**58** Years in Business  
**500** Repeat Clients

*We strive for high  
quality services on every  
assignment.*

Founded on the principal of providing quality services to municipal clients at a fair and reasonable price, Veenstra & Kimm, Inc. has grown to a staff level of more than 150 employees in 10 locations, completing thousands of projects across the Midwest.

Our services are centered on the needs of our clients. We assist in project delivery through planning, concepting, budget and finance, preliminary and final design, easement procurement, construction administration and observation and record drawings.

*Our local presence throughout the  
Midwest allows us to better serve the needs  
of our clients.*

Successfully completing thousands of project, we believe the size of our firm allows us to serve clients ranging from the largest to the smallest. The quality of our work is best expressed through our clients. We strive for high quality services on every assignment. Timeliness and efficiency are the driving forces for our staff. We believe in and earn repeat business.

# BRIDGE DESIGN

V&K has the experience and capacity needed when it comes to addressing our client's bridge projects. We have proven our ability time and time again on the numerous bridge projects we have completed for Municipalities, Counties and State DOT's throughout the Midwest. Our staff has completed bridge projects utilizing numerous funding sources including private, local government (City and County), state as well as federal. We have provided design services from conception through project completion for many of our clients.

Our experience ranges from single span structures to multi-span structures and includes experience with Prestressed Concrete design as well as Steel design. We have completed design services for bridges over local roads, state highways, Interstates, railroads, small tributaries, creeks, major rivers and lakes. Our staff located in our Liberty, Missouri office has completed over 225 bridge projects for all types of clients across the state of Missouri.

# TRANSPORTATION

Veenstra & Kimm, Inc. can assist with any transportation needs from concept through construction. Whether it's a rehabilitation of a residential street, an expansion of a major arterial or the construction of new alignment to complete a system, our staff has the experience. V&K's transportation services group is the fastest growing sector of the company.

The services we provide include project concepts, survey, design, right-of-way services, permitting, traffic signals, utility coordination, letting assistance, assessments, construction administration and observation, project close-out and record drawings.

## TRAFFIC ENGINEERING

Veenstra & Kimm, Inc. has extensive experience providing traffic engineering services to clients throughout the Midwest. Our staff has completed numerous traffic operations projects ranging from local-to-local system, local-to-state system as well as state-to-state highway system signal design and optimization. We have performed traffic studies which incorporate projecting future traffic volumes, modeling existing and proposed conditions as well as determining necessary improvements to intersections, interchanges and entire corridors.

## ROADWAY DESIGN

Veenstra & Kimm, Inc. has designed roadway and street projects throughout the Midwest. Projects have provided design for new corridors, expansion of existing as well as rehabilitation. Our firm's experience involves overlays, widening, ADA facilities, intersections, interchanges, horizontal and vertical improvements, highway relocations, drainage improvements as well as utility coordination to name a few.

## TRAILS & SIDEWALKS

V&K has provided services related to trails and sidewalk facilities to Municipalities, Counties and State DOT's throughout the Midwest. Our design services have been provided through numerous different avenues. Our services have been incorporated as a part of a street improvement

project such as overlay, reconstruction or even a new alignment, through site designs for developments, safe route to school, trail extension projects and through DOT projects which focus only on pedestrian facilities. Our staff has a wide range of experience when it comes to ADA compliant facilities. V&K has provided ADA design services in residential areas, business districts, commercial districts as well as entertainment districts throughout the Midwest.

# GENERAL SERVICES

*Veenstra & Kimm, Inc. has provided design services for numerous civil and structural projects throughout its history. Our engineers and architects have the experience necessary to successfully guide your project from conception to completion. Our site services involve a full range of services including parking lot layout and design, site drainage, BMP design, utility layout, sidewalks, landscaping as well as construction inspection.*

*In addition, our general services include the design of water distribution improvements involving water mains ranging in size from 6-inch diameter up to 54-inch diameter mains. In the area of sanitary sewers Veenstra & Kimm, Inc. has the experience and expertise in the planning, design and construction of sanitary sewers. This expertise ranges from 8-inch laterals up to 96-inch interceptors involving sewers as deep as 47 feet.*

*Veenstra & Kimm, Inc. also has experience and expertise in landscape design, streetscape design and parking facilities design. Our architects, landscape architects and design engineers recognize the importance of the visual impact and statement an entry feature and gateway into an area can create. V&K has the expertise to design parking facilities whether it's a new lot, renovation or an expansion. These services have included facilities for universities, schools, churches, military facilities and commercial and industrial complexes.*

*In the area of building design Veenstra & Kimm, Inc. has experience in the design of schools, churches, museums, office buildings and maintenance buildings. Our architects are very aware of the need for attractive structures and have designed aesthetically pleasing athletic complex structures, pump stations and treatment facilities structures to name a few.*
