

Route 61/67 from Brandon Wallace Way to 6th/8th Street in Crystal City

What are the issues?

There are improvements that need to be made on Route 61/67 in Jefferson County from approximately Brandon Wallace Way to 6th/8th Street in Crystal City. To maintain our roadway and continue to keep motorists safe, MoDOT plans to add a two-way left turn lane, address existing drainage issues and resurface the pavement in the area. The existing curbs, pipes and inlets have outlived their intended functions. Curbs will be updated; drainage pipes will be replaced where needed and inlets and drains will be cleaned out. The installation of a two-way left turn lane will provide safer left turn access to the businesses along this section of Route 61/67 in Crystal City.

What are the anticipated impacts?

Construction details have not been finalized at this time. MoDOT will work with property owners to ensure access is available during construction.

How much will the project cost?

Construction cost is estimated at \$2.3 million.

Is MoDOT acquiring property from landowners?

MoDOT will need to acquire some property or obtain temporary easements.

What is the construction schedule?

Right of Way property acquisition	Delayed
Contract Award	February 2023
Construction begins	March 2023
Construction expected completion	Fall 2023
