

Donna's Announcement Page!

Last Update: 03/03/2021

- **03/03/2021:**
 1. New! **Donna's Announcement Page**. Visit this page for the latest news and information on changes in our Technician Certification Program.
 2. New! **"Superpave Manual Order Information"** this is located under RESOURCES. If you want a Superpave, TSR, or HMA manual, you can now order one and pick it up at your local MODOT district office. (Manuals are only for person's certifying this year, and are Free of charge)
 3. New! S&T University at Rolla will no longer host Superpave, TSR, HMA, and BI certifications, hence the reason we have not posted dates or accepted applications. We are working on Virtual Testing at a new location. Stay tuned to **Donna's Announcement Page** for more information.
 4. New! The Calendar will only have Class Dates and Information on classes and how to sign up.
 5. New! There is a delay in receiving emails with the temporary certification cards for your certifications due to all the new things we are dealing with.....but hang in there I am getting those out as soon as I can. Permanent Cards will still be mailed out this Summer.
 6. New! Superpave homework is also located under RESOURCES to print out for your convenience. This is a good review for your exam. The answers will be coming later.
 7. If you have questions about anything with your signing up for State Technical College classes or have issues with your registration, contact Paige Hollingsworth, email paige.hollingsworth@statetechmo.edu , call 573-897-5330

- **11/17/2020: MANUALS, MANUALS, MANUALS** ...manuals for all classes can be printed off the MoDOT web, **OR** for the original hard copy manuals we usually hand out in class, place your order in advance, contact Donna.hoeller@modot.mo.gov at the Central Laboratory in Jefferson City. Porch pickup only for original hard copy manuals. (Manuals are free)

- **11/09/2020:** All STC certification courses will be VIRTUAL! EXAMS will be computerized. You will need a camera and speaker on your laptop for virtual classes and for proficiency testing.
 - Added State Technical College Calendars for Jan, Feb, and March 2021 for convenience.

- MoDOT Central Lab course: Aggregate Specific Gravity will be a virtual class in the spring of 2021.

- **10/19/2020:** STC Certification Courses will be going Virtual, Written Exams will be computerized, proficiencies will be virtual as well....stay tuned for more information. (You will need internet, and a laptop with mic and video)

- **All Manuals and exams** will be reused from 2020 for the 2021 certification season, except for Aggregate Technician it has been updated for 2021.

- **List of Manuals for STC:** Aggregate Technician, Bituminous Technician, Concrete Field & Advanced Concrete, Concrete Strength, Plasticity Index, Soil Density and later in the year IRI will be available.
- **List of Manuals for S&T Rolla:** SuperPave, Tensile Strength Ratio, HMA

2019 - 2021 RENEWALS ON THE ROAD (Cancelled for 2021 season due to Covid-19)

All renewals will be held at State Technical College unless other arrangements have been made due to Covid-19 and travel bans.

2021, LOW SLUMP: This certification will not be available until further notice.

2021, CF/ADVANCED CONCRETE: This is a new level of concrete certification being offered. It is a two-day combined course. We will offer these classes at Sate Technical College and on the road. When you sign up for Concrete Field or Concrete Field Renewal, you will automatically be enrolled in Advanced Concrete. If you are in renewal for Concrete Field, you will take the exams for Concrete Field, followed with a class for Advanced Concrete, then the exam for Advanced Concrete. The Advanced Concrete certification portion will cover Unit Weight of Concrete AASHTO T121M, Air Content by Volumetric Method (Roll-a-Meter) AASHTO T196M, Making and Curing Concrete Beams in the field AASHTO T23.

2021, CONCRETE STRENGTH: Concrete Strength will have an addition called AASHTO T97, Flexural Strength of Concrete Beams AASHTO T97. There will be a short class on AASHTO T97 that goes with Concrete Strength Renewal. This short class will also be offered on the road with the Concrete Strength renewal.

2021, FIELD DENSITY: This is a NEW certification available for all technicians. This certification is offered here at the MoDOT Central Laboratory for those who are only operating nuclear gauges out in the field and do not need the full certification of Soil Density. **Not offered for the 2021 certification season.**
