

# St. Louis Pavement and Bridge Improvement Project

MoDOT will be making multiple road and bridge improvements along I-44 between Route 109 (Eureka) and Route 141 (Valley Park) in St. Louis County.

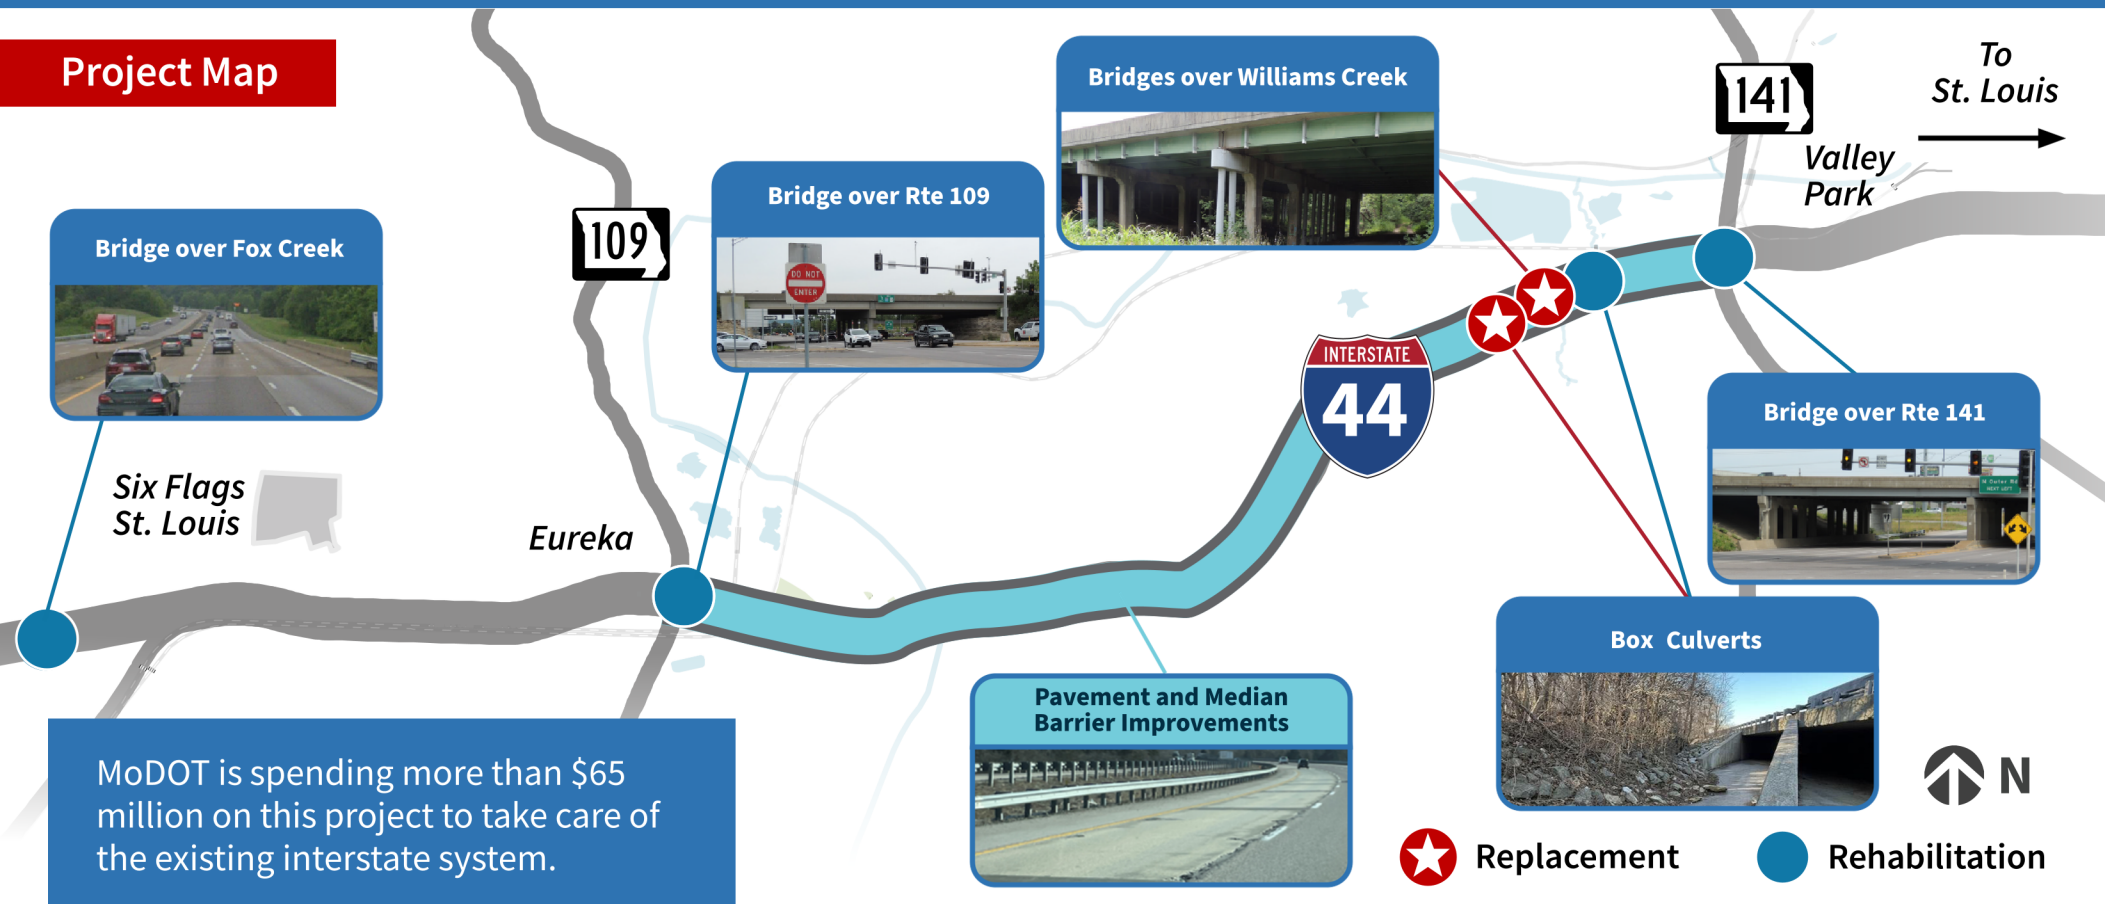

- Pavement along the corridor requires repairs to improve reliability and avoid costly replacement in the future.
- Bridge and culvert structures along the corridor need rehabilitation or preventative maintenance.
- Some structures nearing the end of their life cycle require a full replacement.
- Existing median barrier needs to be replaced to current standards.

## Project Map

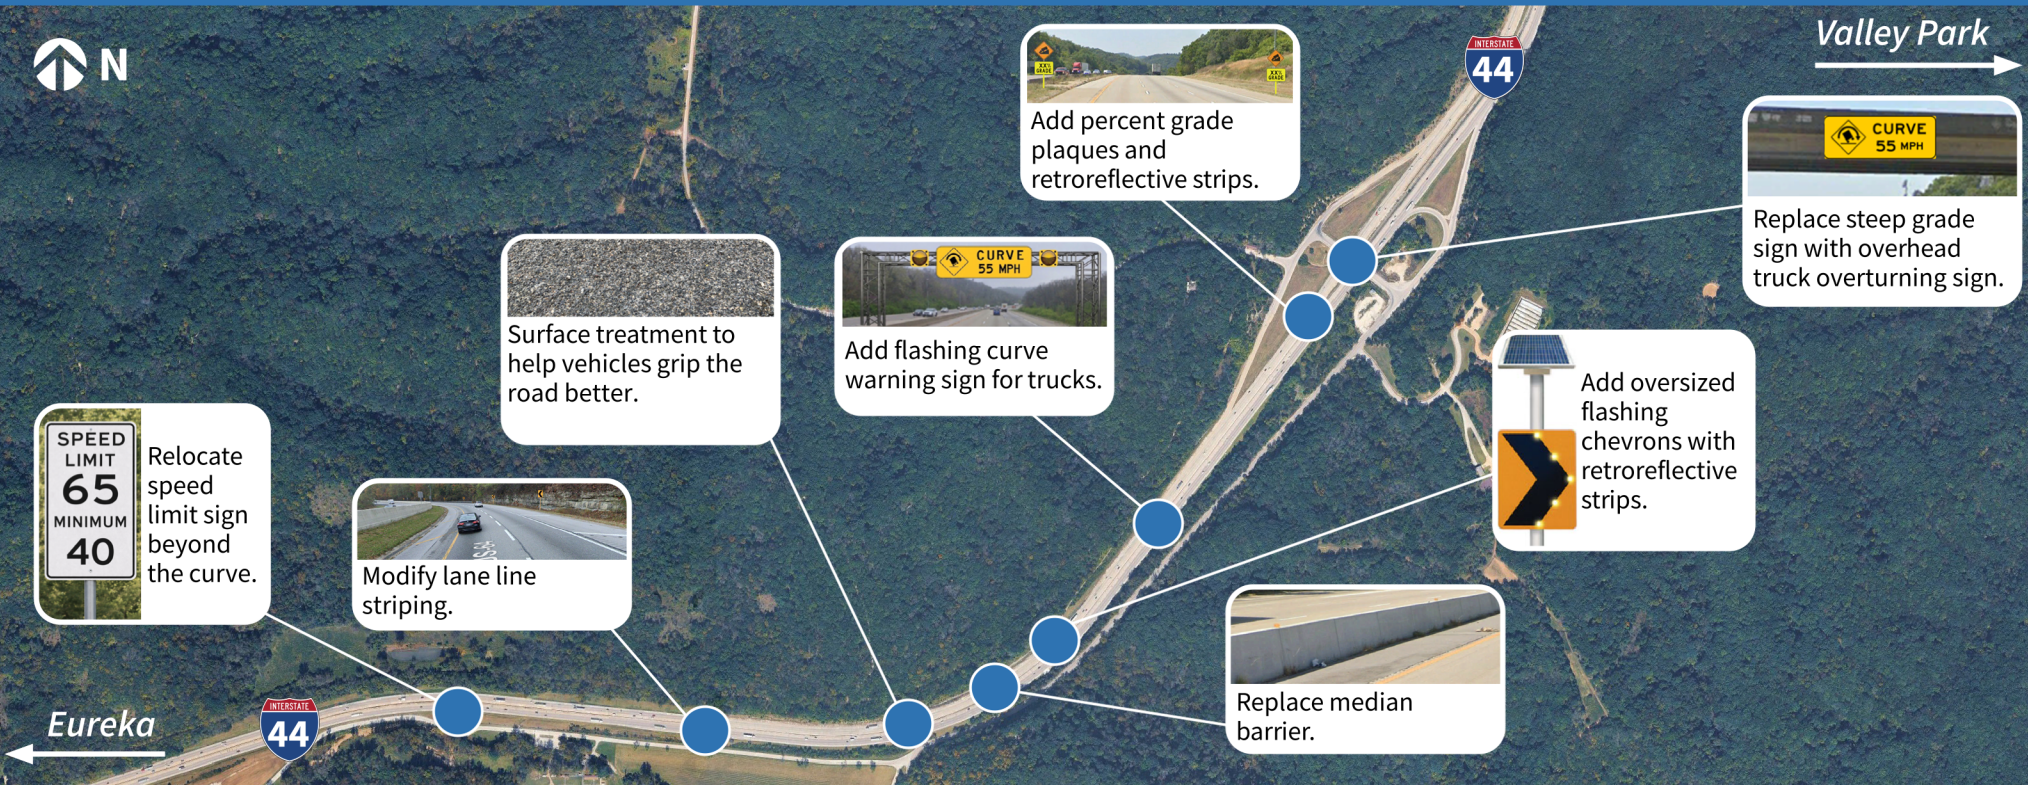

MoDOT is spending more than \$65 million on this project to take care of the existing interstate system.

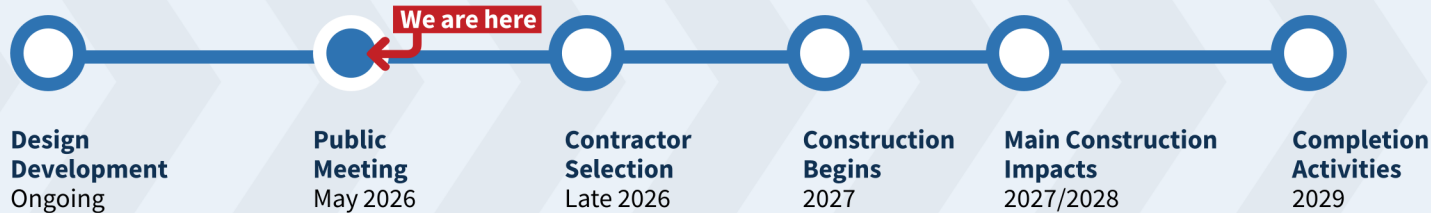

# St. Louis Pavement and Bridge Improvement Project

The following safety improvements will be installed on both sides of the road to give drivers ample notice and enough time to adjust their speeds and navigate this curve safely.
