

RCB6615 Warranty

Land Pride warrants to the original purchaser that this Land Pride product will be free from defects in material and workmanship beginning on the date of purchase by the end user according to the following schedule when used as intended and under normal service and conditions for personal use.

Overall Unit and Driveline: One year Parts and Labor

Gearbox: 5 Years Parts and Labor
6th & 7th Year Parts Only

Hydraulic Cylinders: One year Parts and Labor;
Hoses and seals are considered wear items.

Blades, tires and driveline friction discs: Considered wear items

This Warranty is limited to the repair or replacement of any defective part by Land Pride and the installation by the dealer of any such replacement part, and does not cover common wear items. Land Pride reserves the right to inspect any equipment or parts which are claimed to have been defective in material or workmanship.

This Warranty does not apply to any part or product which in Land Pride's judgment shall have been misused or damaged by accident or lack of normal maintenance or care, or which has been repaired or altered in a way which adversely affects its performance or reliability, or which has been used for a purpose for which the product is not designed. Misuse also specifically includes failure to properly maintain oil levels, grease points, and driveline shafts.

Claims under this Warranty should be made to the dealer which originally sold the product and all warranty adjustments must be made through an authorized Land Pride dealer. Land Pride reserves the right to make changes in materials or design of the product at any time without notice.

This Warranty shall not be interpreted to render Land Pride liable for damages of any kind, direct, consequential, or contingent to property. Furthermore, Land Pride shall not be liable for damages resulting from any cause beyond its reasonable control. This Warranty does not extend to loss of crops, any expense or loss for labor, supplies, rental machinery or for any other reason.

No other warranty of any kind whatsoever, express or implied, is made with respect to this sale; and all implied warranties of merchantability and fitness for a particular purpose which exceed the obligations set forth in this written warranty are hereby disclaimed and excluded from this sale.

This Warranty is not valid unless registered with Land Pride within 30 days from the date of purchase by the end user.

IMPORTANT: The Online Warranty Registration should be completed by the dealer at the time of purchase. This information is necessary to provide you with quality customer service.

Land Pride has sold over 30 Rotary Cutters, mainly RC5615s, in 2015.

Roadside Maintenance

"We ran four Land Pride RC5615s in our district in 2014. We replaced nothing on them, only performed maintenance. These cutters are great."

Brad Raven
District I County Commissioner
Beaver County, OK

Roadside maintenance takes a special Rotary Cutter. A Rotary Cutter made by a company that understands how the cutters are used and how they are maintained. Land Pride Rotary Cutters have been developed with input from contractors, municipalities, counties, and states. The outcome of those collaborative efforts are the Land Pride RC56, RC66, and RCB66 Series Rotary Cutters.

Serviceability enhancements have made our Series II Heavy-Duty Cutters the easiest to maintain in the industry. Several enhancements were first proposed by Departments of Transportation and contractors looking for an easier way. These enhancements improve their ability to properly maintain the cutter, in less time with better results.

Full specs for all of our heavy-duty rotary cutters can be found on our website at landpride.com. Our cutters

are in use by countless counties and contractors across the nation. There are even a number of State Departments of Transportation, detailed at left, that are maintaining their highways and byways with Land Pride Rotary Cutters.

*...really good parts
service – 24 to 36 hours
and our parts are here.*

Beaver County, located in the panhandle of Oklahoma, bought 15 Land Pride RC5615s in 2015. This is Beaver County's second year to purchase RC5615s. The County first bought 15 units in 2013 after Land Pride beat out a competitor in a formal bid process.

“...we could run these 5 years and not see any major problems.”

After talking to everyone involved in the decision to switch, Beaver County is likely to keep purchasing Land Pride Rotary Cutters, over and over again. They were impressed with the RC5615's rugged durability, Land Pride's fast parts availability and proven reliability.

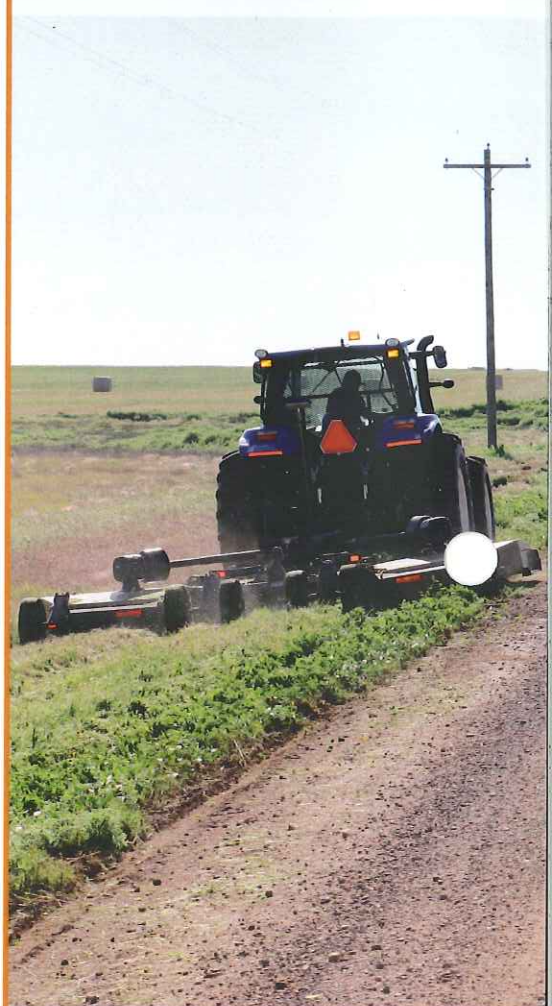

Steven Perry, Maintenance Foreman for District 2 stated: “There is nothing about them I don't like. They have been a blessing. With the (competitors), we spent a lot of time trying to keep them running. Not with Land Pride! I've done nothing to these except grease them. I think we could run these 5 years and not see any major problems.”

Between all three Districts in Beaver County, they maintain over 2,000 miles of roads – times 2 sides, that's 4,000 miles of road to maintain. Each of the three District offices reported the same thing: “We like ‘em a lot.” and “Exceptional cut quality!”

Enhancements

Land Pride Series II Cutters all feature drive shafts with grease zerks in the end caps, paired with Land Pride's new patent-pending sliding center shield, proper maintenance of drivelines is greatly simplified, as is maintaining the slip clutches and servicing the u-joints at the splitter gearbox. Big among commercial mowers is the new beveled skid shoes on the wings to prevent gouging and fully welded decks for added strength. Land Pride's new Performance Hitch and driveline holder make hook-up a breeze too. The LP Performance Hitch swivels side-to-side and up and down making this hitch very draw-bar friendly.
