When the application is submitted, a Conceptual Plan is required. This includes the project's purpose and need stating what conditions will be addressed with the project solution or concept. Article 128 of MoDOT's Engineering Policy Guide (EPG) addresses Conceptual Studies for most projects.

If there is a possibility of a significant environmental impact with the project, then an Environmental Assessment (EA) or Environmental Impact Statement (EIS) is required. Article 126 of the EPG defines the requirement of these documents. If the project is within a 4 mile radius of an airport, indicate the name of the airport and name of the city.

For all eligible costs, provide a breakdown for the following items in the Project Estimates and Funding chart, if applicable: feasibility studies, preliminary engineering, environmental assessment, right of way (ROW) acquisition, ROW acquisition incidentals, utilities, construction contract, and construction engineering. Include other cost categories as necessary. All cost estimates should be expressed on a cash (fiscal year-of-expenditure July to June) basis and should include a narrative describing assumptions used to arrive at such estimates.
