Clearly state your goal and action plan that will address drivers' safety issues in your school

After the tragic death of one of our junior girls in December, the topic of driving safety is very sensitive. The biggest safety issue seems to be excessive speed and using the cell phones while

students are driving. We had planned on hosting a mock accident like we have done in the past but after our student death, I don't think that will be a good idea this year. We plan to utilize homerooms to present lessons on safe driving and would like resources to make this possible.
