

ROUTE 67 ROAD STUDY ASSESSMENT (RSA)

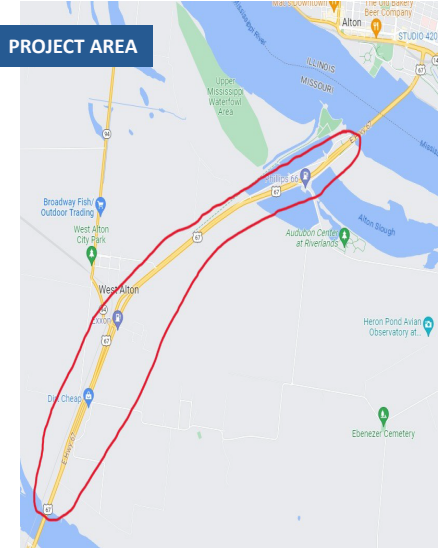

ROUTE 67 IS BEING IMPROVED

In anticipation of upcoming corridor maintenance activities, the **Missouri Department of Transportation** is investigating potential geometric, operational, and safety improvements along the Route 67 corridor in West Alton, MO, including the at-grade intersections at Cinder Road, Red School Road, Route 94/Richard Drive, and St. Charles Street.

Attend our **PUBLIC MEETING** to assist in identifying problems and share your views, which will be considered, in the development and selection of future improvements for the Route 67 corridor between the Missouri and Mississippi Rivers.

Access for people with disabilities is available. People with disabilities who require special services at the public meeting should notify Senior Communications Specialist Charlene Goston by Oct. 3 at 314-624-3765 so arrangements for those services can be made.
