## 1. Introduction

- 1.1 This contract is to establish firm-fixed-pricing for aggregate material for maintenance purposes. Sealed bids will be accepted to supply aggregate material as stated in this bid. The contractor shall provide aggregate to the Missouri Highway and Transportation Commission (MHTC) and Missouri Department of Transportation (MoDOT), in accordance with the provisions and requirements stated herein.
- 1.2 Unless otherwise noted, the contractor shall furnish all material, labor, facilities, equipment and supplies necessary to provide the deliverables/services required herein.
- 1.3 The contract period shall be from Notice to Proceed through completion date(s) as indicated on pricing pages.

## 2. Quantities

- 2.1 The quantities identified in the Pricing Pages are estimates only. The quantities may or may not represent the actual quantities encountered on the job. Attach the Pricing Pages only on the districts for which you are submitting pricing.
- 2.2 MoDOT may increase or decrease quantities by 40 percent. MoDOT will issue a Notice to Proceed or purchase orders after the Missouri Highways and Transportation Commission approves the contract.
- 2.3 The quantity finally ordered by the Commission will be furnished by the bidder at the same unit price per ton.
- 2.4 MoDOT reserves the right to obtain “like or similar” products as specified herein from other manufacturers, exclusive of the contract, when use of such products is deemed in the best interest of MoDOT.

## 3. Material

All material shall conform to **Missouri Standard Specifications for Highway Construction, 2011 Edition**, and any revisions thereto, except as revised herein:

- 3.1 Section 1001.14 Aggregate Quality Control/Quality Assurance. Aggregate produced under an approved MoDOT QC/QA program will be accepted on that basis. All other aggregates are subject to the department’s conventional inspection and acceptance procedures. All mine tailing shall meet the requirements of Section 1001.12 Mining By-Product Aggregates.
- 3.2 MoDOT reserves the right to inspect the material at the point of manufacture, intermediate storage point, or at a destination which shall be at the discretion of MoDOT.

## 4. Delivery

- 4.1 The contractor shall deliver material specified herein to the applicable MoDOT location(s) as specified in accordance with the pricing pages.
- 4.2 The starting date is upon receipt of Notice to Proceed and the completion date for the delivery of the material shall be as shown on the pricing pages within this document for each district under the Completion Date column.
  - 4.2.1 If the date the purchase order is issued is less than 15 days from the completion date, the contractor shall be given an extension for delivery. The contractor shall be given at a minimum 15 days to deliver upon issuance of a purchase order.
- 4.3 All deliveries are to be made during maintenance facilities normal working hours unless prior arrangements have been made with the appropriate MoDOT district office or other designated contact person(s). Deliveries will not be accepted on Holidays, Saturdays or Sundays unless a mutual agreement has been reached between the vendor or hauler and the appropriate MoDOT district office.
- 4.4 Belly dump beds are prohibited from use for delivery with this contract.

## **5. Ticket Requirements**

- 5.1 The contractor's printer must be capable of keeping and printing cumulative totals for each item number in the contract. The contractor's printer shall produce a ticket in triplicate to accompany each truckload and shall be furnished to MoDOT. The ticket shall include the following information:
  - a. Gross, tare and net weights (masses).
  - b. Identification of the vehicle
  - c. Current date and time
  - d. MoDOT's Purchase Order Number
  - e. Unique ticket number (may be preprinted on the ticket).
  - f. Item, Specification Designation and Location
- 5.2 In the event the contractor lacks the ability to print a ticket, a manual ticket may be furnished, with the approval of the engineer.
- 5.3 In the event of automatic ticket failure, the contractor may be permitted, without approval from the engineer, to furnish manually written tickets to complete that day's operation.
- 5.4 The contractor shall understand and agree that vehicle scales shall adhere to section 310.4 of the Missouri Standard Specifications for Highway Construction, 2011 Edition. Per section 310.5.3 Measurement by Weight will be made by weighing each truck load on scales in accordance with section 310.4. Deductions will be made for any moisture in excess of 2.0 percent of the dry weight of the material. After deduction for excess moisture has been made, measurement will be made to the nearest ton for the total tonnage of material accepted.
- 5.5 The contractor shall issue a ticket to all trucks hauling material adhering to section 404.2.13 of the Missouri Standard Specifications for Highway Construction, 2011 Edition.

## **6. Liquidated Damage Requirements**

- 6.1 The contractor shall agree and understand that providing the aggregate in accordance with the requirements stated herein is considered critical to the efficient operations of MoDOT. However, since the amount of actual damages would be difficult to establish in the event the contractor fails to comply with the contractual requirements, the contractor shall agree and understand that the amount identified below as liquidated damages shall be reasonable and fair under the circumstances.
  - a. In the event the contractor fails to provide the specified services for the aggregate in accordance with the contractual requirements specified herein, the contractor shall be assessed liquidated damages in the amount of \$250.00 per day for each such delinquent day.
  - b. The contractor shall further agree and understand that such liquidated damages shall either be deducted from the total amount due the contractor or paid by the contractor as a direct payment to the MoDOT, at the sole discretion of the MoDOT.
  - c. The contractor shall understand that the liquidated damages described herein shall not be construed as a penalty.
  - d. The contractor shall agree and understand that all assessments of liquidated damages shall be within the discretion of the State of Missouri and shall be in addition to, not in lieu of, the rights of the State of Missouri to pursue other appropriate remedies.

## **7. Invoicing and Payment Requirements**

- 7.1 The contractor shall submit an itemized invoice to the applicable requesting address for the completion of deliverables, as specified herein.
- 7.2 The contractor shall be paid in accordance with the firm, fixed prices stated on the applicable pricing page of this document after completion of deliverables specified herein and acceptance by MoDOT.
- 7.3 Other than the payment specified above, no other payments or reimbursements shall be made to the contractor for any reason whatsoever.

- 7.4 MoDOT is exempt from paying Missouri Sales Tax, Missouri Use Tax and Federal Excise Tax. However, the contractor may themselves be responsible for the payment of taxes on materials they purchase to fulfill the contract. A Federal Excise Tax Exemption Certificate will be furnished to the successful bidder upon request.
- 7.5 Unless otherwise provided herein, payment for all equipment, supplies, and/or services required herein shall be made in arrears. The MHTC shall not make any advance deposits.
- 7.6 The MHTC assumes no obligation for equipment, supplies, and/or services shipped or provided in excess of the quantity ordered. Any unauthorized quantity is subject to the MHTC's rejection and shall be returned at the contractor's expense.
- 7.7 The MHTC reserves the right to purchase goods and services using the state-purchasing card.

**8. Price Adjustment for Fuel**

- 8.1 **Price Adjustment for Fuel.** The method of price adjustment for the fuel used on various items of work that may be involved in the construction of this project will be based on "Fuel Usage Factors" for the various items as noted below: The On-Road Factor is based upon a 30-mile round trip haul:

Item of Work	Unit	Fuel Usage Factor On-Road Hauling (30 mile avg.)
Aggregate	Tons	0.67

The first day of the month (excluding Saturdays, Sundays, and holidays) in which the project is bid will be used to establish the "Starting Fuel Index" for the duration of the project. The "Starting Fuel Index" will be the average of the values given for No. 2 fuel as reported by Platt's Oilgram - PAD 2 - St. Louis Area.

The pay items and unit prices in the contract will not change. The Commission will, on the first day of each month (excluding Saturdays, Sundays and holidays), determine the "Monthly Fuel Index" of No. 2 fuel from the price index as reported by Platt's Oilgram - PAD 2 - St. Louis Area, which will apply to all payment estimates during that month regardless of the type fuel used.

The quantities of completed work for the payment period will be determined by the engineer and included in the payment estimate. These same quantities will be used to determine the fuel usage for any price adjustment.

The difference (±) between the "Monthly Fuel Index" and the "Starting Fuel Index" will be the "Monthly Fuel Index Adjustment Factor". Adjustments will be made for any change in the ratio of the "Monthly Fuel Index" to the "Starting Fuel Index". This "Monthly Fuel Index Adjustment Factor", along with the "Fuel Usage Factor" and quantities of completed work for which payment is made will determine the fuel adjustment payment or deduction.

If adjustments are made in the contract quantities, the contractor shall accept the fuel adjustment as full compensation for increases or decreases in the price of fuel regardless of the amounts of overrun or underrun.

The fuel adjustment will be computed each pay period work is performed, for the usage of fuel by the following procedure:

$$\text{Fuel Adjustment} = (\text{Fuel Usage Factor}) \times (\text{Monthly Fuel Index Adjustment Factor}) \times (\text{Units of Work included in the payment estimate})$$

Payments or deductions for the fuel adjustments on the various items of work will be made on the estimate as one "Fuel Adjustment". No change order will be required.

If the bidder wishes to be bound by these specifications, the bidder shall execute the acceptance form in the proposal. Failure by the bidder to execute the acceptance form will be interpreted to mean election to not participate in the price adjustment for fuel.

## 9. Bid Submission

- 9.1 Each bid must be mailed or hand delivered in a sealed package to the RFB Coordinator at the General Services Procurement Office. All questions regarding the RFB shall be submitted to the RFB Coordinator. - 9.2 All bids must be received in a sealed package clearly marked “**Fall Aggregate**”
- 9.3 **MHTC reserves the right to reject any and all bids for any reason whatsoever.**
- 9.4 **Pricing Pages** – Bidders may submit only the Pricing Pages for the districts bidders are submitting prices on. The bidder shall provide a firm, fixed price in the table for providing the deliverables/services in accordance with the provisions and requirements specified herein. All costs associated with providing the required deliverables/services shall be included in the prices stated.
- 9.5 **Bid Guaranty/Contract Bond:**
- 9.5.1 If bidding on more than one district, the bidders have the option to obtain either a single bid guaranty and contract bond in an amount based on the cumulative total amount of the bids for all districts, or multiple bid guaranties and contract bonds, each in amounts based on and corresponding to the amount of the bid attributed to each district. The following are guidelines for each bid guaranty and contract bond to be submitted by the bidder with the bids:
- a. Each bid shall be accompanied by a Bid Bond, Certified Check, Cashier's Check or Bank Money Order payable to the Director of Revenue – Credit State Road Fund for an amount equal to Five Percent (5%) of the amount of the BID submitted. This is to act as a guarantee that the bidder, if awarded the contract, will furnish an acceptable performance and payment bond (Contract Bond) or a cashier's check, a bank money order or a certified check made payable to "Director of Revenue-- Credit State Road Fund" in an amount equal to One Hundred (100%) of the contract price.
  - b. If a BID BOND is used (in lieu of a certified check, cashier's check, or bank money order), it must be in the form provided and executed by the bidder as principal and by a surety company authorized to do business in the State of Missouri as surety. The agent executing the same on behalf of the surety company must attach a current Power of Attorney setting forth his authority to execute the bond involved.
  - c. Certified Checks, Cashier's Checks or Bank Money Orders of unsuccessful bidders will be returned as soon as the award is made. The checks or bank money orders of the successful bidder(s) will be retained until the contract is executed and a satisfactory Performance and Payment (Contract Bond) is furnished. Bid Bonds will not be returned except on specific request of the bidder.
  - d. Failure to execute the contract and file acceptable performance payment (Contract Bond) or cashier's check, bank money order or certified check within **15 days** after the contract has been mailed to the bidder shall be just cause for the cancellation of the award and the forfeiture of the proposal guaranty. Award may then be made to the next lowest responsible bidder, or the work may be re-advertised and performed under contract or otherwise, as the Commission may decide. No contract shall be considered effective until it has been executed by all parties thereto.

- 9.6 Bids will be reviewed to determine if the bid complies with the mandatory requirements, and to determine the lowest and responsive bid.
- 9.7 **Cost Determination** – The low bid shall be determined by reviewing each line item separately.
- 9.8 **Contract Award** – The contract will be awarded to the lowest responsive bidder determined as specified above.
- a. Award of this bid will be made on an “Item-By-Item” basis after reviewing all options, and by using the “lowest and best” principle of award, providing the prices are acceptable to the Commission. In the event of tie low bids, the Commission reserves the right to establish the method to be used in determining the award.
- 9.9 **Open Competition/Request for Bid Document**
- a. It shall be the bidder's responsibility to ask questions, request changes or clarification, or otherwise advise MoDOT if any language, specifications or requirements of an RFB appear to be ambiguous, contradictory, and/or arbitrary, or appear to inadvertently restrict or limit the requirements stated in the RFB to a single source. Any and all communication from bidders regarding specifications, requirements, competitive bid process, etc., must be directed to the buyer from the MoDOT, unless the RFB specifically refers the bidder to another contact. Such communication should be received at least five (5) working days prior to the official bid opening date.
