Bidder Signature	Department of Transportation  <u>Authorizing Signature</u>
<u>Signature of person authorized to sign</u>	<i>Stephanie Austin Rashid</i>
Date Signed:	Date Signed: December 20, 2013

### **QUESTION:**

(Regarding Traffic Control) The Plans show movable barricades, signage, etcetera that I understand completely. But the Specs on Page 24 section 3.2 Work hour restrictions state that "Lane closures times will be restricted to weekends will be allowed except as approved by the engineer" shall I anticipate that the engineer will allow us to work during the week with the traffic control plan as presented or should we plan on just working weekends under this requirement? Or can we work off hours" Night "the breakdown alludes to night work with zone lighting under traffic control?

### **ANSWER:**

Vendor must bid the project with the working hours shown in the Work Zone Management Plan.

### **QUESTION:**

Is there any more clarification on the "Geotextile on 1' centers" other than 500 lb/ft long term design strength?

### **ANSWER:**

See Missouri Standard Specification Section 1011 for additional information regarding geotextile.

**QUESTION:**

The spec book references (sec 5.5) erosion control material but doesn't actually call anything out or reference a MODOT standard spec. Should we quote some type of erosion control blanket and if so which one?

**ANSWER:**

See Missouri Standard Specification Section 806 for additional information on erosion control.
