The following information may be of interest to all bidders.

The primary purpose of the contract is for the transportation of palletized material samples from our districts to our Central Office Materials Laboratory located in Jefferson City, MO which are shipped on an as needed basis. Those materials are the substance or substances incorporated in the construction or maintenance of highway structures, bridges and incidentals.

Examples and quantities (approximate weights) include, but are not limited to the following:

Loose Mix Asphalt – shipped in boxes 40lb
Cement, Fly Ash, and Slag – 5lb canvas bags
Concrete cylinders – 3 in a box weighing approx. 35lb

Rebar (reinforcing steel) – usually 3-6 bars, no more than 3 feet in length, various weights and diameters

Aggregate – 50 lb canvas bags

Salt (granulated form) - quart cans boxed

Liquid calcium chloride – gallon jugs bagged and boxed

Beet Juice – gallon jugs bagged and boxed

Pallet of items may consist of one type of item or a variety of items.
