 - a. The Offeror should present a written narrative which demonstrates the method or manner in which the Offeror proposes to satisfy the requirements of the Scope of Work. Narrative should outline methods of operation, operational structure, and services to be provided by the Offeror. The language of the narrative should be straightforward and limited to facts, solutions to problems, and plans of proposed action.
 - b. The method by which the proposed method of performance is written is left to the discretion of the Offeror. However, the following method is recommended:

On plain white paper, identify each specific paragraph and subparagraph of the Scope of Work (see Article II) by paragraph and page number as an item for discussion. Immediately below these numbers, write a description of how, when, by whom, with what, to what degree, why, where, etc. the requirements will be satisfied. The offeror should provide any relevant information regarding their familiarity with the physical layout, condition, etc. of the buildings.

3. **Responsibility to Submit Information:** The Offeror is cautioned that it is the Offeror's sole responsibility to submit information related to the evaluation categories and that MHTC's representative is under no obligation to solicit such information if it is not included with the Offeror's proposal. Failure of the Offeror to submit such information may cause an adverse impact on the evaluation of the Offeror's proposal.
4. **Low Proposal Determination:** The objective evaluation of cost will be based upon a total annual amount for all services for the original contract period and potential renewal periods. For evaluation purposes only, the total for the required janitorial services will be computed using the cleanable square footage amount listed in the background section of the RFP and the total for supplemental services will be computed using the quantities listed below. However, the offeror shall agree and understand that the quantities listed are for cost evaluation purposes only and shall not be construed to be an estimate nor any guarantee of a minimum or maximum amount of services that may be required.
