HIGH-PRIORITY UNFUNDED NEEDS

Nov. 2021

1. Establish a vision – MoDOT’s vision for its transportation future is best captured by the five goals established by Missourians in the Long-Range Transportation Plan. In priority order, they are: 1) Take care of the transportation system; 2) Keep all travelers safe; 3) Invest in projects that spur economic growth and create jobs; 4) Give Missourians better transportation choices; and 5) Improve reliability and reduce congestion.

A large, stylized number "3" inside a white circle with a thick red border. The circle is positioned on the left side of the slide. A thick black line runs diagonally from the top left to the bottom right, passing behind the circle. A horizontal gold bar extends from the left edge of the circle. A red curved shape is visible at the bottom left of the circle.

3. Prioritize Needs – MoDOT Districts offices work with MPOs and RPCs to annually prioritize regional needs, collectively. This requires multiple planning entities within a MoDOT district to work collectively to create priorities among all needs identified, regardless of location. Safety, traffic volume, asset condition data are used to help select the highest priorities within a MoDOT district boundary.
