Alcohol and Drug Testing Requirements

Consortium Information

Part 382

Alcohol and Drug Testing Requirements

Applicability

Drivers required to have a commercial driver's license (CDL) are subject to the controlled substance and alcohol testing rules. This requirement extends to those drivers currently covered by the rule, including interstate and intrastate truck and motor coach operations.

This includes all commercial motor vehicles operated by:

- For-hire and private companies
- Federal, state, local, and tribal governments
- Church and civic organizations
- Apian industries

Exemptions

- Drivers exempt from commercial driver's license requirements by their issuing State
- Active duty military personnel

Part 382 Definitions

382.107 Definitions

“Positive Drug and Alcohol Tests” –

- 1) Alcohol tests with a result of 0.04 or higher alcohol concentration;
- 2) Verified positive drug tests;
- 3) Refusals to be tested (including verified adulterated or substituted drug test results)

“Positive rate for random drug testing” – means the number of verified positive results for random drug tests conducted under this part plus the number of refusals of random drug tests required by this part, divided by the total number of random drug tests results (i.e., positives, negatives, and refusals) under this part.

“Refusal to submit (to an alcohol or controlled substance test)” – a driver (1) fails to provide adequate breath for testing without a valid medical explanation after he or she has received notice of the requirement for breath testing, (2) fails to provide adequate urine for controlled substances testing without a valid medical explanation after he or she has

received notice of the requirement for urine testing, or (3) engages in conduct that clearly obstructs the testing process.

“Safety-sensitive function” – any of those on-duty functions set forth in 395.2 On-Duty Time, paragraphs (1) through (6) as listed below:

- 1) All time at a carrier or shipper plant, terminal, facility, or other property, waiting to be dispatched, unless the driver has been relieved from duty by the employer.
- 2) All time inspecting equipment as required by the Federal Motor Carrier Safety Regulations (FMCSR's), or otherwise inspecting, servicing, or conditioning any commercial motor vehicle at any time.
- 3) All time spent at the driving controls of a commercial motor vehicle.
- 4) All time, other than driving time, spent on or in a commercial motor vehicle (except for time spent resting in the sleeper berth).
- 5) All time loading or unloading a commercial motor vehicle, supervising, or assisting in the loading or unloading, attending a vehicle being loaded or unloaded, remaining in readiness to operate the vehicle, or in giving or receiving receipts for shipments loaded or unloaded.
- 6) All time repairing, obtaining assistance, or remaining in attendance upon a disabled vehicle.

Additional definitions may be found in 49 CFR, Part 40 and Part 382.

Types of Alcohol and Controlled Substance Tests

Pre-employment: No employer shall allow a driver to perform a safety sensitive function until they have received the negative controlled substance test result.

Post-accident: As soon as practicable following an accident involving a commercial motor vehicle operating on a public road in commerce, each employer shall test for alcohol and controlled substances of each surviving driver: Who was performing safety-sensitive functions with respect to

Type of Accident Involved	Citation Issued to the CMV Driver	Test Must be Performed by Employer
i. Human fatality	YES NO	YES YES
ii. Bodily injury with immediate medical treatment away from the scene	YES NO	YES NO
iii. Disabling damage to any motor vehicle requiring tow away	YES NO	YES NO

the vehicle, if the accident involved the loss of human life; or Who receives a citation under state or local law for a moving traffic violation arising from the accident, if the accident involved: Bodily injury to any person who, as a result of the injury, immediately receives medical treatment away from the scene of the accident; or One or more motor vehicles incurring disabling damage as a result of the accident, requiring the motor vehicle to be transported away from the scene by a tow truck or other motor vehicle.

Random: Companies are to scientifically and randomly test drivers at a minimum annual percentage rate of 10% of the number of drivers for alcohol testing, and 25% for controlled substances testing. The random alcohol test must be performed prior, during or just after a driver is about to, or has performed a safety sensitive function as defined in Section 382.107. All drivers must have an equal chance of selection.

Reasonable suspicion: An employer shall require a driver to submit to an alcohol and/or controlled substance test when the employer has reasonable suspicion to believe that the driver has violated the prohibitions concerning alcohol and/or controlled substances. The employer's determination that reasonable suspicion exists to require the driver to undergo an alcohol and/or controlled substance test must be based on specific, contemporaneous, articulate observations concerning the appearance, behavior, speech or body odors of the driver. The required observations shall be made by a supervisor or company official who is trained in accordance with Section 382.603 (Supervisor Awareness Training).

Return-to-duty: Each employer shall ensure that before a driver returns to duty requiring the

performance of a safety-sensitive function after engaging in conduct prohibited by subpart B of this part concerning alcohol or controlled substances, the driver shall undergo a return-to-duty alcohol test with a result indicating an alcohol concentration of less than 0.02 or the driver shall undergo a return-to-duty controlled substances test with a result indicating a verified negative result for controlled substances use.

Follow-up: If a substance abuse professional has determined that a driver needs assistance for the misuse of alcohol, or for use of a controlled substance, an employer must ensure that the driver is subject to follow-up testing. A minimum of six tests must be conducted in the first 12 months, and the driver may only be subject to this test for a maximum of 60 months.

Retention of Records

Five Years:

- Alcohol test results indicating a Breath Alcohol Concentration (BAC) of 0.02 or greater
- Verified positive drug test results
- Refusals to submit to required alcohol and drug tests
- Required calibration of Evidential Breath Testing (EBT) devices

Two Years:

- Records related to the collection process and required training

One Year:

- Negative and canceled controlled substance test results
- Alcohol test results indicating a BAC of less than 0.02

Location of Records

All required records shall be maintained in a secure location with limited access, and shall be made available for inspection by an authorized representative of the Federal Motor Carrier Safety Administration.

Driver Awareness

Every motor carrier shall provide educational materials explaining the requirements of the regulations as well as the employer's policies regarding alcohol misuse and controlled substances abuse. At a minimum, detailed discussions should include:

- The identity of the person designated to answer drug and alcohol questions
- Which drivers are subject to these requirements, what behavior is prohibited, and a clarification of what a "safety sensitive function" is
- The circumstances under which a driver will be tested, and the procedures that will be used for testing
- Explanations of the requirement that a driver submit to the testing, as well as what constitutes a driver's refusal to submit to testing
- The consequences for drivers who have violated the testing requirements
- Information concerning the effects of alcohol misuse, and controlled substances abuse on health, work, and personal life

Supervisor Training

Each employer shall ensure that all persons designated to supervise drivers receive at least 60 minutes of training on alcohol misuse and receive at least an additional 60 minutes of training on controlled substances use. The training will be used by the supervisors to determine whether reasonable suspicion exists to require a driver to undergo testing under Section 382.307. The training shall include the physical, behavioral, speech, and performance indicators of probable alcohol misuse and use of controlled substances. Recurrent training for

supervisory personnel is not required. (382.603)

Company Policy

The FMCSA regulations require that a written policy on controlled substances use and alcohol misuse in the workplace be developed and that the policy be provided to every driver. The policy must incorporate the company's position and information on virtually all aspects of controlled substances use and alcohol misuse program (382.601). The following is a checklist of the items that should be included in a policy.

Policy Components Required by the Controlled Substances and Alcohol Rule (382.601)

- Overview (suggested but not required)
- Categories of drivers subject to testing
- Participation as a requirement of employment
- Required hours of compliance
- Prohibited behavior
- Circumstances for testing
- Behavior that constitutes a refusal to submit to a test
- Consequences for drivers with an alcohol concentration of 0.02 or greater but less than 0.04
- Testing procedures
- Consequences of use of controlled substances and misuse of alcohol
- Identity of contact person
- Effects of alcohol and controlled substances

Inquiries to Previous Employers

A motor carrier, with the driver's written authorization, shall inquire about the following information on a driver from the driver's previous employers for a period of three years preceding the driver's date of application. Section 391.23(e)(1)

If you are an employer from whom information is requested under 40.25(b), you must, after reviewing the employee's specific, written consent, immediately release the requested information to the employer making the inquiry. Section 40.25(h):

- Alcohol tests with a result of 0.04 alcohol concentration or greater
- Verified positive controlled substances test results and

- Refusals to be tested
- Other violations of DOT agency drug and alcohol testing regulations
- With respect to any employee who violated a DOT drug and alcohol regulation, documentation of the employee's successful completion of DOT return-to-duty requirements (including follow-up tests). If the previous employer does not have information about the return-to-duty process (e.g., an employer who did not hire an employee who tested positive on a pre-employment test), you must seek to obtain this information from the employee.

Consortium Information

MoDOT Motor Carrier Services Division does not endorse any consortium. You are reminded that your company is responsible for drug and alcohol testing compliance. Evaluate carefully any company retained to provide consortium or laboratory testing services. Some companies provide more limited services. Be sure that the company selected provides all the services you need to ensure full compliance with the regulations.

To locate a consortium, you may contact one of the many associations dealing with the commercial motor vehicle industry, a hospital, a clinic to provide you with the name of a consortium or a simple search on the internet for DOT drug and alcohol testing.

A web site that may be beneficial as a resource for one of the many associations is www.dot.gov, go to Safety, Drug and Alcohol Safety.

Drug & Alcohol Clearinghouse Mandate

Effective January 6, 2020, all motor carriers employing drivers requiring a CDL must comply with the Drug & Alcohol Clearinghouse Mandate. The Clearinghouse is a secure on-line database which provides access to real-time information, ensuring drivers committing drug and alcohol violations complete the necessary steps before getting back behind the wheel or performing a safety sensitive function.

Motor Carrier Responsibilities:

- Create an account with the Clearinghouse if one or more drivers is subject to the FMCSA drug and alcohol testing requirements
- Owner/operators must create an account with the Clearinghouse and designate a C/TPA to report drug/alcohol violation information on their behalf
- Conduct pre-employment queries to verify prospective drivers do not have prior drug or alcohol violations
- Verify the return to duty process if prior violations are discovered
- Conduct queries of the Clearinghouse at least once a year on current drivers
- Report any drug and alcohol violations discovered on your CDL required drivers
- Continue to conduct a 3 year previous employer inquiry for drug and alcohol violations until January 6, 2023.

What is reported to the Clearinghouse?

- MROs-verified positive, adulterated, or substituted controlled substances test result and refusals to test
- Employers-must be reported by the close of the third business day following the date on which information is obtained:
 - Alcohol concentration of .04 or greater
 - Negative return to duty test
 - Refusal to take an alcohol or controlled substances test
 - A report that the driver has successfully completed the follow-up testing as prescribed in the SAP report
 - Alcohol use-pre-duty, on-duty, and post-accident
 - Controlled substance use
- An owner/operator who employs himself/herself as a driver must designate a C/TPA to comply with the employer requirements.
- C/TPA-An employer may designate a C/TPA to perform the employer requirements. However, ultimately compliance is the employer's responsibility.
- SAPs-must report drivers that have successfully completed education/treatment and is eligible for return to duty testing.
