

## ROUTE 53 ST. FRANCIS RIVER BRIDGE

### What are the benefits of this project?

The project includes constructing a Route 53 bridge over the St. Francis River on a new alignment to replace the existing St. Francis River and overflow bridges in this location.

The improved bridge will be 36-feet wide—10 feet wider than the existing structures.

### How will this impact my daily commute?

Traffic will remain on existing structures as construction is underway.

### What is the timeline?

Improvements are expected to begin in spring 2017, with completion anticipated in fall 2018.

### Who do I contact for more information?

For more information, please contact Project Manager Eric Krapf at (573) 472-5261, Transportation Project Designer Jeff Wachter at (573) 472-5295 or MoDOT's Customer Service Center toll-free at 1-888-ASK MODOT (275-6636). To comment on this project, please attend the online meeting available at:
