Type of work: Pavement improvements.

Construction expected: 2025.

Estimated cost: \$4.9 million including right of way, engineering, and construction costs.

Subject to change. Information current as of April 2024.

Scan to visit the project's webpage.

PROJECT DETAILS

Route information

Average annual daily traffic in 2022:

- Route D in Camden and Laclede counties: 1,938 vehicles.
- Route E in Laclede and Dallas counties: 1,497 vehicles.

Proposed pavement improvements

Route D

- Asphalt resurfacing from U.S. Route 54 in Camden County to Route E in Laclede County.
- Safety improvements on the 4.75 miles through Ha Ha Tonka State Park will require the acquisition of additional right of way. These safety improvements include:
 - » New shoulders.
 - » Centerline rumble stripes.
 - » Shifting the road away from the historic post office.

Route E

- Asphalt resurfacing from Missouri Route 5 in Laclede County to the end of state maintenance in Dallas County.

Traffic impacts

At this time, the traffic control plans do not include closing either road. Instead, they call for single-lane closure with flaggers and pilot car directing motorists through the work zone.

Public input

An online public meeting and open comment period will be held April 22 - May 6. The community and interested parties can explore the proposed improvements and then submit input and ask questions through three avenues:

1. Online. Feedback may be submitted using the form on the project webpage.
2. By email – Send your comments to CDCR@modot.mo.gov with the subject line: Camden County Route D Pavement Improvement Project.
3. By traditional mail – Comments may be mailed to Missouri Department of Transportation, 1511 Missouri Boulevard, Jefferson City, MO 65109. Please reference: Camden County Route D Pavement Improvement Project.
