**MISSOURI DEPARTMENT OF TRANSPORTATION**  
**Sodium Chloride (Rock Salt) Winter Pre-fill**

**Request No. 2-130610RW**

**1. Introduction**

- 1.1 This solicitation seeks bids from qualified organizations to provide Sodium Chloride throughout the state of Missouri with an effective contract period from the Notice to Proceed through October 31, 2013, to the Missouri Highways and Transportation Commission (MHTC) and Missouri Department of Transportation (MoDOT), hereinafter referred to as MoDOT. Sodium Chloride must be delivered to the maintenance or storage facilities in each county within each district for snow and ice control before the 2013/2014 winter season begins.
- 1.2 To accomplish on time deliveries, a cooperative effort between selected salt suppliers, haulers and MoDOT personnel is expected.

**2. Quantities**

- 2.1 The quantities identified in the Pricing Pages are to fill storage facilities prior to the start of the winter season.
- 2.2 MoDOT will issue purchase orders or Notice to Proceed for this material. MoDOT will accept delivery of this material prior to October 31, 2013.

**3. Delivery**

- 3.1 Truckload quantities shall be ordered and delivered to various MoDOT maintenance facilities as identified by each purchase order.
- 3.2 The District Engineer or the engineer's representative may issue delivery orders by phone, fax, email, or mail. Orders placed via phone will be confirmed on hard copy.
- 3.3 Salt delivered to storage domes shall be dumped inside the dome for as long as it is practicable to do so. All other loads shall be dumped into conveyors or in a neat pile on the pad adjacent to the salt storage facility. All dumping shall be as directed by MoDOT personnel. MoDOT personnel will be responsible for stacking material inside the storage facility.
- 3.4 Bottom dumps may be permitted if the material can be discharged within the confined area of the storage facility or salt pad. The cost of unloading shall be included in the unit bid price. Authorization must be obtained by the District Engineer or the engineer's representative prior to the use of bottom dumps.
- 3.5 All deliveries are to be made during maintenance facilities normal working hours unless prior arrangements have been made with the appropriate MoDOT district office or other designated contact person(s). Deliveries will not be accepted on Holidays, Saturdays or Sundays unless a mutual agreement has been reached between the vendor or hauler and the appropriate MoDOT district office.
- 3.6 The Pre-fill salt tonnage shall be delivered by October 31, 2013; therefore, suppliers and haulers must start planning and delivering salt in ample time after the award of this contract to ensure compliance with the mandatory completion date.

- 3.9 The bidder is advised that the legal weight limits allowed on State highways will be enforced. In the event an overweight load is delivered to a MoDOT facility, MoDOT will pay for only that portion of the load, which is within the legal weight limit. The supplier must deduct overweight tonnage amounts from invoices.
- 3.10 Each delivery vehicle shall have a waterproof covering over the salt.

- 4.3 Accepted deliveries that do not meet specifications for gradation, sodium or moisture content shall be invoiced and paid at a ten percent (10%) reduction of awarded bid price.
- 4.4 It will be the responsibility of the supplier to remove all rejected material from state property immediately upon notice that the material has been rejected. Any rejected material, deemed to be inappropriate for snow and ice removal operations by MoDOT, and not picked up by the supplier within 72 hours after being notified may be disposed of by MoDOT as deemed appropriate.
- 4.5 All costs for the disposal of this material will be withheld from payments due the supplier of the rejected material.

- 5.7 Nothing in the contract shall be construed as to relieve the supplier from responsibilities for delivery or the assessment of liquidated damages thereof.

**6. Price Adjustment for Fuel**

- 6.1 A price adjustment for fuel, if agreed upon by the bidder, will be made based upon the average price of Ultra Low Sulfur Diesel (ULSD) as reported by Platt's Oilgram – PAD 2 – St. Louis Area. The first day of the month (excluding Saturdays, Sundays and holidays) in which the salt bids are advertised will be used to establish the "Starting Fuel Index" for the duration of the contract. The Starting Fuel Index for this contract is the price posted for May 1, 2013, which was \$3.22 per gallon.

**MISSOURI DEPARTMENT OF TRANSPORTATION**  
**Sodium Chloride (Rock Salt) Winter Pre-fill**

**Request No. 2-130610RW**

- 6.2 MoDOT will, on the first day of each month (excluding Saturdays, Sundays and holidays) determine the “Monthly Fuel Index” of ULSD from the price index as reported by Platt’s Oilgram – PAD 2 – St. Louis Area, which will apply to all payment invoices for salt delivered during that month regardless of the type of fuel used. If the price of fuel increases or decreases \$0.10 per gallon, the price of salt will increase or decrease \$0.10 per ton accordingly. Adjustments will be made in \$0.10 increments.
- 6.3 The “Monthly Fuel Index” can be found on MoDOT’s website, [www.modot.gov](http://www.modot.gov), under BUSINESS>CONTRACTOR RESOURCES>BID OPENING INFORMATION>GENERAL INFORMATION.
- 6.4 Fuel price adjustments must be shown as a separate line item on each invoice.
- 6.5 If the bidder wishes to be bound by these specifications, the bidder shall execute the acceptance form in the bid on page 2. Failure by the bidder to execute the acceptance form will be interpreted to mean election to not participate in the price adjustment for fuel.

**7. Invoicing and Payment Requirements**

- 7.1 The contractor shall submit an itemized invoice to the applicable requesting address for the completion of deliverables, as specified herein.
- 7.2 The contractor shall be paid in accordance with the firm, fixed prices stated on the pricing page of this document after completion of deliverables specified herein and acceptance by MoDOT.
- 7.3 Other than the payment specified above, no other payments or reimbursements shall be made to the contractor for any reason whatsoever.
- 7.4 MoDOT is exempt from paying Missouri Sales Tax, Missouri Use Tax and Federal Excise Tax. However, the contractor may themselves be responsible for the payment of taxes on materials they purchase to fulfill the contract. A Federal Excise Tax Exemption Certificate will be furnished to the successful bidder upon request.
- 7.5 Unless otherwise provided for in the solicitation documents, payment for all equipment, supplies, and/or services required herein shall be made in arrears. The Missouri Highways and Transportation Commission (MHTC) shall not make any advance deposits.
- 7.6 The MHTC assumes no obligation for equipment, supplies, and/or services shipped or provided in excess of the quantity ordered. Any authorized quantity is subject to the MHTC’s rejection and shall be returned at the contractor's expense.

**8.3 Bid Guaranty/Contract Bond:**

- a. Each bid shall be accompanied by a Bid Bond, Certified Check, Cashier's Check or Bank Money Order payable to the Director of Revenue – Credit State Road Fund for an amount equal to Five Percent (5%) of the amount of the BID submitted. This is to act as a guarantee that the bidder, if awarded the contract, will furnish an acceptable performance and payment bond (Contract Bond) or a cashier's check, a bank money order or a certified check made payable to "Director of Revenue--Credit State Road Fund" in an amount equal to One Hundred (100%) of the contract price.
- b. If a BID BOND is used (in lieu of a certified check, cashier's check, or bank money order), it must be in the form provided and executed by the bidder as principal and by a surety company authorized to do business in the State of Missouri as surety. The agent executing the same on behalf of the surety company must attach a current Power of Attorney setting forth his authority to execute the bond involved.

Bid Bonds will not be returned except on specific request of the bidder.
- d. Failure to execute the contract and file acceptable performance payment (Contract Bond) or cashier's check, bank money order or certified check within **15 days** after the contract has been mailed to the bidder shall be just cause for the cancellation of the award and the forfeiture of the proposal guaranty. Award may then be made to the next lowest responsible bidder, or the work may be re-advertised and performed under contract or otherwise, as the Commission may decide. No contract shall be considered effective until it has been executed by all parties thereto.

8.4 Bids will be reviewed to determine if it complies with the mandatory requirements and to determine the lowest and responsive bid.

8.5 **Cost Determination** – The low bid shall be determined by reviewing each line item separately.

8.6 **Contract Award** – The contract will be awarded to the lowest responsive bidder determined as specified above.

- a. Award of this bid will be made by low bid by county or by District or a combination thereof. In order to allow for a District bid, bidder must provide a bid for all counties within said District. The individual county bids and District bid will be evaluated to determine the lowest overall cost. To make this determination, the sum of the quantities per county multiplied by their respective low bid by county will be compared to the sum of the quantities for the District multiplied by the District bid. *Reference Attachment A for an award determination example.*
- b. In the event of tie low bids, the Commission reserves the right to establish the method to be used in determining the award.

**8.7 Open Competition/Request for Bid Document**

- a. It shall be the bidder's responsibility to ask questions, request changes or clarification, or otherwise advise MoDOT if any language, specifications or requirements of an RFB appear to be ambiguous, contradictory, and/or arbitrary, or appear to inadvertently restrict or limit the requirements stated in the RFB to a single source. Any and all communication from bidders regarding specifications, requirements, competitive bid process, etc., must be directed to the buyer from the MoDOT, unless the RFB specifically refers the bidder to another contact. Such communication should be received at least five (5) working days prior to the official bid opening date.

**2.4 Moisture.** The moisture content at the delivery point shall not exceed 2.0 percent based on dry weight.

**2.5 Foreign Material.** Sodium chloride shall be relatively free from any foreign material at the delivery point. Residue from truck beds such as coke, grain, or other materials not germane to sodium chloride will be cause for rejection. Any oversize foreign material will result in immediate rejection.

### **3.0 PACKAGING.**

3.1 The sodium chloride shall be delivered in bulk lots.

3.2 The supplier shall furnish the truck driver a copy of the bill of lading, manifest, or truck ticket to be delivered to the Missouri Department of Transportation personnel prior to unloading, showing the following information regarding the shipment:

- (a) Consignee.

- (b) Destination.
- (c) Type of Material (including the percent Sodium Chloride).
- (d) Purchase Order Number.
- (d) Truck number and weights of truck before and after loading.
- (f) Date loaded.
- (g) Name and Location of the Source.
- (h) A Certification Statement.

**3.2.1** The certification statement shall be signed by an authorized representative of the Supplier and substantially as follows:

"This certifies that the Sodium Chloride in this shipment complies with Missouri Department of Transportation specifications and the weights shown hereon were obtained on scales approved by and/or certified by the State of Missouri and are correct within the specified scale requirements."

**3.2.2** The requirements for platform scales for weighing Bulk Sodium Chloride are shown in Annex B of this specification.

#### **4.0 ACCEPTANCE.**

**4.1** A lot shall consist of that quantity of material ordered for delivery to one location at one time. It shall be sampled and tested prior to intermixing with material on hand.

**4.2** Acceptance of the material will be based on satisfactory compliance with this specification as determined by samples and inspection deemed necessary by the engineer at the delivery site.

**4.3** If samples fail to meet the material requirements on the basis of an initial sample, two additional samples shall be taken from the lot and tested. Both of the additional samples must meet the requirements, or the lot will be rejected.

**4.4** The department will not accept loads which exceed the legal limits. Overweight loads that are emptied before rejection will have the tonnage in excess of the legal weight deducted from the invoice.

**4.5** In addition to other requirements, 95% Sodium Chloride material shall be specifically delivered to a location designated by receiving personnel, and any contamination with existing lower percentage sodium chloride salt as a result of delivery will be cause for rejection or payment at the lower sodium chloride content salt rate, at the department's option.

**ANNEX A****TEST METHOD MODOT T32**  
**DETERMINATION OF PURITY OF SODIUM CHLORIDE**

**1.0 SCOPE.** This method describes a procedure for determining the percent sodium chloride in commercial grades of sodium chloride.

**2.0 REAGENTS AND AP PARATUS.**

**2.1** Millivolt meter equipped with a combination chloride electrode.

**2.2** Nitric Acid ( $\text{HNO}_3$ ), chloride free, 1.42 specific gravity.

**2.3** Sodium Chloride ( $\text{NaCl}$ ), Reagent Grade, dried at 105-110C for 1 hour prior to use.

**2.4** Silver Nitrate ( $\text{AgNO}_3$ ), Reagent Grade.

**2.5** A source of chloride-free distilled or deionized water.

**3.0 PREPARATION OF STANDARD SOLUTIONS.**

**3.1** Standard Sodium Chloride Solution (0.0100N). Weigh 0.5844 g dried  $\text{NaCl}$ , dissolve in distilled water and dilute to 1L.

**3.2** Standard Silver Nitrate Solution (0.01N). Weigh 1.699 g  $\text{AgNO}_3$ , dissolve in distilled water and dilute to 1L. Standardize to the nearest 0.0001 N against 0.0100 N  $\text{NaCl}$ .

**4.0 PROCEDURE.**

**4.1** Using a suitable sample splitting technique, divide the salt, as received, to obtain a representative sample of about 75 g. Grind the entire 75 g sample to pass a No. 50 mesh sieve, dry at least 3 hours at 105-110C and cool to room temperature in a desiccator. Weigh the sample to the nearest 0.1 mg and transfer to a 1000mL beaker. Add approximately 500 mL of distilled water and 20 mL of  $\text{HNO}_3$ . Heat near boiling 1 hour, occasionally stirring and crushing any insoluble matter against the bottom of the beaker with the flattened end of a stirring rod. Cool to room temperature, quantitatively transfer to a 1000mL volumetric flask and dilute to volume with distilled water. Transfer a 10-mL aliquot to a 1000-mL volumetric flask and dilute to volume with distilled water.

**4.2** Transfer a 10-mL aliquot to a 250-mL beaker, adding 90 mL of distilled water and 1 mL of  $\text{HNO}_3$ . Determine the chloride concentration by potentiometric titration with the standard silver nitrate solution.

D = Grams of sample

**ANNEX B****SPECIFICATIONS FOR PLATFORM SCALES  
FOR WEIGHING BULK SODIUM CHLORIDE**

**1.0** Equipment for weighing of bulk Sodium Chloride shall consist of accurate and reliable platform scales approved by the Missouri Department of Transportation.

**2.0** Calibration shall be to within an accuracy of 0.4 percent of the load applied, regardless of the location of the load on the platform. The value of the smallest unit of graduation on a scale shall be not greater than 20 pounds. Sensitivity requirements of scales not equipped with balance indicators shall be twice the value of the minimum graduated interval on the weigh beam, or 0.2 percent of the nominal capacity of the scale, whichever is less. For scales equipped with balance indicators, the sensitivity requirement shall be the value of the minimum graduated interval on the weigh beam.

**3.0** When equipment to be weighed is of such length that all axles cannot be weighed simultaneously, a level area of portland cement concrete or asphaltic concrete pavement shall be provided permitting those axles not on the scale platform to be on the pavement during the weighing operation. The approach shall be the same width as the platform and of sufficient length to insure the level positioning of vehicles during weight determinations. The weighing shall be performed with all brakes released. When equipment to be weighed is equipped with an air bag suspension unit on any axle, the equipment including semi-trailers or pup trailers shall be weighed on platform scales of sufficient size to weigh all axles of the combination simultaneously.

**4.0** Scales shall have been calibrated within the six month period immediately prior to any material being delivered or any time the Missouri Department of Transportation's representative has cause to question the accuracy of the scale. A scale acceptance shall be based on one of the following:

(a) A valid certification or seal of approval by the Division of Weights and Measures of the Missouri Department of Agricultural will be acceptable.

(b) A valid certification or seal of approval by a State of Missouri duly appointed "sealer of weights and measures" in cities or counties of seventy-five thousand population or more will be acceptable.

(c) Certification of calibration from a commercial scale service company showing that the scale meets the requirements of these specifications. The Supplier shall furnish the certification of calibration to the Missouri Highway and Transportation Department's representative.

**4.1** Regardless of the form of acceptance, the calibration shall be within the accuracy requirements specified herein and the scales shall meet all requirements of these specifications.
