Section (4) Proposal Submission Information, item (B) 4. indicates that the proposal content must be submitted in the order specified. Item 4.B.4.i. indicates the proposal should follow the outline of the scope of work shown in Section 2 of the RFP. Please confirm that item 4.B.4.c, description of the project approach and methodology will follow the outline presented in Section 2.

Response:

Yes this is correct.

Question:

Please provide the estimated number of miles and intersections by county that will be analyzed using the systemic approach.

Response:

This is intersection count and centerline miles for the counties. The numbers would represent non-MoDOT roads and intersections. The information is based on what we have in our Transportation Management System database. We cannot guarantee 100 percent accuracy, but believe the numbers would represent a very close approximation of reality.
