Vendors,

In an emergency situation the Missouri Department of Transportation is in need of quotes to repair MO Rte C in Callaway County.

Site Location:

Mokane Road (Route C) approximately 1350 feet south of the intersection between E 1st Street and Mokane Road in the city of Fulton. The slide area is shown in Figure 1.

A MoDOT representative will be available on-site to take questions at 4:00 P.M. May 15, 2014.

Scope of Work:

The Scope of Work includes furnishing and placing rock fill, unclassified excavation, providing erosion control and seeding and mulching disturbed areas.

Beginning at the northern end of the slide area, excavate the existing slope on a 1:1 from the edge of pavement down to approximate elevation 736 or until competent shale is encountered. Competent shale is defined as shale that is dry and resists excavation by mechanical means.

Removal of the placed concrete slabs should enhance the stability of the slope, however the slab removal shall occur in short segments. Once a short segment has been excavated, placement of shot rock fill in the shear key (see figure 2) shall be placed immediately after excavation. If the slope is excavated in long segments the slope may become unstable and the roadway will fail. Short segments are defined as the full reach of the track excavator; a long open trench shall not be permitted. Figure 2 is typical section of repair methods that may be used to stabilize the slope.

Rock fill meeting specification 214 should be used to construct a slope no steeper than 2.1.

Disturbed areas should be seeded and mulched, meeting section 805.

MoDOT will supply traffic control.

Estimated Quantities:

Furnishing and Placing Rock Fill: 2000 CY

Unclassified Excavation: 2700 CY

Erosion Control Silt Fence: 250'

Seed and Mulch: 0.5 Acre

Construction Safety Program

Missouri law, 292.675 RSMo, requires the awarded Contractor and its subcontractor(s) to provide a ten-hour occupational safety and health administration (OSHA) construction safety program (or a similar program approved by the Missouri Department of Labor and Industrial Relations as a qualified substitute) for their on-site employees (laborers, workmen, drivers, equipment operators, and craftsmen) who have not previously completed such a program and are directly engaged in actual construction of the improvement (or working at a nearby or adjacent facility used for construction of the improvement). The Contractor and its subcontractor(s) shall require all such employees to complete this ten-hour program, pursuant to 292.675 RSMo, unless they hold documentation on their prior completion of said program. Penalties for non-compliance include Contractor forfeiture to the Commission in the amount of \$2,500, plus \$100 per contractor and subcontractor employee for each calendar day such employee is employed beyond the elapsed time period for required program completion under 292.675 RSMo.

Prevailing Wage

- a. The work to be performed under this solicitation is governed by the provisions of Chapter 290 RSMo, as amended, related to prevailing wages to be paid on public works.
- b. If the bid/quote is accepted, the vendor will be required to comply with the prevailing wages as fixed by the Missouri Department of Labor and Industrial Relations, in effect as of the date of the issuance of the solicitation, for each affected craft and type of workmen in the following county(ies): **Callaway**. The **General Wage Order # 57** is attached to the bid documents. Pursuant to the requirements of the Chapter 290 RSMo., not less than the prevailing hourly rate of wages, as set out in the wage order attached to and made part of the specification for work under the contract, must be paid to all workers performing work under the contract.
- c. The Contractor shall provide all information, reports and other documentation as required by MHTC to ensure compliance with Chapter 290 RSMo., as amended, relating to prevailing wages to be paid on public works.
- d. The Contractor shall forfeit a penalty to the contracting public body of \$100 per day (or portion of a day) for each worker that is paid less than the prevailing rate for any work done under the contract by the contractor or by any subcontractor.

Permits, Licenses and Safety Issues

The contract price shall include any necessary permits and licenses required by law incidental to the work. Local ordinances requiring building permits are not applicable to state agencies.

Temporary Suspension of Work

- a. The **District Engineer** shall have authority to suspend work wholly or in part for such period or periods as may be deemed necessary when weather or other conditions are such that in the opinion of the engineer, the work may be done at a later time with advantage to MoDOT or for failure on the part of the Contractor to comply with any of the provisions of the Contract.
- b. If MoDOT suspends the work for its own advantages and not because of the Contractor's failure to comply with the Contract, the Contractor will be allowed an equal number of calendar days after the completion date for the completion of the work. MoDOT may at its discretion give the Contractor an extension of time for completing the work where the Contractor incurs delays for causes beyond his control.
- c. Normal rainfall is not considered a cause qualifying for an extension of time. Claim for extension of time for all causes must be submitted by the Contractor in writing within **30 Days** after the claimed cause for the delay has ceased to exist.

Liquidated Damages

- a. In the event the successful Contractor fails to deliver the material within the time specified, the Department and the public will sustain damages because of such delay in delivery, the exact extent of which would be difficult to ascertain, and in order to liquidate such damage in advance it is agreed that the **sum of \$1,000.00 per day, per item**, for each assessable calendar day on which the delivery has not been completed, is reasonable and the best estimate which the parties can arrive at as liquidated damages, and it is therefore agreed that said amount will be withheld from payments due the Contractor or otherwise collected from the Contractor as liquidated damages.
- b. **Saturdays, Sundays, holidays and days whereas the Department has suspended work** shall not be assessable days.
