### Section I: Scope of Work

St. Charles County is seeking assistance of a consultant for design, project management, and procurement of roadway improvements including the reduction of island and modifying the pavement markings on the side streets at Missouri Route 94 and Zumbahl Road/Friedens Road and Missouri Route 94 and Pralle Lane to accommodate concurrent left turning and through moving vehicles. The option to operate concurrent left turns on the side streets will provide for a more efficient signal operation at two of the more critical intersections along this corridor and thus reduce delay and emissions.

It is also proposed to have a qualified traffic engineer develop signal timing plans following the roadway and signal improvements to ensure the network of intersections are operating at their fullest potential.

This project will utilize the already installed Gateway Green Light travel time devices to document the travel time data under the current geometrics and signal timing plans as the existing baseline. This baseline will then be monitored and compared to travel time data collected during and after construction.

#### Project Location

The project outlined herein is within the City of St. Charles in the State of Missouri. The following intersections make are included in the project (**see Exhibit A**);

- 9981 – MO 94 @ I-70 Ramps
- 9982 – MO 94 @ Sherman Road
- 9983 – MO 94 @ Zumbahl Road/Friedens Road
- 9984 – MO 94 @ Pralle Lane

The consultant will be responsible for all aspects of work needed to complete the project requirements as outlined in the following Project Details, Tasks 1-8. Tasks include but are not limited to the following:

- Design, project management, procurement and construction engineering and inspection;
- Quality of the data assurance;
- Integration support services; and
- Submittals as required by MoDOT's local road program.

The consultant will also be responsible for project documentation and submittals associated with a federal aid project including but not limited to field logs and diaries, reimbursement requests, and other submittals as required by MoDOT's local road program.

Integration support duties may include, but are not limited to, operation and monitoring of the centralized traffic management system, incident response, planned response, controller database management, signal operations and communications troubleshooting, system training, system reporting, work order tracking and resolution, timing plans, asset management, work zone safety, public outreach, and non-GGL staffing and support.

## **Project Details**

### *Task 1*

This task involves minor roadway improvements at Zumbahl Road/Friedens Road with the majority of the effort focused on the removal and replacement of the existing pavement markings on the northbound approach. The proposed lane assignment will allow for two southbound receiving lanes, two northbound left turn lanes, and two northbound through lanes. The new lane assignments will create concurrent side street movements and reduce overall intersection delay.

### *Task 2*

This task involves signal improvements at Zumbahl Road/Friedens Road that complement the roadway improvements of Task 1. See **Exhibit B – Concept Plan 1** for an overview of the roadway and signal improvements at Zumbahl Road/Friedens Road.

### *Task 3*

This task involves minor roadway improvements at Pralle Lane that will allow concurrent side street movements that will reduce overall intersection delay.

### *Task 4*

This task involves signal improvements at Pralle Lane that complement the roadway improvements of Task 3. See **Exhibit C – Concept Plan 2** for an overview of the roadway and signal improvements at Pralle Lane.

### Task 5

This task involves upgrading the existing video detection systems at four intersections. The following intersections shall be upgraded with High Definition Video Detection and perform high resolution data collection to support advanced performance measure reporting:

- MO 94 @ I-70 Ramps
- MO 94 @ Sherman Road
- MO 94 @ Zumbahl Road/Friedens Road
- MO 94 @ Pralle Lane

### Task 6

Upgrade the existing signal controllers with controllers that meet the industry standards for Advanced Transportation Controllers at four intersections in order to support processing available high-resolution data: The following intersection controllers shall be upgraded:

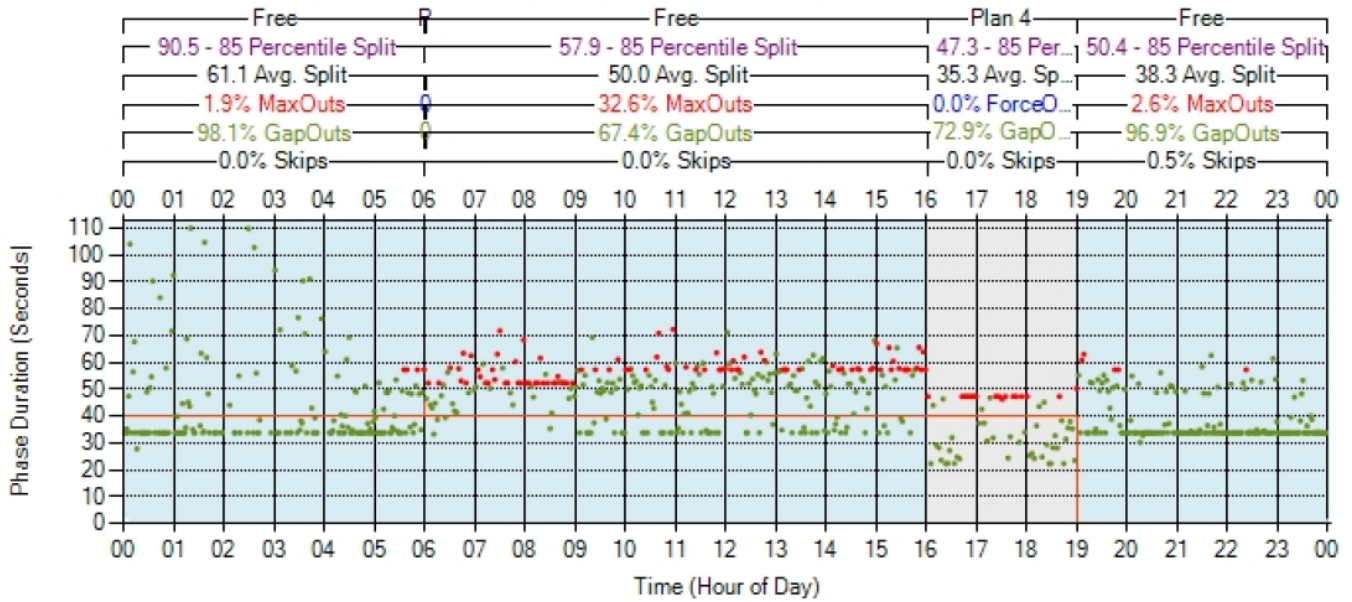

- MO 94 @ I-70 Ramps
- MO 94 @ Sherman Road
- MO 94 @ Zumbahl Road/Friedens Road
- MO 94 @ Pralle Lane

Tasks 5 and 6 will allow continued monitoring of the newly optimized signal timing plans through the use of tools such as **Figure 1 – Purdue Coordination Diagram** and **Figure 2 – Split Monitoring Diagram**. These tools will allow for minor adjustments to be made following implantation of the proposed signal timing plans. This flexibility has the potential to extend the life of the signal timing plans and absorbing changes in volume patterns caused by new traffic generators. See **Exhibit A – Project Location Map** for intersection locations.

## Section II: Qualifications for the Project

1. **Letter of Interest.** The responding firm must provide a letter of interest limited to five pages maximum. This letter should include a statement to indicate your firm's understanding of the project. It should also include any other information which might help us in the selection process, including key personnel you would assign to the project and the backgrounds of those individuals, and any sub-consultants you would propose to use, and an indication of your firm's approach to promoting and developing a diverse workforce. The letter must include name, phone number, and email address of the person who the County should contact in the event that questions arise regarding the firm's submission.
2. **Qualifications.** Please attach up to four pages with detailed information on similar projects that your key personnel have worked on. Indicate the role your key personnel played in the projects and include reference contact information.
3. **Schedule.** Please provide a proposed schedule including project milestones and deliverables limited to one page.
4. Subcontractors List
5. Disadvantage Business Enterprise (DBE) List (DBE Goal 0%)
6. Statement of Qualification (RSMo 8.285 through 8.291)
7. Affidavit of Compliance with the Federal Work Authorization Program
8. E-Verify Memorandum of Understanding (15 CSR 60-15.020)

## Section III: Evaluation Criteria

Partners of the Gateway Green Light will evaluate firms based on:

- Past Performance – signal and ITS projects of similar size and scope (maximum of 35 points)
- Qualifications of Personnel Assigned – qualities/experience of individual employees to be designated to the various tasks for this specific job (maximum of 25 points)
- Familiarity/Capability – basic technical/engineering knowledge of the corridor(s), suggesting rudimentary traffic control strategies for improvements and offering mitigation strategies for saturated conditions when applicable (maximum of 15 points)
- General Experience of Firm – similar types of signalized corridors of size and volumes and/or related type work of the many tasks of signal optimization (maximum of 15 points)
- Accessibility of Firm and Staff – knowledge/aquaintance of the area and/or previous responsiveness of local needs (maximum of 10 points)

Firms will be evaluated based on satisfaction of scope requirements and deliverables. Remote communication to the Gateway Green Light signal database system is required.

#### **Section IV: Selection Procedures**

A consultant will be selected by St. Charles County and its project partners, which includes MoDOT and local jurisdictions, after analysis of all information provided in the proposals. Interviews and presentations will not be required.

This request does not commit the County to award a contract, to pay any costs incurred in preparation of a response to this invitation, or to procure or contract for services or supplies. The County reserves the right to accept or reject any or all responses received as a result of this request, or to cancel this request in part or in its entirety if it is in the best interest of the County to do so. Respondents shall not offer any gratuities, favors or anything of monetary value to any officer, employee, agent, or director of the County or its project partners for the purpose of influencing favorable disposition toward either their proposal or any other proposal submitted as a result of the Request for Proposals.

The County reserves the right to suggest to any or all respondents to this RFQ that such respondents form into teams or organizations deemed to be advantageous to the County in performing the scope of work. The County will suggest the formation of such teams when such relationships appear to offer combinations of expertise or abilities not otherwise available.

Respondents have the right to refuse to enter into any suggested relationship.

All proposals submitted hereunder become the exclusive property of the County.

## Exception Sheet

If the item(s) and/or services proposed in the response to this Request for Qualifications is in any way different from that contained in this Request for Qualifications, the Firm is responsible to clearly identify all such differences in the space provided below. Otherwise, it will be assumed that the Firm's offer is in total compliance with all aspects of the proposal or Qualification.
