

LOCHMUELLER SERVICES ENVIRONMENTAL SERVICES

Trusted Advisors

Lochmueller understands that navigating the growing and constantly changing world of environmental regulations requires a deep understanding of how projects impact plant and animal species. We have the creativity to find solutions that balance the needs of both the human and natural environments.

PROJECT HIGHLIGHT

NEPA SUPPORT SERVICES

Lochmueller currently holds two separate contracts, one with the Illinois DOT and another with Indiana DOT, providing support services to environmental units within their respective central offices. Activities within these services include assisting with policy updates and coordination with state and federal partners to progress the agencies' project development programs.

SEE OUR PROJECTS

Lochmueller offers NEPA studies and documentation; noise analysis and monitoring; Section 4(f) documentation; stream assessments with design and mitigation for water quality, biota, and restoration; karst studies; field surveys for animals, plants, and ecosystems; threatened and endangered species consultation; erosion control and inspection; state and federal water permitting; and wetland delineation, design, mitigation, monitoring, and maintenance.

JEFFERSON AVENUE & I-64 ST. LOUIS, MISSOURI

Provided NEPA services for a local agency to reconfigure an interchange system in downtown St. Louis. Prepared the CE II documentation, including the completion of a highway traffic noise assessment, for the City of St. Louis in their pursuit of enhancing transportation connectivity and mobility in the downtown area.

WEST LAKE CORRIDOR NEW STARTS INDIANA TO ILLINOIS

Completed wetland floristic quality assessments, woodland characterization, and endangered species assessments for a 30-mile corridor from Munster/Dyer area in Lake County, Indiana to the Metra Millennium Station in downtown Chicago, Illinois.

SI-70/I-64 INTERCHANGE WENTZVILLE, MISSOURI

Provided NEPA services to MoDOT for the evaluation and processing of an Environmental Impact Statement (EIS) associated with the reconfiguration of a system interchange. Services included a highway traffic noise assessment, cultural resource survey, and regulated substances assessment.
