**SHAPE 16**

*Note: All dimensions are one (1) inch.*

*All exposed surfaces of the existing structural steel in the area of pile encasement will be cleaned with a SSPC-SP-3 surface preparation and coated with a minimum of SSPC-SP-3 surface preparation and coated with a minimum of one coat of gray epoxy-mastic primer (non-aluminum) to produce a dry film thickness of 6 mils. The surface of the existing structural steel shall be free of all coatings before the first coat of protective coating is applied.*

*Cost of all concrete, reinforcement, shear connectors, surface preparation and coating for piles shall extend a minimum of 1 1/2 ft. outside the face of the pile encasement.*

*General Notes:*

**PART ELEVATION SHOWING PILE ENCASEMENT**

- #5-V1 (Typ.)
- 2 '-0" (Min.)
- Steel in the field to clear existing sway bracing.

*Note: Existing sway bracing not shown for clarity. Shift reinforcing steel in the field to clear existing sway bracing.*
