# MoDOT Expenditures for Roads and Bridges, Multimodal, Highway Safety

(Dollars in thousands)

MoDOT's largest expenditure category is the construction program. The construction program expenditures include contractor payments, engineering, reimbursement to local entities for acceleration of projects, right of way payments, and federal pass-through to local public agencies. Other State Agencies represents appropriations to the Missouri State Highway Patrol and the Department of Revenue.

## Summary of State and Federal Funds

Fund	Source of Funds
State Road Fund	Federal Highway Administration reimbursements; licenses, permits, and fees for motor vehicles and drivers; state sales tax on motor vehicles; cost reimbursements; and other miscellaneous fees [Section 226.220 RSMo.]
State Road Bond Fund	State sales tax on motor vehicles [Section 226.210 RSMo.]
State Highways and Transportation Department Fund	Motor fuel tax and licenses, permits and fees for motor vehicles and drivers [Section 226.200 RSMo.]
Aviation Trust Fund	User fees of 9 cents per gallon on aviation gasoline and a portion of the state sales tax collected on jet fuel [Section 155.090 RSMo.]
State Transportation Fund	Two percent of one-half of the state sales tax on motor vehicles [Section 226.225 RSMo.]
Grade Crossing Safety Account	Owner of a motor vehicle pays a fee of twenty-five cents each year when the person registers or renews the registration of a motor vehicle [Section 389.612 RSMo.]
Railroad Expense Fund	Assessments collected from the railroads [Section 622.015 RSMo.]
State Transportation Assistance Revolving (STAR) Fund	This fund accounts for loans to any political subdivision of the state or to any public or private not-for-profit organization for the planning, acquisition, development and construction of facilities for air, water, rail or public transportation, the purchase of vehicles for transportation of elderly and disabled persons, or the purchase of rolling stock for transit purposes. Loan repayments are deposited into this fund and are used to make additional loans under the revolving loan program. [Section 226.191 RSMo.]
Motorcycle Safety Trust Fund	Motorcycle instruction permit fees and a \$1 surcharge from all criminal cases including violations of any municipal or county ordinance or any violation of criminal or traffic laws of the state. [Section 302.137 RSMo. & Section 302.140 RSMo.]
Multimodal Operations Federal Fund	Federal grant monies associated with Multimodal programs
Motor Carrier Safety Assistance Federal Fund	Federal grant monies associated with the Motor Carrier Safety Assistance Program
Highway Safety Federal Fund	Federal grant monies associated with Highway Safety programs

Federal Aid Apportionments based on Fixing America's Surface Transportation (FAST) Act (Dollars in millions)

Federal funds are generated by the federal fuel tax – 18.4 cents per gallon for gasoline and 24.4 cents per gallon for diesel. Federal fuel taxes are deposited into the Highway Trust Fund, and apportioned back to states via federal authorization bills. The amount Missouri is apportioned is reduced by the congressionally imposed obligation limitation, which places a ceiling on the amount we can commit to projects. Historically, approximately 98 percent of apportionments are available to obligate. Federal funds are received on a reimbursement basis. MoDOT and local public agencies spend state and local funds to build projects and request reimbursement from the Federal Highway Administration. Apportionments shown below include the amounts that by law are distributed to local public agencies.

The following chart lists the amounts apportioned to Missouri in each category under MAP-21 and FAST Acts. The FAST Act was signed into law by the President on December 4, 2015 and provides funding for surface transportation programs for federal fiscal years 2016, 2017, 2018, 2019 and 2020. The total apportionments under the FAST Act are significantly more than under the previous federal funding act, MAP-21.

Apportionment Category	2013	2014	2015	2016	2017
National Highway Performance (NHPP)	\$539.0	\$539.0	\$539.2	\$549.6	\$558.3
National Highway Freight (NHFP)	0.0	0.0	0.0	27.1	25.7
Surface Transportation (STP)	250.2	251.0	251.6	257.2	260.1
Congestion Mitigation & Air Quality (CMAQ)	22.6	22.6	22.6	23.0	23.3
Recreational Trails	1.7	1.7	1.6	1.6	1.7
Metropolitan Planning (MP)	4.9	4.9	4.9	5.2	5.2
Statewide Planning & Research (SPR)	18.6	18.5	18.1	19.4	19.7
Highway Safety Improvement (HSIP)	54.1	54.1	54.1	51.9	55.8
Rail/Highway Crossings	5.5	5.5	5.5	8.6	5.7
Transportation Alternatives (TAP)	17.6	17.9	17.9	18.3	18.3
Total	\$914.2	\$915.2	\$915.5	\$961.9	\$973.8

Apportionments are subject to Obligation Limitation. Obligation Limitation is a restriction, or "ceiling" on the amount of federal assistance that may be committed during a specified time period. Historically, Missouri's obligation limitation has averaged 98 percent. So, as an example, with 2017 apportionments of \$973.8 million, we would be able to commit and spend about \$954.3 million on projects.

The apportionment categories under the FAST Act are as follows:

- National Highway Performance is the construction, reconstruction, resurfacing, restoration and rehabilitation of highways and bridges on National Highway System (NHS) routes which are routes designated by Congress as roadways important to the nation's economy, defense and mobility.
- National Highway Freight includes improvements to the National Highway Freight Network (NHFN) that increase the efficiency of freight movement.
- **Surface Transportation** is the construction, reconstruction, rehabilitation, resurfacing, restoration and operational improvements of highways and bridges.
- Congestion Mitigation & Air Quality includes traffic management, monitoring and congestion relief strategies to assist areas designated as non-attainment under the Clean Air Act Amendments of 1990.
- **Recreational Trails** is for the development, construction, maintenance and rehabilitation of trails and trail facilities.
- **Metropolitan Planning** is for transportation planning activities to develop metropolitan area transportation plans and transportation improvement programs.
- Statewide Planning & Research includes transportation planning activities to develop the statewide transportation improvement program. It also includes studies, research and training on engineering standards and construction materials.
- **Highway Safety Improvement** is for highway safety improvements to eliminate roadway hazards.
- **Rail/Highway Crossings** is for highway safety improvements to mitigate hazards caused by rail-highway grade crossings.
- Transportation Alternatives is for the construction of on-road and off-road facilities for pedestrians, bicyclists and other non-motorized forms of transportation and infrastructure-related projects that provide safe routes for non-drivers, including children, older adults and individuals with disabilities to access daily needs.

Ratio of Federal Highway Trust Fund Payments Into Fund vs. Apportionments and Allocations Out of Fund (Dollars in thousands)

The chart below shows Missouri has received more funding from the Highway Trust Fund than was contributed in highway taxes into the Fund. For example, in fiscal year 2015, Missouri received \$1.10 for every dollar contributed into the Highway Trust Fund.

<sup>&</sup>lt;sup>1</sup> Payments into the Fund include only the net highway user tax receipts and fines and penalties deposited in the Highway Account of the Federal Highway Trust Fund. Payments do not include transfers from the General Fund and Leaking Underground Storage Tank (L.U.S.T.) Fund totaling \$62.8 billion from 2008 to 2015. Apportionments and allocations out of the fund includes all funds apportioned or allocated from the Highway Trust Fund except where FHWA does not directly allocate the funds to the states, e.g. portions of Indian Reservation Roads and safety programs.

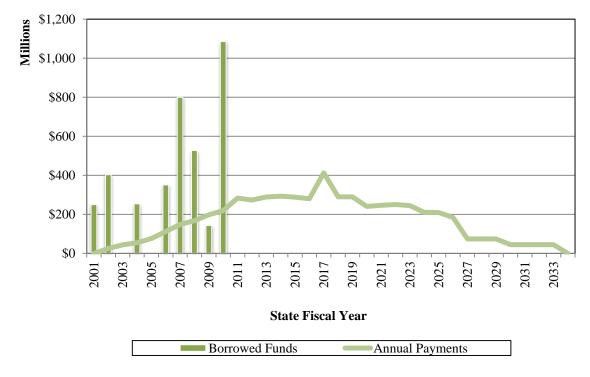

## Summary of State Road Bond Financing Program (Dollars in millions)

Bond financing allowed MoDOT to provide much needed infrastructure improvements to the traveling public sooner than traditional funding allowed. Building projects sooner results in cost savings by reducing project inflation costs, while advancing economic development, improving safety and addressing congestion. The Missouri General Assembly authorized MoDOT to borrow \$2.25 billion in 2000. MoDOT borrowed \$907 million from fiscal years 2001-2004, referred to as senior lien debt.

Voters approved Amendment 3 in 2004 authorizing MoDOT to borrow funds by depositing vehicle sales taxes previously deposited in the state's General Revenue Fund into a newly created State Road Bond Fund. The Amendment 3 revenues are designated for the payment of debt principal and interest. MoDOT borrowed \$1.98 billion from fiscal years 2006-2010.

In fiscal year 2009, MoDOT borrowed \$143 million for a portion of the new Interstate 64, a design-build project in the St. Louis region. This debt is referred to as Grant Anticipation Revenue Vehicle (GARVEE) bonds. In fiscal year 2010, MoDOT borrowed an additional \$100 million for the new Mississippi River Bridge project and \$685 million for the Safe and Sound Bridge Improvement Program.

The borrowed funds, shown below, do not include refunding bonds.

### Note:

The MHTC has \$2.0 billion of bonds outstanding as of June 30, 2017. The average interest rate (true interest cost) on all outstanding debt combined is 2.86 percent.

## Highway User Fees to Local Governments by Fiscal Year (Dollars in thousands)

The state does not receive all of the revenue generated by state highway user taxes and fees. The state constitution, Article IV, directs the Department of Revenue to distribute portions of the state motor fuel tax, motor vehicle sales and use taxes, and motor vehicle and driver licensing fees to cities and counties. The charts below show a six year history of transportation revenue sharing with local entities.

# Summary of MoDOT's External and Internal Expenditures (Dollars in thousands)

The majority of MoDOT's expenditures are payments to vendors. The payments are for goods and services needed to build and maintain Missouri's transportation infrastructure. Whether it is payments to contractors, the purchase of equipment and supplies, design services or travel costs paid to hotels and airlines, these outward focused expenditures are an investment in Missouri's economy, and drive economic opportunity in the state. Internally focused expenditures include employee salaries and benefits, and program distributions to other state agencies and universities.

# Summary of Actual and Projected Construction Awards and Contractor Payments (Dollars in millions)

The graph below displays the relationship between construction awards and contractor payments. Prior to fiscal year (FY) 2011, MoDOT averaged annual construction awards of \$1.2 billion. Most projects are not completed in the year awarded, but are built and paid for in subsequent years. For example, approximately \$298 million of projected FY 2018 contractor payments is for projects awarded in FY 2018. The remainder is for projects awarded in prior years. Awards declined dramatically in FY 2011, but contractor payments remained high as the prior year projects were completed. The FY 2013 contractor payments declined because awards in FY 2011 and FY 2012 reduced significantly. Contruction awards and contractor payments equal in future years due to construction awards remaining steady at \$900 million from 2019-2022. The information is based on the latest financial forecast that was used to develop the 2018-2022 Statewide Transportation Improvement Program (STIP).

### Missouri's State and Federal Fuel Tax Rates and Fuel Tax History

The largest source of transportation revenue is from the federal government through a fuel tax. The largest source of state transportation revenue is the fuel tax. The state motor fuel tax is not indexed to keep pace with inflation. No rate increases have occurred on the state or federal level since the 1990's.

#### Note:

### **State Fuel Tax History:**

- The first state fuel tax rate was 2 cents per gallon, established in 1924.
- Fuel tax rate increased to 3 cents per gallon in 1952.
- Fuel tax rate increased to 5 cents per gallon in 1961.
- Fuel tax rate increased to 7 cents per gallon August 13, 1972.
- Fuel tax rate increased to 11 cents per gallon effective June 1, 1987 (Proposition A).
- Fuel tax rate increased to 13 cents per gallon effective April 1, 1992.
- Fuel tax rate increased to 15 cents per gallon effective April 1, 1994.
- Fuel tax rate increased to its current rate of 17 cents per gallon effective April 1, 1996.

### Federal Fuel Tax History:

- The first federal fuel tax rate was 1 cent per gallon for both gasoline and diesel, established in 1932.
- Fuel tax rate increased to 3 cents per gallon for both gasoline and diesel in 1956.
- Fuel tax rate increased to 4 cents per gallon for both gasoline and diesel in 1959.
- Fuel tax rate increased to 9 cents per gallon for both gasoline and diesel in 1983.
- Fuel tax rate increased to 15 cents per gallon for diesel in 1984.
- Fuel tax rate increased to 9.1 cents per gallon for gasoline and 15.1 cents per gallon for diesel in 1987.
- Fuel tax rate increased to 14.1 cents per gallon for gasoline and 20.1 cents per gallon for diesel in 1990.
- Fuel tax rate increased to its current rate of 18.4 cents per gallon for gasoline and 24.4 cents per gallon for diesel in 1993, with fluctuations in the rate of the tax in 1995, 1996 and 1997 with the current rate effective October 1, 1997.

<sup>&</sup>lt;sup>1</sup> Gasoline gallons include gasohol, compressed natural gas and liquefied natural gas.

<sup>&</sup>lt;sup>2</sup> Beginning January 1, 1994, the Federal government moved the collection point to the terminal. All tax exempt diesel has to be dyed.

<sup>&</sup>lt;sup>3</sup> Beginning January 1, 1999, the State moved the collection point to the rack (terminal). Fiscal year 2000 was the first full year of collections at the terminal.

The following data shows the proportionate share between MoDOT, cities and counties of the three main revenue sources: motor fuel tax, motor vehicle sales tax and the motor vehicle and driver's licensing fees. The Missouri State Highway Patrol (MSHP) and the Department of Revenue (DOR) receive appropriations from these revenues as well.
