

ROUTE 38

October 4, 2012

Project Description:

The project will involve a bridge deck replacement over the Woods Fork of the Gasconade River on Route 38, just east of Hartville. A new bridge deck, barrier walls, and guardrail will be installed.

● Project Location

Traffic:

To complete the bridge deck replacement over Woods Fork, it will be necessary to close the bridge. The closure will last approximately 60 days and will occur from mid June 2013 to mid August 2013.

Existing Woods Fork Bridge

Timeline:

The project is expected to be awarded by the Missouri Highways and Transportation Commission in February 2013. If the project is awarded at that time, work is expected to begin in May 2013 with completion anticipated by the end of August 2013.
