

All vehicles must still maintain valid insurance and abide by all state and federal regulations.

Questions concerning the extension may be directed to Jerica Holtsclaw, MoDOT Motor Carrier Services Director at 573-526-4187 or Jerica.Holtsclaw@modot.mo.gov

Sincerely,

Patrick McKenna

Director, Missouri Department of Transportation

Our mission is to provide a world-class transportation system that is safe, innovative, reliable and dedicated to a prosperous Missouri.
