Bluebird
 All notified utilities are required to respond. If a utility has no facilities at the dig site they may respond by call, fax or email stating they are clear, by marking 'clear' or 'ok' at the excavation site, or by requesting a meet. Utilities will mark the approximate location of their underground facility in the appropriate color. An 'approximate location' is defined by Missouri Law as a strip of land not wider than the width of the utility plus two feet on either side. If you need to dig in this area, hand digging is recommended.

It is your responsibility to determine which utilities have responded. If a utility fails to respond by 5/25/13 12:00 am you are required to contact us at 800-344-7483 and request a No Response ticket.

A color chart is available at <http://www.molcall.com/markings/codes.php>
 Please visit <http://www.molcall.com> for more information on digging safely.
