

Ribbon Cutting Ceremony Celebrates the Completion of the New Routes E/Y Interchange in Jonesburg

On Thursday, July 30, the Northeast District hosted a ribbon-cutting ceremony celebrating the completion and opening of the new bridge at Routes E/Y and I-70 Interchange (Exit 183) in Jonesburg.

Held at the southwest corner of the interchange, the event drew a large crowd of local and elected officials, community members, area partners, law enforcement, and representatives from the project's consultant and contractor teams.

Working in coordination with the Improve I-70 team, this is the second bridge replacement and interchange project along the I-70 corridor to be completed by the Northeast District since the Improve I-70 program began.

The audience were invited to join our guest speaker in cutting the ceremonial ribbon to officially reopen the interchange.

(Right) Northeast District Engineer **Kevin James** emceed for the ribbon cutting ceremony and introduced our guest speakers (Bottom, Left to Right):

- **Bob Sellenriek**, City of Jonesburg Mayor
- **Eric Kopinski**, Statewide Improve I-70 Program Director
- **Ryan Poston**, Montgomery County Presiding Commissioner
- **Brian Burks**, Vice President, Emery Sapp and Sons
