May 13, 2019

Dear Research Partner:

The Missouri Highways and Transportation Commission requests proposals from qualified organizations—namely private consultants, universities, and research organizations—to furnish professional services as described in the following request for proposal to be coordinated by the Research Unit of the Construction and Materials Division.

Please submit a proposal for project TR202003 entitled, “Evaluating Performance of Concrete Overlays for Pavement Rehabilitation.” Your submittal must include a work plan, the proposed project team and its background, and any related projects now active or recently completed by your firm. The project team must be led by a licensed professional engineer in the state of Missouri and the final report must be sealed, in accordance with the provisions of Chapter 327 RSMo.

The selection committee will use Qualification Based Selection. A “not to exceed” budget amount is included in the RFP to assist with the required scope, but budgets are not to be included with the proposal submissions, and will not be presented to the selection committee.

Please submit all proposals to the [Research Administrative Engineer] by July 1, 2019 10:00 AM (CST). More information about project contracting in general can be found at https://www.modot.org/research-requests-proposal.

Sincerely,

Jennifer Harper
Research Administrative Engineer
Background

Concrete overlays are used to maintain or rehabilitate, increase the structural capacity and re-establish a smooth profile for existing roadways consisting of concrete, asphalt, or composite pavement structures. MoDOT currently uses bonded and unbonded concrete overlays to maintain or rehabilitate existing pavements.

The objective of this study is to review and evaluate the performance of unbonded and bonded overlays that have been constructed in Missouri during the past 20 years. Existing data consisting of design and construction information, smoothness data, and video media can be compiled and analyzed to provide a thorough synthesis of concrete overlays used for Missouri’s infrastructure.

Approximately 40 projects are to be evaluated.

- Unbonded overlays (24)
- 5” or 6” Big block overlays (9)
- Bonded PCCP overlays (7)

Objectives

The Contractor will acquire existing data from MoDOT as the basis of the comprehensive synthesis on the performance of concrete overlays used in Missouri. The Contractor will:

- Inventory the routes and locations of the concrete overlays as detailed in the plans or from site visits. Many projects consisted of a combination of full depth pavement replacement and overlay which needs to be distinguished by location and type. The completed inventory should include the travel-way ID, direction, route, county, log limits of overlay section, lane number, type of interlayer (if applicable) and other identifying information. A complete project list of concrete overlays that have been constructed will be provided by MoDOT.

- Determine thickness of concrete overlay, air content and compressive strength from AASHTOWare Project SiteManager™ QC/QA data or other Construction and Materials records, as available.

- Tabulate performance histories of concrete overlays from the MoDOT Transportation Management System (TMS) database.

- Review latest year of video from ARAN, identify and log visible patching and maintenance performed on pavement. Determine % of repairs performed (will require coming to MoDOT Central Office in Jefferson City to review videos)

- Estimate current rehab and maintenance needs.

- Identify any correlation between the condition/distress of the pavement and project construction/materials data, including the type of interlayer.

- Identify whether coring and construction data correspond with construction plans.
**Project Requirements**

**Task 1: Project Management**

The contractor will facilitate a kick-off meeting with MoDOT to review the work plan, scope, and schedule; and establish a protocol for regular ongoing communications and coordination with the team.

The finalized work plan will detail implementation of the following tasks as well as the resources and schedule required to carry them out.

**Task 2: Data Collection of Existing Concrete Overlays**

The contractor will collaborate with MoDOT on the available project design, construction, materials and performance data.

MoDOT will provide as available:

- ARAN video (will need to be in MoDOT office)
- Access to TMS
- Construction plans
- QC/QA data as available

**Task 3: Create Project Outline for Evaluation**

Create list of project data that includes, but not limited to

**Location Description:**

- Route
- County
- Log miles
- Lane miles
- Travelway ID
- Direction
- Lane Number

**Design information:**

- Job number
- Contract number
- Overlay type (UBOL, BCOAO)
- Design thickness
- Base type
- Interlayer type
- Lane width / extended slab, if any
- Shoulder type (tied or untied)
• Underlying pavement information (type, thickness, width, etc.)

Construction information:
• Thickness (from QC/QA cores)
• Strengths
• Air content

Mix design

Task 4: Conduct Analysis of Field Data
Contractor will review all available field data:
• Latest year of ARAN video
• TMS performance history
• As-built plans
• Available QC/QA data

Task 5: Develop Interim Report and Research Summary
Contractor will draft an interim report describing the data acquisition, analysis, and findings; and recommend further action, if warranted. Upon completion, contractor will submit the interim report to MoDOT for review. Within two weeks of submittal, contractor and MoDOT will meet to discuss the finding and plan further action as required. At a minimum, the following will be addressed in the report.
• Inventory of concrete overlays
• Analysis of design information
• Analysis of pavement condition
• Correlation between construction/materials and performance
• Current repair needs

Recommendations for future use of Concrete overlays

Task 6: Delivery of Final Report and Research Summary
**Project Deliverables**

For report and plan templates and forms, visit [https://www.modot.org/information-researchers](https://www.modot.org/information-researchers)

**Email Communications**

E-mail and phone communications between the Principal Investigator(s) and MoDOT contacts as necessary are required to provide on-going updates of progress throughout the project.

**Data Management Plan**

The plan is a formal document that describes the data that is acquired, created or produced during the project, specifies who owns it and who can access it as well as information on how it will be described, managed, analyzed, stored, shared and preserved during and after the project is over. Please refer to templates on the website.

**Quarterly Reports**

Quarterly reports should be submitted throughout the project on the last day of March, June, September and December. The quarterly reports are not intended to replace any additional correspondence between the research team and MoDOT needed to keep the project moving. Please refer to template on the website.

**Interim Presentation**

An interim presentation shall be scheduled near the mid-point of the project to update MoDOT on the progress and the direction of the project. The purpose of the interim presentation is to evaluate the progress and determine if any mid-project corrections are necessary.

**Draft Final Report and Research Summary**

These drafts should be final products except for revisions based on MoDOT’s review. A final report must include a completed Technical Report Documentation page. Please refer to template and Publication Guidelines on the website.

**Final Report and Final Research Summary**

After MoDOT’s review is complete and documents have been edited to MoDOT’s satisfaction, final documents should be submitted as a Word documents (unless otherwise instructed). Please refer to Publication Guidelines and summary template on the website.

**Final Presentation**

May be required. The contractor will present the results, recommendations, and implementation ideas to MoDOT and other stakeholders. The contractor will coordinate location, date, and meeting fees with MoDOT. For stakeholder and agency participants, any travel and lodging fees are to be covered by individual attendees or their firms. MoDOT and stakeholders will provide feedback to the contractor, especially related to implementation.
Project Schedule

The following is an estimate of the project timeline or information on key dates within the project, presuming the project starts **August 12, 2019**. Proposals need to include a work plan with a proposed timeline. For a sample of a work plan template, see link below. Changes to our estimated project timeline below will be considered, however, timeline extensions cannot be guaranteed. The project timeline will be discussed and finalized during the kickoff meeting.

For report templates and forms, visit [https://www.modot.org/information-researchers](https://www.modot.org/information-researchers).

Special Notes

**Project budget is not to exceed $100,000.** A budget is not to be included in the proposal, but will be required for the contract and must be within this limit. For a sample Budget template, report templates and forms, see [https://www.modot.org/information-researchers](https://www.modot.org/information-researchers).

RFP Requirements

- “Contracting Documents” provide further details and links to the required forms. They are available at [https://www.modot.org/information-researchers](https://www.modot.org/information-researchers).
  - **Organization’s Project Experience**: The proposal must clearly identify the Organization’s experience in offering the services requested in this RFP during the past three (3) years. The description should include a list of the agencies which your organization has served during this time period or currently serves. Please highlight any work you have done with other state agencies or local governments.
o **Team Member Experience:** Please list all team members (including subcontractors) proposed to work on the project. Attach licenses, certifications and resumes for key personnel.

o **Organization’s Client References:** Proposals should indicate the name, title, and telephone number of at least three clients within the past three years.

- Proposals must be no more than 10 pages in length with a font size no less than 11 points. This length limit **does not include** the Proposal Submission Form, Organization’s Project Experience, Team Member Experience, Organization’s Client References and optional cover letter (if included, one page maximum).

- Proposals must be submitted as one combined PDF document. The submission should **only include the required documents** organized in the following order: 1) Proposal Submission Form; 2) Cover Letter (Optional; 1 page maximum); 3) Body of Proposal (including work plan); 4) Organization’s Project Experience; 5) Team Member Experience; and 6) Organization’s Client References.

- The Offeror must respond to this RFP by submitting all the information required herein for its proposal to be evaluated and considered for award. Failure to submit all the required information shall be deemed sufficient cause for disqualification of a proposal from consideration.

- Proposals will be evaluated by an agency and stakeholder team with knowledge and backgrounds in relevant areas for this project. Selection of the successful Offeror will be based on the Offeror’s demonstrated knowledge in the required areas, the merit of the proposed methods and approach in achieving the desired goals, the experience and qualifications of the team, the plan for ensuring implementation of results, and the adequacy and availability of team members to complete the work in a timely manner.

  o Correct proposal submission is one of the evaluation criteria. If submission instructions in this section are not followed, the **Offeror risks an automatic 10 point deduction (out of 100 total points)** when points are awarded during the Proposal Evaluation Process.

---

**RFP Schedule**

This document constitutes an RFP from qualified organizations to conduct the **TR202003 Evaluating Performance of Concrete Overlays for Pavement Rehabilitation** study for the MHTC and Missouri Department of Transportation (MoDOT). MHTC reserves the right to reject any and all proposals for any reason whatsoever.

The following RFP Schedule of Events represents MoDOT’s best estimate of the schedule that shall be followed. The time of day for the following events shall be between 7:30 am and 4:00 pm, Central Standard Time unless otherwise noted. MoDOT reserves the right at its sole discretion to expand this schedule, as it deems necessary, without any notification except for the deadline date for submitting a proposal. Time is of the essence for responding to the RFP within the submission deadlines.
The following timeline must be met for a proposal to be accepted.

<table>
<thead>
<tr>
<th>Date</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>6/3/2019 4:00 PM (CST)</td>
<td>Written comments or questions must be submitted to Research Administrative Engineer.</td>
</tr>
<tr>
<td>7/1/2019 10:00 AM (CST)</td>
<td>Written proposals must be submitted to Research Administrative Engineer.</td>
</tr>
<tr>
<td>7/22/2019</td>
<td>MoDOT will notify submitters about project selection, or if needed about interviews to finalize selection.</td>
</tr>
</tbody>
</table>

**Contracting Requirements**

The successful team will be required to complete additional documentation and enter into a contract such as a “Standard Research Agreement” or “Task Order.” Applicants should be aware of these additional needs so contracting can proceed in a timely manner.

As part of the eAgreements process, MoDOT uses an electronic signature tool, DocuSign, for signing agreements electronically. All parties of the agreement must agree to sign electronically in order to utilize the electronic signature option. If your proposal is selected, you will be informed about how to obtain your credentials for electronic signatures (including how to become a MoDOT vendor if you are not already).

Standard contracts, forms, attachment templates and additional information are available from the Research Administrative Engineer or the website at [https://www.modot.org/information-researchers](https://www.modot.org/information-researchers).
Proposal Submission

Submission Deadline

Proposals must be emailed by **10:00 AM (Central Standard Time)** according to email time stamp by the submission date in the RFP Schedule to the Research Administrative Engineer’s attention (Jennifer Harper) at: MoDOTResearchRFP@modot.mo.gov. Please reference the project title since more than one RFP may be due at one time. Electronic proposals are required.

Submission Confirmation

You will receive an email confirmation after your proposal has been received. If you do not receive such a confirmation by **12noon (Central Standard Time)** on the day of the deadline, please contact us at MoDOTResearchRFP@modot.mo.gov as soon as possible. Your submission should not be considered received until you have received your email confirmation.
