

Design-Build Project: SL Safety Improvements Project

Responses will be provided in writing and will be posted on the project website.				FOR MODOT USE ONLY		
Item Number	RFQ Section	Topic	Comment/Question	Response (Enter a Response, "Moved to Master", or "Withdrawn")	Date Closed	Will change be reflected in future addendum? (Y/N)
1	6.2	Stipend	Could MoDOT please consider increasing the proposed stipend of \$150,000? This request is based on the level of effort expected with the understanding the stipend is not intended to cover all proposal costs. For reference, the first Safety D-B project had a stipend of \$125,000, was almost 7 years ago, and the project budget was ½ of the current project.	MoDOT will raise the stipend to \$250,000.	7/14/2023	Y
2	2.3	Schedule	Please consider extending the project schedule to allow teams to develop the best-value proposal for MoDOT. The current 8-week schedule limits our opportunity to provide innovation which is one of the key value drivers for D-B projects.	MoDOT will change the due date for the Proposals to October 17, 2023.	7/14/2023	Y
3	2.3	Schedule	Please clarify deadline of SOQ submittal (2pm on page 4 of 20 & 10am on page 13 of 20).	The correct time is 10 am.	7/14/2023	Y
4	N/A	Early Release Information	Can a list of locations be provided in spreadsheet form that includes Route name and segment limits?	MoDOT intends to provide this with an updated list of locations in the Early Release Information in the next couple weeks.	7/14/2023	N
5	N/A	Early Release Information	On the next MoDOT pre-approved safety countermeasure list, will MoDOT provide CMF breakdown per crash type?	This will be clarified in the Request for Proposals documentation.	7/14/2023	N
6	N/A	Selection Tool Spreadsheets	How should the facility coverage percentage (column AP) be applied to locations where multiple CMF's are being applied? Should the facility coverage percentage be a function of each countermeasure?	This will be clarified in the Request for Proposals documentation.	7/14/2023	N
7	N/A	Selection Tool Spreadsheets	Will an existing inventory summarizing PASER ratings, striping width, edge line and centerline rumbles of all locations be provided and incorporated in the hot spot selection tool?	This will be clarified in the Request for Proposals documentation.	7/14/2023	N
