

Route 160 Improvements

DETAILS

The proposed project includes widening approximately 1 mile of roadway, realigning two curves on Route 160, and the addition of paved shoulders at Tecumseh, Missouri. The project also includes adding guardrail on the south side along Route 160.

The project will require right-of-way acquisition.

TIMELINE

The project is expected to be let in May 2020, with construction beginning as early as summer 2020. Completion is anticipated in fall 2020.

TRAFFIC IMPACTS

Temporary widening will be completed to allow two-way traffic as construction is underway.

CONTACTS

For more information, please contact Project Manager Pete Berry at (417) 469-6242, Transportation Project Designer Melanie Rickard-Elmore at (417) 469-6238 or MoDOT's Customer Service Center toll-free at 1-888-ASK MODOT (275-6636).
