INTRODUCTION

Safety is MoDOT's first priority.

And what better way to encourage safety than to make it easy to find answers to the questions that all new motor carriers – and even experienced haulers – have?

This booklet, our website and MoDOT Motor Carrier Services' staff of professional agents and investigators are excellent sources for information you can trust. MCS folks are experts in safety regulations and practices, industry requirements and keeping your business on the right side of the law. And they are true public servants. Your peers award them with outstanding customer service ratings year after year.

For drivers and everyone involved in the motor carrier business, time is money. The easier we make it for you to do business, the easier it is for you to make a living. Look into MoDOT Carrier Express, our online system. It allows you to make changes to your registration accounts, submit applications and check safety scores any time. Don't wait for us to get into the office. If you need a permit or to add a unit to your fleet, login right away at www.modot.org/mce.

We hope you find this guidebook useful. Keep in mind that it hits the high points. There is a lot to learn and practice as the safe, profitable motor carrier company we hope you become. We are proud to be your partner in that effort.

MoDOT Motor Carrier Services

GETTING STARTED

New Motor Carrier Resources

Safe Start – www.modot.org/mcs. Click the Getting Started button and complete the SafeStart Web Tool. It asks several questions about topics motor carriers encounter. Simply choose the answers that fit your situation and you'll receive a summary of the federal and state safety regulations you must follow. You'll also learn how to obtain license plates, authority and fulfill other business requirements.

Mo. Ag Carrier

Farmers and producers have a second online tool. The Mo. Ag Carrier uses the same question and answer format to determine which regulations and programs apply to your operation (www.modot.org/mcs/MoAgCarrier.htm).

Missouri Secretary of State

Any person wishing to form or conduct business in Missouri as a corporation (including, among others, for-profit, nonprofit and professional corporations), limited liability company, limited partnership, limited liability partnership, limited liability limited partnership, or under a fictitious name, must first apply to the Office of the Missouri Secretary of State for authority to do so.

The Safe Start Web Tool (see above) will help you understand if your business requires registration with the Secretary of State.

www.sos.mo.gov

VEHICLE SAFETY REQUIREMENTS

Commercial Motor Vehicle Definition

Interstate Commerce

When used in interstate commerce, a vehicle is defined as a commercial motor vehicle when it:

- has a gross vehicle weight rating, gross combination weight rating, gross vehicle weight or gross combination weight of 10,001 lbs. or more, or
- is designed or used to transport nine or more passengers – including the driver, or
- is used in transporting hazardous materials in a quantity that requires placards.

Intrastate Commerce

When used in intrastate commerce – that is, wholly within Missouri’s borders – a vehicle is defined as a commercial motor vehicle when it:

- has a GVWR, GCWR or an actual weight of 26,001 lbs. or more, or
- is designed or used to transport nine or more passengers – including the driver, or
- is used in transporting hazardous materials in a quantity that requires placards, or
- has a GVWR, GCWR or an actual weight of 10,001 lbs. or more and is used to transport any quantity of hazardous material.

Vehicle Identification (Markings)

Interstate

Every CMV operated by a motor carrier in interstate commerce must be marked, on both sides of the vehicle, with the following:

- The motor carrier’s legal name or trade name
- The motor carrier’s identification number preceded by USDOT
- If the name of any person other than the operating carrier appears on the CMV, the name of the operating carrier must be followed by the same information as above, and preceded by the words “operated by”
- Other identifying information may be displayed if not inconsistent with the above size, shape, location, and color

The marking must:

- Appear on both sides
- Contrast sharply in color with the background
- Be legible, during daylight hours, from a distance of 50 feet while the CMV is stationary
- Be maintained in a manner that retains legibility

Construction and durability

- The marking may be painted on the CMV or may consist of a removable device that meets the above requirements.

Intrastate

Every CMV operated for hire by a motor carrier only in intrastate commerce must be marked, on both sides of the vehicle, with the same information as provided above, except that:

- The motor carrier ID number preceded by “USDOT”, then the letters “MO” shall be included in the vehicle markings, immediately following the USDOT number, (e.g., USDOT 654321 MO)
- Intrastate for-hire passenger carriers operating limousines or vans with the total capacity of 13 or fewer (including the driver), are allowed to display only the USDOT number anywhere on the rear of the vehicle instead of the vehicle side

Intrastate for-hire carriers must also mark one side of their vehicle with the name of the owner and address from which the vehicle is operated.

Every CMV operated by a private motor carrier only in intrastate commerce must display in a conspicuous place:

- The name of the owner
- The address from which the vehicle is operated
- Each local commercial vehicle must also display in a conspicuous place the word “local”.

INSPECTION AND MAINTENANCE OF COMMERCIAL MOTOR VEHICLES

General Requirements

Every carrier must systematically inspect, repair, and maintain all commercial motor vehicles under its control.

Record-Keeping Requirements

Motor carriers must maintain the following information for every vehicle that they have controlled for 30 days or more:

- Identifying information: company number, make, serial number, year, and tire size
- A schedule of inspections to be performed, including type and due date
- Inspection, repair, and maintenance records
- Records of tests conducted on buses with push out windows, emergency doors, and marking lights

These records must be retained for one year at the location where the vehicle is garaged and maintained for six months after the vehicle leaves the carrier's control via sale, trade-in, or scrap.

Post-Trip Inspection Report

Every carrier must require its drivers to prepare a written post-trip inspection report at the end of any driving day in which the driver discovers a vehicle defect or a defect is brought to their attention, for example, during a roadside inspection. Every driver is responsible for preparing such a report for each vehicle driven. This report must cover at least the following parts and accessories:

- Service brakes - including trailer brake connections
- Parking (hand) brake
- Steering mechanism
- Lighting devices and reflectors
- Tires
- Horn
- Windshield wipers
- Rear-view mirrors
- Coupling devices
- Wheels and rims
- Emergency equipment

Passenger carrier drivers must prepare a written post-trip inspection report at the end of every driving day, whether a defect is discovered or not.

The report must list any condition that the driver either found or had reported to him/her that would affect safety of operation or cause a breakdown. If a passenger carrier driver reports or finds no defect or deficiency, the report should state this. The driver must sign the report in all cases. If the last vehicle inspection report notes any deficiencies, the driver must review and sign to acknowledge that necessary repairs were completed. The report does not have to be carried in the vehicle.

Roadside inspection defects fixed prior to the end of the work day do not need to be listed on the report.

Pre-Trip Inspection Report

Before dispatching the vehicle again, a carrier must certify that any defect or deficiency noted in the latest post-trip inspection was corrected, or state that the deficiency does not require immediate correction. Before starting out, the driver must be satisfied that the motor vehicle is in safe operating condition.

Periodic Inspection

Every commercial vehicle, including each segment of a combination vehicle, requires a periodic inspection. The inspection must be performed at least once every 12 months. At a minimum, inspections must include all items enumerated in the Minimum Periodic Inspection Standards, Appendix G to Subchapter B. Carriers may perform required annual inspections themselves if they meet the inspector qualification requirements found in 396.19. The motor carrier must retain the original or a copy of the periodic inspection report for 14 months from the report date.

Find the Inspector Standards online at <http://www.fmcsa.dot.gov/regulations/title49/section/396.19>

Equivalent to Periodic Inspection

The motor carrier may meet periodic inspection requirements through:

- Self-inspection by qualified employee or
- Third party inspection by qualified individual

Documentation of the most recent periodic inspection must be kept on or in the vehicle.

Inspector Qualification

Motor carriers must ensure that persons performing annual inspections are qualified. Inspectors must:

- Understand the inspection standards of Part 393 and Appendix G
- Be able to identify defective components
- Have knowledge and proficiency in methods, procedures and tools

Find Part 393 and Appendix G online at <http://www.fmcsa.dot.gov/regulations>

Inspector Training or Experience

Inspectors may have gained experience or training by:

- Completing a state or federal training program, or earning a state or Canadian province qualifying certificate in commercial motor vehicle safety inspections
- A combination of other training or experience totaling at least one year

Evidence of Qualifications

Motor carriers must retain evidence of an inspector's qualifications until one year after the inspector ceases to perform inspections for the carrier.

DRIVER SAFETY REQUIREMENTS

Qualification of Drivers

Motor carriers must assure that all drivers of commercial motor vehicles meet minimum qualifications. A file must be kept at the motor carrier's principle place of business containing the following items:

- Driver's application for employment
- Inquiry to previous employers – 3 Years
- Inquiry to state agencies – 3 Years
- Annual review of driving record
- Annual driver's certification of violations
- Driver's road test certificate or equivalent
- Medical examination record and, if applicable, corresponding Skills Performance Evaluation (SPE) Waiver
- Verification medical examiner is listed on the national registry **See below.*
- Entry-level driver training certificate

Each driver's qualification file must be retained for as long as a driver is employed by the motor carrier and for three years thereafter.

Driver Requirements

A driver must meet the following requirements in addition to having the above documents on file at their employer's principle place of business:

- Be at least 18 years of age if operating in Missouri intrastate commerce – unless transporting any quantity of hazardous materials.
- Be at least 21 years of age if transporting any amount of hazardous materials or while operating in interstate commerce.
- Speak and read English well enough to converse with the public, understand highway traffic signs and signals, respond to official questions, and able to make legible entries on reports and records
- Be able to drive the vehicle safely
- Know how to safely load and properly block, brace, and secure the cargo
- Have only one valid driver's license
- Not be disqualified

Physical Examination Requirements

A Department of Transportation physical exam can be performed only by a medical professional who has passed training authorized by the Federal Motor Carrier Safety Administration and is listed on the National Registry of Certified Medical Examiners.

Drivers need to ensure they maintain their current mailing address and current medical exam certificate filed with their State Driver License Office to avoid a record keeping lapse.

*To locate a certified medical examiner, visit <https://nationalregistry.fmcsa.dot.gov/NRPublicUI/home.seam>

Commercial Driver's License

Drivers must hold a commercial driver's license if they operate in interstate, intrastate, or foreign commerce and drive a vehicle that is:

- A single vehicle with a GVWR of 26,001 pounds or more, or
- Has a gross combined weight rating or gross combined weight (GCWR/GCW) of 26,001 pounds or more, inclusive of a towed unit with a gross vehicle weight rating or gross vehicle weight (GVWR/GVW) of more than 10,000 pounds, or
- Designed to transport at least 16 passengers including the driver, or
- Transporting a quantity of hazardous materials that requires a placard.

Endorsements

In addition to general knowledge and skills tests, drivers who operate specialized commercial motor vehicles must pass additional tests and obtain endorsements on their CDL, as follows:

- T — Double/triple trailers (knowledge test only)
- P — Passenger (knowledge and skills tests)
- N — Tank vehicle (knowledge test only)
- S — School Bus (knowledge and skills tests)
- H — Hazardous materials (knowledge test only)
- X — Combination of tank vehicle and hazardous materials (knowledge tests)

Common CDL Restrictions

If an applicant fails a section of the knowledge test, or performs the skills test in a vehicle not fitted with certain equipment the CDL, if issued, will indicate that the license holder **may not** operate any CMV fitted with that equipment. For a complete list of CDL restrictions, contact the Missouri Department of Revenue at (573) 751-2730. Common examples of restrictions include:

- No air brake
- No manual transmission
- No fifth wheel attachment
- Medical variance required
- Intrastate only

For-Hire License (Class E) -- Eligible Age 18

A Class E is a commercial driver's license that qualifies a person to drive a vehicle commercially when that vehicle does not require a CDL. It is required of anyone who receives pay for driving a motor vehicle transporting 14 or fewer passengers, and those who transport property for pay or as part of their employment.

Anyone who regularly operates a motor vehicle for his or her employment, whether the vehicle is owned by that person or another person and the vehicle is designed to carry freight, merchandise or is operated in furtherance of a business or commercial enterprise, must also have a Class E license.

Missouri Classification System

The Missouri Department of Revenue issues several classes of CDL to those who demonstrate the required knowledge and skills. Testing of knowledge and skills is performed by the Missouri State Highway Patrol.

Class A CDL Holders are allowed to operate any combination of vehicles with a GCWR/GCW of 26,001 or more pounds provided the GVWR/GVW of the vehicle(s) being towed is in excess of 10,000 pounds.

Class A CDL holders may also, with appropriate endorsements, operate all vehicles within Class B and C, as well as those which may be driven by a holder of a Class E or Class F license.

Examples of vehicles operated by Class A drivers include, but are not limited to those pictured below, plus

those pictured for classes B and C.

Class B CDL Holders are allowed to operate a single vehicle with a GVWR/GVW of 26,001 or more pounds or any such vehicle towing a vehicle not in excess of 10,000 pounds GVWR/GVW.

Class B CDL holders may also, with appropriate endorsements, operate all vehicles within Class C, as well as those which may be driven by a holder of a Class E or Class F license.

Examples of vehicles operated by Class B drivers include, but are not limited to those pictured below, plus those pictured for Class C.

Class C CDL Holders - This CDL class group applies only to vehicles which do not meet Class A or B requirements, but must be placarded for hazardous materials or are designed to transport 16 or more persons, including the operator. A holder of a Class C license may drive all vehicles which may be driven by a holder of a

GVWR – Gross Vehicle Weight Rating

GCWR – Gross Combination Weight Rating

Class E or Class F license.

Examples of vehicles operated by Class C drivers include, but are not limited to those pictured below:

Disqualifying Offenses/Suspensions for Traffic Violations

Employers must not knowingly allow a driver whose license is suspended to operate a CMV. The disqualifying reasons include convictions for:

- Driving a CMV while under the influence of alcohol and/or a disqualifying drug or other controlled substance. In particular, having a blood alcohol concentration of 0.04 while operating a CMV or a BAC of 0.08 while operating any other motor vehicle.
- Refusing to take an alcohol test as required by a state or jurisdiction under its implied consent laws or regulations.
- Leaving the scene of an accident.
- Using a vehicle to commit a felony.
- Driving with a disqualified, revoked, suspended, or canceled license.
- Using a vehicle to cause a fatality.
- Using a vehicle to commit serious traffic violations.
- Violating an Out-of-Service Order.
- Violating the railroad-highway grade crossing rule.

CDL license-holders are subject to the moving violation standards in 383.51 when driving a personal vehicle.

Hours of Service for Drivers

General Rule

The hours of service rules apply to all motor carriers and drivers of commercial motor vehicles.

Property Carriers

Drivers are limited to driving 11 hours and a 14 consecutive duty period with 10 hours resting between shifts. Drivers are also limited to 60 hours on duty in 7 consecutive days or 70 hours on duty in 8 consecutive days. A driver shall not drive after more than 8 hours have passed since the driver's last off-duty or sleeper berth period of at least 30 minutes.

Passenger Carriers

Drivers are limited to driving 10 hours and working no more than 15 hours each day with 8 hours resting between shifts. Drivers are also limited to 60 hours on duty in 7 consecutive days or 70 hours on duty in 8 consecutive days.

16-Hour Exemption

A property-carrying driver is exempt from the 14-hour daily rule, when:

- The driver returns and is released from his normal work reporting location for the previous five duty tours;

- The driver returns to his normal work reporting location and is released within 16 hours; and
- The driver has not used this exemption within the previous six consecutive days, except that the 16-hour provision may be used after any period of being off duty for 34 or more consecutive hours.

34 Hour Restart for Property Carrier Drivers

A driver of a property-carrying vehicle may restart the 7/8 day working period after taking 34 or more consecutive hours off-duty.

Non-CDL 150 Air-Mile Radius Provision

Drivers are exempt from maintaining the daily log requirements of Section 395.8 if ALL of the following apply:

- The driver operates a property-carrying CMV which does not require a CDL.
- The vehicle is operated within a 150 air-mile radius of its normal work reporting location.
- The vehicle returns to its normal work reporting location at the end of the duty tour.

These drivers are required to comply with the following:

- The 11 hours driving, minimum 10 hours off-duty, 14 consecutive hour duty period, 60/70 hours in 7/8 days, 34-hour restart.
- On any 2 days of every 7 consecutive days, the driver may extend the 14-hour duty period to 16 hours.
- There is no requirement that the driver be released from duty at the end of the 14- or 16-hour duty.

Driver's Record of Duty Status

Every driver shall prepare a record of duty status (driver's daily log) in his/her own handwriting for each 24-hour period, unless operating under the 100 air-mile radius exemption. Failure to complete or retain the log, or knowingly falsifying logs or other reports, makes the driver and/or carrier liable to prosecution.

100 Air-Mile Radius Exemption

Drivers are exempt from maintaining the daily log requirements of Section 395.8 if ALL of the following apply:

- The driver operates within a 100 air-mile radius of the normal work-reporting location
- The driver returns to the work-reporting location and is released from work within 12 consecutive hours.
- Each 12 hours on duty are separated by at least 8 consecutive hours of off-duty time for passenger carriers or 10 consecutive hours off-duty for property carriers
- The driver does not exceed a maximum of 10 hours driving time following 8 consecutive hours off duty for passenger carriers or 11 hours driving time following 10 consecutive hours off duty for property carriers.
- The motor carrier that employs the driver maintains and retains for a period of 6 months accurate time records that show the total number of hours the driver is on duty each day; the time the driver reports for duty each day and the time the driver is released from duty each day

Electronic Logging Devices

As of December 18, 2017, most motor carriers and drivers who are required to maintain records of duty status

(RODS) must have installed and be able to use an FMCSA-compliant electronic logging device to collect and store RODS information and collect required supporting documents. Learn more about the ELD requirement at www.fmcsa.dot.gov/hours-service/elds/electronic-logging-devices

Submitting/Retaining Duty Status Log

Records of duty status, with all supporting documents, must be maintained for a minimum of six months at the carrier's principal place of business. A backup-copy of electronic records must be kept on a separate device.

Those Exempt from ELD Use Requirement

The driver must submit the original log sheet to the employing carrier within 13 days after completion. When a motor carrier uses a driver initially or intermittently, that carrier must obtain from him/her a signed statement giving the total time on duty during the immediately preceding 7 days and the time at which he/she was last relieved of duty.

Using ELD Information for IFTA and IRP Reporting

See **Page 28** for guidance on using information recorded by an ELD for IFTA fuel tax and IRP apportioned license plate reporting. Retention periods for these purposes are significantly longer.

Alcohol and Drug Testing Requirements

Applicability

Drivers who are required to have a commercial driver's license (CDL) are subject to state and federal controlled substance and alcohol testing rules.

Company Policy

Federal Motor Carrier Safety Regulations require motor carrier companies to develop and deliver to every driver a written policy on controlled substances use and alcohol misuse in the workplace. The policy must incorporate the company's position and information on virtually all aspects of controlled substances use and alcohol misuse.

Supervisor Training

Each employer must ensure that all persons designated to supervise drivers receive at least 60 minutes of training on alcohol misuse and receive at least an additional 60 minutes of training on controlled substances use.

Inquiries to Previous Employers

With the driver's written permission, a motor carrier must make an inquiry with the driver's previous employer(s) of three years prior to the date of application to obtain the following documents, if they exist:

- Alcohol tests with a result of 0.04 alcohol concentration or greater
- Verified positive controlled substances test results
- Refusals to be tested
- Other violations of DOT agency drug and alcohol testing regulations
- Documentation of the employee's successful completion of DOT return-to-duty requirements (including follow-up tests) for an employee who tested positive.

Types of Alcohol and Controlled Substance Tests

- Pre-employment: No employer shall allow a driver to perform a safety-sensitive function until a negative controlled substance test result is received for the driver.
- Post-accident: As soon as practical following a crash, each employer must test each surviving driver who was involved in a crash for alcohol and controlled substances if the crash involved:
 - A fatality
 - Injury requiring immediate medical attention away from the scene of the crash and the driver was cited for a safety-related matter
 - A vehicle being towed from the scene of the crash due to disabling damage and the driver was cited for a safety-related matter
- Random: Companies must scientifically and randomly test drivers at a minimum annual percentage rate of 10 percent of the number of drivers for alcohol testing, and 25 percent for controlled-substances testing.
- Reasonable suspicion: An employer shall require a driver to submit to an alcohol and/or controlled substance test when the employer has reasonable suspicion to believe that the driver has violated the prohibitions concerning alcohol and/or controlled substances. The required observations shall be made by a supervisor or company official who has had supervisor awareness training.
- Return-to-duty: Each employer shall ensure that before a driver returns to duty after testing positive shall undergo a return-to-duty controlled substances test with a negative result prior to performing a safety-sensitive function.
- Follow-up: If a substance abuse professional determines that a driver needs assistance for the misuse of alcohol, or for use of a controlled substance, an employer must ensure that the driver is subject to follow-up testing.

Commercial Motor Vehicle Safety Regulation Resources

A complete listing of Federal Motor Carrier Safety Regulations can be found on the FMCSA website:

www.fmcsa.dot.gov/regulations/title49/b/5/3.

MoDOT Safety and Compliance Manual

www.modot.org/mcs

Find the Missouri Safety and Compliance Manual Online

Visit www.modot.org/mcs and click on the Safety & Compliance tab.

Click on the Safety and Compliance Manual bar and choose either the full document or a specific chapter.

INTERNATIONAL REGISTRATION PLAN – APPORTIONED PLATES

Introduction

Motor carriers who operate an apportionable vehicle must participate in the International Registration Plan. An apportionable vehicle is any power unit that is used or intended for use in two or more member jurisdictions – states and Canadian provinces – and that is used for the transportation of persons for hire or designed, used or maintained primarily for the transportation of property, and:

- has two axles and a gross vehicle weight or registered gross vehicle weight in excess of 26,000 lbs., or
- has three or more axles, regardless of weight, or
- is used in combination, when the gross vehicle weight of such combination exceeds 26,000 pounds
- when making point-to-point movements in another state or province regardless of weight

Trailers can be apportioned at the option of the carrier. To apportion trailers, there must be at least one power unit registered. MoDOT Motor Carrier Services only issues permanent, non-transferable trailer plates. The Missouri Department of Revenue (www.dor.mo.gov/motorv) offers other options for plating trailers.

Exempt Vehicles:

- Recreational vehicle
- Vehicles displaying restricted plates
- City pick-up and delivery vehicles
- Government-owned vehicles
- Vehicles having a gross vehicle weight of 26,000 lbs. (11,793.401 kilograms) or less

Opening an IRP Account

To open an IRP account, submit the following forms, which can be found at www.modot.org/mcs. Call MoDOT Motor Carrier Services at 1-866-831-6277 for assistance.

- Motor Carrier Application
- Applicable leases
- Vehicle title in the plate holder's name – unless the vehicle is leased. If the vehicle is leased, submit a title in the owner's name with a copy of the lease signed by the owner and the applicant that applies for the license plate.
- IRS Heavy Vehicle Use Tax Form 2290 in the title holder's name
- Personal property tax receipt or waiver
- Secretary of State business filing certificate – if the account name is anything other than the applicant's given, legal name
- Validations – The names on each form and registration certificate must match exactly
- Three proofs of residency. These can include:
 - A Missouri driver's license
 - A Missouri personal property tax receipt
 - Registration paperwork issued by the Missouri Secretary of State
 - A federal income tax return
 - A Missouri vehicle title, or
 - A utility bill in the carrier's name at a Missouri address.

Cab Card Credential

When IRP registration is complete and fees are paid, the registrant receives a license plate and a credential, known as a cab card, for each registered power unit. The cab card must be carried in the vehicle at all times. It must be produced upon request by a law enforcement officer.

All IRP registrants receive a cab card that lists every participating jurisdiction. Once the carrier has a full-reciprocity cab card, the vehicle can travel in each participating state and province without further registration action. At renewal, the carrier will report each mile traveled in each jurisdiction per vehicle. Miles cannot be rounded or estimated.

If an apportionable vehicle is added to a carrier's operation, it cannot be used until it is added to the carrier's IRP account. Additions, transfers and deletions of vehicles and annual renewal actions are explained below.

Additional Credentials

Carriers that qualify for IRP might need to register in the following programs. Contact MoDOT MCS for help:

- International Fuel Tax Agreement
- Unified Carrier Registration

Annual Apportioned Plate Renewal

Registration Period	File By	Pay By	Plate Expires
January 1 to December 31	October 1	December 1	December 31
April 1 to March 31	January 1	March 1	March 31
July 1 to June 30	April 1	June 1	June 30
October 1 to September 30	August 1	September 1	September 30

Late filing penalty = \$100

Late payment penalty = \$50 per truck to a maximum of \$150

To learn which specific documents are needed in a particular renewal period, visit www.modot.org/mcs, find the Annual Renewal Information block under the International Registration Plan tab and click on IRP Renewal Deadline Lists.

IRP Online Transactions – MoDOT Carrier Express

Annual renewal and changes such as adding a vehicle or transferring a plate can be made online using MoDOT Carrier Express. MCE requires the use of a user ID and password which is issued to every motor carrier customer. Contact MoDOT MCS if you have any issue with the user ID/password.

User guides with step-by-step instruction are available at www.modot.org/mcs under the International Registration Plan tab. Here you will also find the definition of acceptable supporting documents.

Record retention for IRP

Motor carriers and registrants are subject to audit at any time. Mileage, lease and other records must be retained for 3 years. Failure to produce requested records can result in financial and other penalties.

Watch the record keeping video produced by IRP, Inc. at www.modot.org/mcs under the International Registration Plan tab – Record keeping.

72-hour Trip and Hunter’s Permits

Out-of-state vehicles that do not bear apportioned plates are eligible for a 72-hour IRP trip permit when operating temporarily within the State of Missouri as long as federal requirements for interstate travel are met.

Vehicles in transport to join a new leasing agreement are also eligible for the temporary credential – a Hunter’s Permit – which is requested by the most recent motor carrier responsible for the safety of the vehicle.

72-hour permits are available online with MoDOT Carrier Express. Visit www.modot.org/mcs. Choose the blue tab 72-Hour Trip/Fuel Permits. Click on the gray tab, Motor Carrier Application, and answer the questions to download the preliminary application. When the account is set up, carriers will receive a user ID and password for online orders. If you have received 72-hour permits in the past, you can order permits online on the MoDOT Carrier Express system at any time with your existing userID and password.

Closing an IRP Account

If a carrier closes or sells the business, the IRP account must be officially closed and the license plates returned.

Send the plates with a letter stating the intent to close the account to:

MoDOT Motor Carrier Services
830 MoDOT Drive
PO Box 270
Jefferson City, MO 65102

Submit an MCS-150 to the USDOT marking Out-of-Business Notification or Intrastate Operations Only.

Depending on the situation, other programs such as IFTA, UCR and Missouri Operating Authority might need to be inactivated to end the carrier's financial and reporting responsibilities.

Call MoDOT Motor Carrier Services' IRP team at 1-866-831-6277 with any questions.

The complete International Registration Plan is available online at www.irponline.org

IRP Definitions:

Apportionment percentage- the ratio of the distance traveled in the member jurisdiction by a fleet during the reporting period to the distance traveled in all member jurisdictions by the fleet during the reporting period, calculated to six decimal places, rounded to five decimal places, and multiplied by one hundred.

Apportionable Fee- any periodic recurring fee or tax required for registering vehicles, such as registration, license, or weight fees.

Average Per Vehicle Distance – is the distance assigned to the fleet by the base jurisdiction.

Base jurisdiction – the member territory (including 48 states, D.C. and 10 Canadian provinces) in which an applicant applies for apportioned registration under the International Registration Plan (with proof of residence); or the member state or province that issues apportioned registration to a registrant under the plan.

Established place of business – a physical structure located within the base jurisdiction that is owned or leased by the applicant or registrant and whose street address shall be specified by the applicant or registrant. This physical structure shall be open for business and shall be staffed during regular business hours by one or more persons employed by the applicant or registrant on a permanent basis (i.e., not an independent contractor) for the purpose of the general management of the applicant's or registrant's trucking related business (i.e., not limited to credentialing, distance and fuel reporting, and answering telephone inquiries). Operational records concerning the fleet shall be maintained at this physical structure.

What to Know About IRP

Apportioned plate registration must be renewed each year.

Annual renewal and other supplemental transactions can be processed online at www.modot.org/mce.

72-hour trip permits and hunter's permits are available.

An IRP account must be officially closed to end a carrier's financial and reporting responsibilities.

IRP Definitions (continued)

Fleet – one or more apportionable vehicles designated by a registrant for distance reporting under the International Registration Plan.

Household Goods Carrier-a carrier handling (i) personal effects and property used or to be used in a dwelling, or (ii) furniture, fixtures, equipment, and the property of stores, offices, museums, institutions, hospitals, or other establishments, when a part of the stock, equipment, or supply of such stores, offices, museums, institutions, including objects of art, displays, and exhibits, which, because of their unusual nature or value, requires the specialized handling and equipment commonly employed in moving household goods.

Reciprocity – the reciprocal grant by one jurisdiction of operating rights or privileges to properly registered vehicles registered by another jurisdiction, especially but not exclusively including privileges generally conferred by vehicle registration.

Registrant – a person in whose name a properly registered vehicle is registered.

Rental Fleet- Vehicles the Rental Owner designates as a Rental Fleet and which are offered for rent with or without drivers.

Reporting period – the period of twelve consecutive months immediately prior to July 1 of the calendar year immediately preceding the beginning of the registration year for which apportioned registration is sought. If the registration year begins on any date in July, August, or September, the reporting period shall be the previous such twelve-month period.

Residence – the status of an applicant or a registrant as a resident of a member jurisdiction.

Restricted Plates – none issued by MoDOT Motor Carrier Services

Total Distance- all distance operated by a Fleet of Apportioned Vehicles

INTERNATIONAL FUEL TAX AGREEMENT (IFTA)

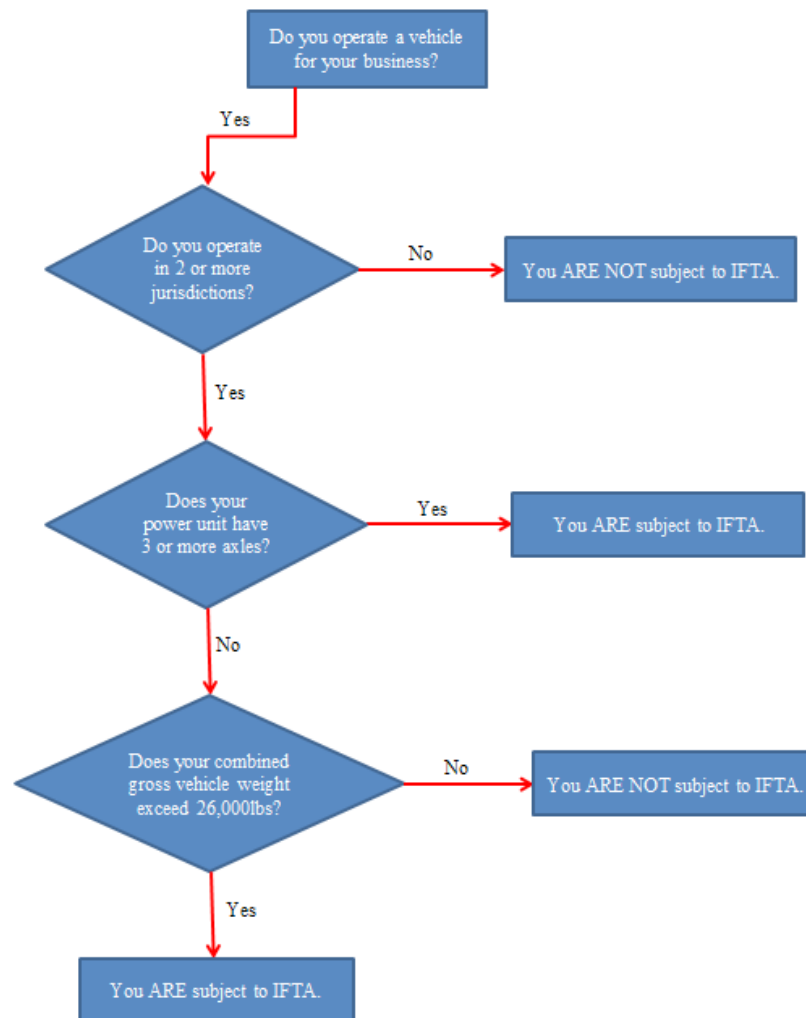

Introduction

The International Fuel Tax Agreement is a pact between 48 states, the District of Columbia and 10 Canadian provinces. These territories are called jurisdictions. IFTA allows a carrier to file one, usually quarterly tax return, with the carrier's base jurisdiction to report miles of operation and fuel purchased in all jurisdictions. Recreational vehicles or units that travel solely within their base jurisdictions are exempt from IFTA.

Are you subject to IFTA reporting and record keeping requirements?

A motor carrier must have an IFTA license if it operates in two or more jurisdictions and the power unit:

- Has two axles and gross vehicle weight or registered gross vehicle weight of 26,001 lbs. or heavier;
- Has three or more axles, regardless of weight; or
- Is used in combination and the said combination has a gross vehicle weight or registered gross vehicle weight of 26,001 lbs. or heavier.

Applying for an IFTA license

Opening an Account

The IFTA application is listed on our website at www.modot.org/mcs under International Fuel Tax Agreement/Forms. You may contact our office to obtain the IFTA application as well at 866-831-6277.

To open a new IFTA account, the applicant must have

- A completed Missouri IFTA application
- Missouri license plate information
- Completed registration certificate from the Missouri Secretary of State, noting the company name or fictitious name. A fictitious name is any name under which a person transacts business, other than his or her legal name. It is also known as a DBA or “doing business as” name.

Credentials

Once registered, each vehicle should display IFTA decals on both sides. Placement instructions are printed on the backing sheet of the decals. A copy of the IFTA license shall be carried in the vehicle. The license and decals are valid from January 1 to December 31.

Annual Renewal

As long as the account is in good standing, IFTA decals are automatically renewed in late November. A grace period through the end of February exists for active carriers with prior year decals.

An IFTA license can be suspended and/or a renewal denied if:

- Quarterly tax returns have not been filed and/or paid.
- An outstanding audit balance is due.
- The vehicle’s IRP (apportioned) license plates have expired.
- The carrier’s Unified Carrier Registration has not been paid.
- The carrier’s USDOT number is in Out-of-Service status.
- The carrier has not operated outside the state of Missouri for four calendar quarters.

Quarterly IFTA Fuel Tax Returns

IFTA license holders must file a fuel tax return each calendar quarter or in limited cases, annually. The easiest method is to file online through MoDOT’s website www.modot.org/mce. A userID and password is required. Tax forms are also available as PDFs on a different webpage, www.modot.org/mcs. The PDF can be saved and emailed or printed and sent through the mail.

The majority of carriers file each quarter, however, after one full calendar year of quarterly returns, a carrier may become an annual fuel tax filer if it operated fewer than 5,000 out-of-state miles the prior year. Mileage and fuel records are still required, but annual filers only report them once a year – in January. Those who qualify for annual filer status will receive a notice from MoDOT Motor Carrier Services. Annual filers can complete an electronic return at www.modot.org/mce, or fill out and email or mail an annual return.

The PDF of the return form is located on the MoDOT Motor Carrier Services website at www.modot.org/mcs.

Information needed for fuel tax return reports includes:

1. The total number of miles and the number of taxable miles traveled in each jurisdiction
2. The number of gallons/liters of fuel purchased and consumed in each jurisdiction
3. The type of fuel used

Quarterly returns must be filed and paid by the end of the month following each quarter.

Quarter	Dates of Quarter	File and Pay by
1st Quarter	January 1 – March 31	April 30
2nd Quarter	April 1 – June 30	July 31
3rd Quarter	July 1 – September 30	October 31
4th Quarter	October 1 – December 31	January 31

Late-Payment Penalties

Penalties are incurred when fuel tax returns are filed and/or paid after the date due.

The penalty for filing late is \$50 or 10% of the tax due, whichever is greater. Renewal of an annual IFTA license is denied carriers whose accounts are not current.

Some late-filing carriers are required to pay a bond equal to twice the average tax liability. The accounts of those whose payments are overdue are subject to suspension.

Credits and Refunds

All jurisdictions set fuel tax rates independently. The amount of fuel tax a carrier owes each state or province depends on the number of miles operated and the amount of fuel purchased in each jurisdiction. If a carrier operates in two states and only has fuel purchases in one state, then it will have a credit in one state and owe a balance due in the other. The tax rate will determine whether the carrier will have a credit or have a balance due.

MoDOT Motor Carrier Services sends a letter to those whose accounts show a credit. Sign and return the letter to receive a refund. Those who would like to apply a credit to the following quarter’s fuel tax bill can call MoDOT MCS to apply the funds.

Account Changes

Name Changes and New FEIN numbers

Any time a motor carrier undergoes a name change and/or requests and receives a new Federal Employer Identification Number, the IFTA account is affected. Notify MoDOT Motor Carrier Services to request an updated IFTA license.

Purchase, Sale or Trade of a Vehicle

Upon purchase of a new truck, contact MoDOT MCS to request additional decals. A temporary credential will be emailed or faxed as proof of compliance until the permanent decals arrive in the mail.

IFTA decals are non-transferable. They are assigned to the carrier, not the truck. Before a sold or traded vehicle changes hands, remove the decals and place a note in the vehicle record that the decals are destroyed.

Canceling an IFTA Account

Contact MoDOT Motor Carrier Services at 1-866-831-6277 to cancel the IFTA account. All quarterly returns must be filed and any taxes due paid through the current quarter. Return the IFTA license to MoDOT MCS as well as any unused IFTA decals.

If the business is closing, be certain to cancel the International Registration Plan apportioned license plates, if applicable.

IFTA and Leasing Situations

Carriers that hold their own apportioned license plates and lease on with another company are not necessarily required to have an IFTA account in their own name. The lease agreement should outline which party will hold the IFTA license and make quarterly tax return reports.

Border States Agreement

A qualified motor vehicle used, designed, or maintained for the transportation of farm products or a school bus used to transport students to or from school or any place for educational purposes is exempt from IFTA requirements for travel within 30 miles of the Iowa/Missouri border. Other operations do not qualify under this agreement. For more detailed information, please refer to the Bi-State Reciprocity Agreement. It can be found at www.modot.org/mcs/documents/IowaBi-StateAgreement-clearcopy.pdf.

Fuel Trip Permits

A CMV traveling between two jurisdictions that is 26,000 lbs. GVWR or heavier, but does not bear an IFTA license and decal, can still travel in Missouri if the driver obtains a 72-hour fuel trip permit. Purchase a permit from MoDOT Motor Carrier Services by calling 1-866-831-6277.

New accounts must complete a New Customer Form before the permit can be processed, but subsequent permits can be ordered by phone or online.

A fuel trip permit is required for each state in which the non-IFTA participating vehicle travels. Be certain to obtain a permit before crossing a state line. No grace area is granted by any state. Some states limit the number of fuel trip permits granted per vehicle, per year. Check with each jurisdiction before planning an interstate operation.

Record-Keeping Requirements

Distance Accounting and Record Preservation

IFTA licensees must keep records for each individual vehicle. Carriers can use Individual Vehicle Mileage Records (trip sheets or trip reports) for this purpose. All travel, whether loaded, empty, deadhead or bobtail, must be reflected in the record. IVMRs must be summarized monthly by vehicle and for the entire fleet.

Records must be retained for 4 years from the tax return date or the filing date, whichever is later. For example:

- A second quarter 2014 report due July 31, but filed your report on July 10 must be retained through July 31, 2018.
- A second quarter 2014 report due July 31, but you filed on September 1 must be retained through September 1, 2018.

Records must be available upon request for IFTA audits. Failure to retain and preserve records could result in assessments and penalties. Failure to comply can also result in suspension or revocation of operating credentials.

Individual Vehicle Mileage Record Requirements

At a minimum, all of the following information should be listed on the IVMR:

- Beginning and ending trip dates
- Trip origin and destination
- Route of travel
- Beginning and ending odometer readings
- Total trip distance traveled
- Miles by jurisdiction
- Vehicle identification and fleet number
- Licensee's name

If a licensee fails to maintain accurate records, the base jurisdiction will add appropriate penalties and interest in an audit assessment.

Fuel Accounting

Carriers must maintain complete records of all fuel purchased, received and used. Separate totals must be kept for each fuel type. Retail and bulk fuel purchases are to be accounted for separately.

Any receipts or invoices that have been altered in any way will not be accepted for tax-paid credits unless the licensee can demonstrate the receipt is valid. If receipts for fuel purchases or usage are not available, all claims for tax-paid fuel will be disallowed.

Retail Fuel

Retail purchases must be supported by a receipt or proof of purchase. At a minimum, this documentation must include all of the following:

- Date of purchase
- Seller's name and address
- Number of gallons (liters) purchased
- Fuel type
- Price per gallon or amount of sale
- Unit numbers
- Purchasing company's name

It is recommended that licensees record fuel purchases on their IVMR.

Bulk Fuel

Bulk fuel is fuel that is delivered into a storage tank owned, leased, or controlled by the licensee and not placed directly to the fuel tank of a qualified vehicle. The licensee must retain copies of all delivery tickets and/or receipts. Bulk fuel reconciliations must be maintained.

A carrier may claim a tax credit on an IFTA return for bulk fuel drawn from a storage tank once the fuel is in the fuel tank of a qualified motor vehicle and either the purchase price of the fuel including tax paid to the member jurisdiction in which the tank is located or the licensee has paid fuel tax to a member jurisdiction where the tank is located. The licensee must maintain the following records:

- Date of withdrawal
- Number of gallons or liters
- Fuel type
- Unit number
- Purchase and inventory records to substantiate that tax was paid on all bulk purchases

Off-Road Fuel

Records should be maintained for off-road fuel purchases and use for auditing purposes.

Electronic Data Recording Systems

Electronic data recording systems may be used in place of or in addition to handwritten trip reports.

Equipment-monitoring devices that transmit data or that can be used to determine vehicle location or routes traveled may be used to supplement or verify handwritten or electronically generated trip permits.

Any device or electronic system used must meet all of the requirements stated in the IFTA Procedures Manual (Section P600 through P670). The procedures manual is available as a download at www.iftach.org.

UNIFIED CARRIER REGISTRATION

Introduction

The Unified Carrier Registration Agreement is a federally mandated, state administered program for collection of interstate registration fees. MoDOT Motor Carrier Services administers the Unified Carrier Registration Agreement for the State of Missouri.

Compliance

The following are required to comply with the UCR agreement:

- interstate motor carriers,
- motor private carriers of property,
- freight forwarders,
- brokers, and
- leasing companies

Registration and Annual Renewal

UCR registrations are valid for one registration year (calendar year) and are not prorated. Annual registration expires on December 31 of each calendar year.

Carrier fees are based upon the number of vehicles owned and operated as reported to the USDOT through the MCS-150 form. Fees are subject to change at the beginning of each registration year. The current UCR fee table is available at www.modot.org/mcs under the UCR tab.

Fees collected through the UCR program are used for motor carrier safety programs, enforcement, or administration of the UCR agreement.

Applicants that apply and pay fees for fewer vehicles than reported on the latest MCS-150 are subject to audit.

How to Apply

Applicants may file an application online and pay fees at www.modot.org/mce or obtain an application to be emailed, mailed or faxed at www.modot.org/mcs.

Credential

UCR compliance is verified electronically. There is no paper credential for the program.

MISSOURI INTRASTATE OPERATING AUTHORITY

Introduction

Intrastate operating authority is required for motor carriers that transport property, household goods and/or passengers in intrastate commerce within Missouri. The registration process promotes motor carrier safety and because it requires continual filing of insurance, promotes carriers' economic health while providing protection to the traveling public.

Registration and Annual Renewal

Intrastate Operating Authority requires an initial registration, yearly renewal and annual purchase of a regulatory decal(s) to be placed on the side of each unit involved in intrastate commerce. The annual regulatory decals are \$10 each. Carriers who also operate in interstate commerce and pay fees under the UCR program are not required to purchase the annual regulatory decal; however, they are required to obtain intrastate operating authority.

Applicants can file an application online using MoDOT Carrier Express at www.modot.org/mce or obtain an application to be mailed or faxed at www.modot.org/mcs. Call MoDOT Motor Carrier Services at 1-866-831-6277 for assistance.

MoDOT Carrier Express requires the use of a user ID and password. Carriers with an existing account can send an email to ContactMCS@modot.mo.gov to reset a password. Those who do not have an account will receive login credentials upon completion of MoDOT's Motor Carrier Application found at www.modot.org/mcs.

Insurance

Intrastate carriers are required to file proof of insurance with the Missouri Department of Transportation. Minimum insurance liability limits are contained within the insurance requirements table (Table 1). Intrastate Operating Authority may be suspended at any time for lapse of insurance or other program requirements. Intrastate Operating Authority requirements vary depending on the type of authority (Table 2).

Canceling Registration

Intrastate operating authority remains in effect until a carrier voluntarily cancels or is revoked of registration. When an intrastate carrier goes out of business for any reason, it is important to properly cancel the authority. Call MoDOT Motor Carrier Services at 1-866-831-6277 for assistance.

Property Carrier Registration

Missouri intrastate carriers that transport property in commerce must obtain Property Carrier Registration. Carriers and operations exempted from operating authority requirements include those who transport:

- Farm or dairy products from a farm or dairy
- Property from farm-to-farm
- U.S. Mail, when contracted to the US Government
- Property when contracted directly to the State of Missouri or any civil subdivision

- Freight in vehicles registered and licensed for gross weight of 6,000 lbs or less
- Property wholly within a municipality, or between touching municipalities, or within a commercial zone* (except motor carriers of commodities in bulk to include liquids in tank or hopper type vehicles)
- As a tow truck or wrecker, exclusively used in the business of towing or otherwise rendering assistance to abandoned, disabled or wrecked vehicles;
- Property as a private carrier

Passenger Certificate or Permit

Missouri intrastate carriers transporting passengers in commerce must obtain a passenger certificate or permit. Common carriers transporting passengers are granted a certificate. Contract carriers are granted a permit. Carriers and operations exempted from operating authority requirements include:

- School buses
- A motor vehicle having a seating capacity of not more than five passengers, exclusive of the driver
- Those transporting passengers when contracted directly to the State of Missouri or any civil subdivision
- Those transporting passengers wholly within a municipality, or between touching municipalities, or within a commercial zone* (except to, from or between points located wholly or in part in counties having a population of more than 300,000 persons)
- Motor vehicles being used solely by a group of employees commuting to and from work, except that the motor vehicle must be driven by a member of the group
- Private carriers

Household Goods Certificate or Permit

Missouri intrastate carriers that transport household goods must obtain a certificate or permit. Common carriers transporting household goods are granted a certificate. Contract carriers are granted a permit. Carriers and operations exempted from operating authority requirements include:

- Those transporting household goods when contracted directly to the State of Missouri or any civil subdivision
- Freight-carrying vehicles registered and licensed for a gross weight of 6,000 lbs or less
- Private carriers

The exemptions listed here are those most-commonly used. For a complete list of exemptions, refer to Missouri Revised Statutes 390.030 - www.moga.mo.gov/statuteSearch/StatHtml/3900000030.htm or visit <http://www.modot.org/mcs/documents/IntrastateOperatingAuthorityExemptions.pdf>

* Commercial zone areas are defined in Missouri Revised Statutes 390.020 and are outlined on the Missouri Vehicle Route Map. An electronic copy of the map can be found in the electronic toolbox at www.modot.org/mcs. Send an email to ContactMCS@modot.mo.gov for a paper copy of the Missouri Vehicle Route Map.

HAZARDOUS WASTE TRANSPORTER LICENSE

Introduction

All motor carriers who transport hazardous waste, used oil, or infectious waste on the roads and highways of Missouri need a Hazardous Waste Transporter License. The Missouri Department of Transportation collaborates with the Missouri Department of Natural Resources in administration of this program.

Application and Annual Renewal

A Hazardous Waste Transporter license is valid for one year from the date of issue.

To apply for a Hazardous Waste Transporter License, email or fax a completed Motor Carrier Application to Motor Carrier Services. MCS will respond with a user ID and password to MoDOT Carrier Express. The carrier can then file a HW-1 application form electronically.

Renewal applications should be filed at least 60 days prior to the expiration of the license. Log into MoDOT Carrier Express at www.modot.org/mce to complete the process or find the HW-1 application at www.modot.org/mcs under the Hazardous Waste Transporters tab. Fax, email or mail the completed HW-1 application to Motor Carrier Services.

Credential and Fees

Hazardous Waste Licenses are issued by mail, email or fax upon successful application and fee payment.

Fees are based on the total weight of vehicles used to transport hazardous waste in Missouri; the number of Missouri hazardous waste shipments and the number of miles traveled in Missouri. The maximum fee for a Hazardous Waste Transporter License is \$25,000, but fees are usually much less. Carriers can add vehicles to their license throughout the year at a prorated fee. Carriers may also replace vehicles on their license throughout the year at no fee.

Insurance Requirements

Carriers with a Hazardous Waste Transporter license are required to file proof of insurance (Form E) with the Missouri Department of Transportation. Minimum insurance liability limits are the standards set forth by the Federal Motor Carrier Safety Administration for transportation of Hazardous Materials. If insurance lapses or other violations occur, the Hazardous Waste Transporter license can be suspended or revoked.

Find the current minimum insurance liability limits at: www.modot.org/mcs/documents/MissouriIntrastateOperatingAuthorityInsuranceRequirements7CSR265-10.030.pdf.

WASTE TIRE TRANSPORTER PERMIT

The Missouri Department of Transportation collaborates with the Missouri Department of Natural Resources in administration of this program.

Compliance

A Waste Tire Transporter Permit is required for all persons who transport waste tires in Missouri, both in interstate and intrastate transportation.

A waste tire, or scrap tire, is defined as a tire that is no longer suitable for its original intended purpose because of wear, defect or damage.

Persons exempt from obtaining a Waste Tire Transporter Permit include:

- A person who does not haul for consideration or commercial profit
- A person hauling warranty tires or new defective tires to the retailer, wholesaler or manufacturer for adjustment or credit
- A person hauling waste tires which have been generated at his/her own business or residence provided that his transportation is done using his/her own employees and vehicles

Application and Annual Renewal

A Waste Tire Transporter Permit is an annual permit that is renewed yearly. The annual permit fee is \$100. The license is valid for one year from the date of issuance.

New applicants must complete a Motor Carrier Application, available at www.modot.org/mcs. Once completed, a user ID and password is issued so the carrier can quickly file a Waste Tire application online at www.modot.org/mce.

Applicants can also obtain a Waste Tire WT-1 application at www.modot.org/mcs and email, fax or mail it to MoDOT Motor Carrier Services.

OVERSIZE OVERWEIGHT

Introduction

Motor Carriers who haul non-reducible loads that exceed Missouri’s legal weight and size requirements must obtain Oversize Overweight permits. The permits outline specific routes and special requirements the carrier must follow when using the Missouri state highway system. Carriers and drivers must read and obey every statement within an OSOW permit.

Single Trip Permit

On or within 10 miles of Missouri’s Interstate and Designated Highway System (not in a commercial zone.)

DIMENSION	LEGAL	ROUTINE MAXIMUM PERMITTABLE
WIDTH	8’6”	16’
HEIGHT	14’	16’
LENGTH — TRAILER & LOAD TRUCK-TRACTOR SEMI-TRAILER COMBINATION	53’	N/A
LENGTH — OVERALL TRUCK-TRACTOR SEMI-TRAILER COMBINATIONS	N/A	150’
LENGTH — TRUCK-TRAILER COMBINATIONS	65’	75’
LENGTH — AUTO/BOAT TRANSPORTER	75’ plus 3’ front & 4’ rear overhang	N/A
LENGTH - STINGER-STEERED AUTO TRANSPORTER	80’ plus 4’ front & 6’ rear overhang	N/A
LENGTH — TOWED UNITS	65’	150’
LENGTH — SINGLE UNITS	45’	60’
WEIGHT — TRUCK-TRACTOR SEMI- TRAILER COMBINATIONS	80,000 lbs*	160,000 lbs
WEIGHT — SPECIALIZED EQUIPMENT	REFER TO SPECIALIZED EQUIPMENT CHART IN OSOW PERMIT REGULATION BOOK www.modot.org/mcs	152,000 lbs

Commercial Zone Single Trip Permit

Travel within a legally-designated commercial zone

DIMENSION	LEGAL	ROUTINE MAXIMUM PERMITTABLE
WIDTH	8'6"	16'
HEIGHT	15'	16'
LENGTH — TRAILER & LOAD TRUCK-TRACTOR SEMI-TRAILER COMBINATION	53'	N/A
LENGTH — OVERALL TRUCK-TRACTOR SEMI-TRAILER COMBINATIONS	N/A	150'
LENGTH — TRUCK-TRAILER COMBINATIONS	65'	75'
LENGTH — AUTO/BOAT TRANSPORTER	75' plus 3' front & 4' rear overhang	N/A
LENGTH - STINGER-STEERED AUTO TRANSPORTER	80' plus 4' front & 6' rear overhang	N/A
LENGTH — TOWED UNITS	65'	150'
LENGTH — SINGLE UNITS	45'	60'
WEIGHT — NOT TO EXCEED 22,400 LBS PER AXLE	N/A	NONE

Commercial zone permits are only available within a specified radius of Kansas City, St. Louis, Springfield, St. Joseph and Columbia. You can find the zones on the Missouri Vehicle Route Map. An electronic copy of the map can be found in the electronic toolbox at www.modot.org/mcs. Send an email to ContactMCS@modot.mo.gov for a paper copy of the Missouri Vehicle Route Map.

Routine Single Trip Permit Fees

- \$15 for a load of legal weight
- \$15 plus \$20 per 10,000 lbs. over legal gross weight
- \$265 house move permit*
- \$265 single trip move within a commercial zone

* House-moving carriers require special registration with the State of Missouri. Call MoDOT Motor Carrier Services for more details – 1-866-831-6277 and select the option for intrastate operating authority. Ask about obtaining a Missouri House Mover License.

Information Required to Apply for a Single Trip Permit:

- Year, make, license number and VIN of power unit and trailer and any other hauling units.
- Load description, make, serial number and dimensions of load.
- Overall dimensions and length of trailer and load if a truck tractor, semi-trailer combination.

- Individual or group axle weights.
- Individual axle spacings (center to center).
- Origin of route – provide a highway junction point.
- Destination of route – provide a highway junction point.
- The origin and destination points cannot be on an interstate unless the exit number is provided.
- The requested route and date of movement.

For oversized, overweight permits on metropolitan city streets, contact:

St. Louis City - (314) 647-3111, ext. 1025

Kansas City - (816) 513-2674

Blanket Permits

Blanket permits are available for carriers who move certain commodities several times in the course of a year on state-maintained highways.

Legal Weight and Height Blanket Permits

Loads can be up to 12'4" wide and 150' in overall length, depending on the items shipped.

- Mobile homes
- Pipes
- Poles
- Beams
- Hay
- Farm implements
- Implements of husbandry
- Construction equipment
- Government movements
- Like objects
- Multiple commodity combinations

Farmers and farm implement dealers are allowed blanket permits for legal weight and height for loads up to 14'6" wide for moves within a 100-mile radius of the principal place of business.

Overweight Blanket Permits

- Emergency Response
- Concrete Pump Truck
- Well Drilling Rig
- Longer combination vehicles within 20 miles of Missouri's western border

Blanket Permit Maximum Fees *(prorated by calendar quarter)*

Loads up to 12'4" wide and of legal weight	\$128/calendar year
Multiple commodity shipments of legal weight	\$400/ calendar year
100-mile radius of legal weight	\$128/ calendar year
Emergency response	\$624/ calendar year
Water well drill rig concrete pump	\$300/ calendar year
Concrete pump	\$300/ calendar year

www.modot.org/mcs

Superloads

Loads that exceed the routine permissible maximum are referred to as superloads. Superload permitting involves detailed route studies by MoDOT highway and bridge structure experts, so carriers are advised to allow extra time, at least two weeks, between application and receipt of a completed permit.

Information Required to Apply for a Superload Permit

- Year, make, license number and VIN of power unit and trailer and any other hauling units.
- Load description, make, serial number and dimensions of load.
- Overall dimensions and length of trailer and load if a truck tractor, semi-trailer combination.
- Individual or group axle weights.
- Individual axle spacings (center to center).
- Origin of route – provide a highway junction point.
- Destination of route – provide a highway junction point.
- The origin and destination points cannot be on an interstate, unless the origin or destination is an exit/entrance ramp number.
- The requested route and date of movement.

Superload Escorts

Superloads require the use of one front and one rear civilian escort, except;

- If crossing a bridge at crawl speed in Kansas City or St. Louis. One front and two rear civilian escorts are required for the bridge portion of the move.
- If the load exceeds 16' in width, one front and two rear civilian escorts are required on all sections of dual-lane highway. If Missouri State Highway Patrol escorts are present, one civilian escort at the front and one at the rear is required.

In addition to the civilian escorts needed in the situations above, Missouri State Highway Patrol escorts are required when:

- The load exceeds 16' in width on any highway other than an interstate or Mo. Route 370.
- The load exceeds 18' in width on an interstate or on Mo. Route 370.
- The load exceeds 150' overall length on any highway.
- The load exceeds 17' in height on any highway.

Superload Fees

Overweight superload fees are \$15 plus \$20 per each 10,000 lbs over legal gross weight, plus bridge and roadway analysis fees of \$425 for each permit for moves 0-50 miles in length, \$625 for 51-200 miles or \$925 for more than 200 miles.

Overdimension superload fees are \$15 plus \$250 for a movement feasibility study.

All superload applications must include a route survey and emergency plan. Find these forms under the Oversize Overweight tab at www.modot.org/mcs.

Insurance

Schedule Of Minimum Limits Of Combined Single Limit Automobile Liability

Type of Move	Amount
Routine	\$750,000
Superloads	\$2,000,000
House Move	\$2,000,000

OSOW Holiday Travel Restrictions

Movement of OSOW loads is restricted on the following holidays:

New Year’s Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day.

The restrictions begin at 12:00 noon on the day preceding the holiday or the holiday weekend period.

In the event a holiday falls on Saturday, the restriction will apply to the preceding Friday. If a holiday falls on Sunday, the restriction will apply to the following Monday.

The restriction for Thanksgiving begins at 12:00 noon on Wednesday and applies until one-half (1/2) hour before sunrise on the following Monday.

When Christmas falls on a Saturday or Sunday, travel is restricted from 12:00 noon on the preceding Friday. Movement resumes on Monday when Christmas is on Saturday. If it is celebrated on a Sunday, movement resumes on Tuesday.

Holiday	Day of the Week	Restriction Begins at Noon	Restriction Ends 30 Minutes Before Sunrise
Memorial Day and Labor Day	Always Monday	Always Friday	Always Tuesday
New Year’s Day Independence Day, and Christmas Day	Monday through Friday	The day preceding the holiday	The day following the holiday
New Year’s Day and Independence Day	Saturday	Friday	Sunday
New Year’s Day and Independence Day	Sunday	Saturday	Monday
Thanksgiving Day	Always Thursday	Always Wednesday	Always Monday
Christmas Day	Saturday	Friday	Monday
Christmas Day	Sunday	Friday	Tuesday

Travel Limitations

When moving under the rule of an OSOW permit, travel is limited to 30 minutes before sunrise to 30 minutes after sunset.

No movement is allowed when road conditions are hazardous, e.g., when highways are snow and ice covered or when cross winds affect the movement. If visibility is less than five hundred feet, movement is not allowed. Read and understand the rules and conditions printed on the permit document before moving within Missouri.

OSOW Essentials

If the truck and load are at or below the following measures, the load is of legal size and can move without an oversize overweight permit:

- 8'6" wide
- 14' high - on interstate highways. 13'6" high - on all other state routes.
- 53' length – truck-tractor/semi-trailer combination
- 65' length – truck/trailer combination or towed units
- 45' length – single units
- 80,000 lbs. gross weight
- 85,500 lbs. gross weight when hauling livestock, grain, grain co-products or milk in specific situations (see page 42)

If the dimension or weight of the truck and load exceed legal parameters, an oversize overweight permit is required to move in Missouri.

Read, understand and obey every line of text in the permit. Never travel off the prescribed route. If a change is necessary, call MoDOT Motor Carrier Services at 1-800-877-8499 to amend the permit.

During six holiday periods, OSOW movement is prohibited. Know and plan for these holidays.

If weather conditions make driving hazardous, re-read and obey the travel limitations printed on the permit. Err on the side of caution.

If traveling interstate, be certain to fulfill any necessary requirements of the International Registration Program, International Fuel Tax Agreement and Unified Carrier Registration before crossing a state line.

Milk, Livestock, Grain and Grain Co-Product Allowances

Agricultural Exemptions

Farmers are exempt from OSOW permit regulations when transporting their own property from farm-to-farm, dealer-to-farm or farm-to-dealer, however the exemption does not apply to travel on interstate highways.

All motorists must observe and obey bridge weight restrictions and highway structure height limits.

Raw milk and livestock haulers are allowed to operate a CMV loaded to a gross weight of 85,500, on highways other than interstates, statewide. Vehicles hauling grain and grain co-products can weigh as much as ten percent more than the maximum weight limitation indicated in a weight-by-axle chart contained within the law.

When traveling at heavier weights, these loads may NOT use any portion of an interstate highway.

Visit www.modot.org/bridgelimits to find the weight-by-axle chart and learn more about the responsibilities that coincide with the additional weight privilege.

Additional Resources

The revised Missouri State Statutes that govern oversize overweight loads include:

304.180 www.moga.mo.gov/statuteSearch/StatHtml/3040000180.htm

304.190 www.moga.mo.gov/statuteSearch/StatHtml/3040000190.htm

304.200 www.moga.mo.gov/statuteSearch/StatHtml/3040000200.htm

Complete Missouri Oversize Overweight regulations are available under the OSOW tab at www.modot.org/mcs. Contact MoDOT MCS for a hard copy, if you prefer, at 1-866-831-6277.

A brochure produced by the Missouri State Highway Patrol, "Size and Weight Limitations", is also helpful. Find an electronic copy at www.mshp.dps.missouri.gov/MSHPWeb/DevelopersPages/brochures.html.

MODOT CARRIER EXPRESS

Online Service

Any time, any day, Missouri motor carriers can access their MoDOT account to register equipment, apply for a permit, file a fuel tax return and more with MoDOT Carrier Express.

Use MCE to

- Complete registration and permit applications
- Make changes to apportioned plate and fuel tax accounts
- File IFTA tax returns
- Obtain 72-hour trip permits for trip and fuel
- File UCR registration
- Register and update intrastate authority
- Monitor Safety Measurement System standings in CVIEW

Helpful guides for each process can be found at www.modot.org/mcs.

MoDOT Carrier Express works with Internet Explorer, Firefox, Chrome and Safari. However, software used to complete OSOW, hazardous waste and waste tire permit transactions is not compatible with app-based devices such as tablets and mobile phones. These transactions require the use of a program-based computer, such as a PC or Apple Mac. For more information about computer system requirements, visit www.modot.org/mcs/SystemRequirements.htm.

Login

Start working with MCE by visiting www.modot.org/mce, then log in.

User ID and Password

Carriers with an existing relationship with MoDOT Motor Carrier Services already have the user ID and password that are needed to login. If you don't recall the information, or are a new Missouri motor carrier, visit www.modot.org/mcs/MotorCarrierExpress.htm to send a request.

Electronic Payments

MCS accepts e-Check, Visa, MasterCard, American Express and Discover. Convenience fees apply. The fees are displayed at the time of payment.

MoDOT takes seriously its responsibility to keep motor carriers' information private. We can only discuss accounts with those people appointed as official contacts by the companies we serve.

Checklists

Active Carriers

One time – Safety Audit - MoDOT visits with new carriers within the first 18 months of operation to ensure carriers understand and comply with safety requirements.

Biennial – Every other year, update URS with USDOT.
www.fmcsa.dot.gov/registration/unified-registration-system

Annual – Each year, credential or permit renewals are required to continue operations in the IRP, IFTA, OPA and UCR programs. OSOW blanket permits expire on December 31 and can be renewed.

Quarterly – IFTA Fuel Tax Return. Carriers who operate more than 5,000 miles annually must file quarterly fuel tax returns. Those who operate fewer than 5,000 miles per year can request to file one return annually. Please contact MoDOT Motor Carrier Services for more information on annual filing.

As needed – OSOW permits are issued on an as-needed basis. IFTA audits and S&C investigations are conducted throughout the year.

Drivers

Biennial – Medical certificate renewal – unless the medical examiner issues medical clearance for less than 24 months - e.g.; when it is desirable to monitor a condition such as high blood pressure - medical certificates must be renewed every two years.

Every five years – Background check for drivers who haul hazardous materials

Every six years – Commercial Driver's License renewal
