

DRAFT

Section 4b – SFY 2024 Legislatively Designated and Funded Initiatives

Legislatively Designated and Funded Initiatives

House Bills 4, 19 and 20

This section of the Statewide Transportation Improvement Program contains projects funded by Missouri's General Assembly during the 2023 legislative session. These projects are funded by either General Revenue or bonding authorized by the General Assembly. All projects in this section are subject to the Governor's approval.

This year, the Missouri General Assembly addressed the top transportation need in the state, widening I-70. Missouri's FY2024 budget from the General Assembly and supported by Governor Parson provides General Revenue for the costs to plan, design, construct, reconstruct, rehabilitate and repair three lanes in each direction on approximately 200 miles of Interstate 70, from Blue Springs to Wentzville.

In addition to the Interstate 70 project, the General Assembly also made several investments in other projects. These are also funded by General Revenue and are to conduct environmental studies on future corridor enhancements, construct multimodal projects, and improve pavement conditions on routes with 1,000 or less vehicles per day.

The following is a list of those projects and information about their funding, timing and contain specifics about each project. MoDOT will track these projects and report regularly on their progress.
