Safety Barrier

Description and Benefit
When working in a noisy environment near an open lane of traffic it is important to always conduct work as safe as possible. This innovation is a device that hooks on top of two channelizer handles and creates a physical barrier, so workers do not accidentally walk out into an open lane when they are working close to traffic.

**Retractable Cone Bars**

- Fits standard traffic cones and many delineators
- Inside diameter of bar loop - 3.25”
- Bars expand and retract - 48” to 84” and 72” to 120”
- 10’ bar opens from both ends to reduce sagging
- Easy to set up, use indoors and out
- Lightweight plastic for easy transport and deployment
- Reflective engineer grade tape increases visibility
- Weather resistant, use indoors and out

---

**4’ to 7’ Retractable Cone Bar**

Black with Yellow EG Reflective Tape

Pole Diameter - 1.5”

**COA-TCB-1BY**

---

**4’ to 7’ Retractable Cone Bar**

White with Orange EG Reflective Tape

Pole Diameter - 1.5”

**COA-TCB-1WO**

---

**6’ to 10’ Retractable Cone Bar**

White and Orange EG Reflective Tape

Extends 2’ from both ends

Pole Diameter - 1.5”

**COA-TCB-2WO**

---
