3. General Requirements

- 3.1 The Contractor shall provide concrete waste reclamation services for all eligible locations as indicated in this bid. Concrete slabs and pipes shall be crushed and screened as outline in this RFB. The contractor is responsible for obtaining all permits necessary for these services.
- 3.2 The Contractor shall be responsible for verifying existing utility locations on the reclamation site(s)
- 3.3 Unless otherwise specified herein, the contractor shall furnish all material, labor, facilities, equipment and supplies necessary to provide the deliverables/services required herein to the sole satisfaction of MHTC.

4. Definitions and Terms

- 4.1 Clean fill is “uncontaminated soil, rock, sand, gravel, concrete, asphaltic concrete, cinder blocks, brick, minimal amounts of wood and metal and inert (nonreactive) solids for fill, reclamation or other beneficial use”.
- 4.2 Minimal means “the smallest amount possible”. For example, concrete containing wire mesh or reinforcing rods (rebar) may be used for clean fill if you remove the exposed rebar before use.

5. Specific Requirements

- 5.1 All work shall be accomplished in a safe manner in accordance with the Missouri Standard Specification for Highway Construction and OSHA standards.
- 5.2 The material processed consists of ONLY concrete slabs and pipes that have been removed from a roadway or bridge during repair operations. The concrete slabs are of varying size and shape, and contain wire mesh and rebar.
- 5.3 The intent of this RFB is to solicit the services of a contractor to crush slabs and pipes, remove the steel wire mesh and reinforcing steel such that the crushed materials can be used as clean fill. The steel removed in the crushing process is to become the property of the contractor and removed from the reclamation site(s).
- 5.4 The finished crushed aggregate product be Rock Ditch Liner Gradation - maximum aggregate size of 3 inches.
- 5.5 The concrete slab stockpiles shall be crushed into cubic yard quantities shown in the attached Pricing Pages.

- 5.10 The Contractor shall use equipment and perform work in a manner to prevent damages to MHTC infrastructure facilities and all landscaped areas. Any damage to private property or streets shall be repaired at the expense of the Contractor in a timely manner.
- 5.11 The Contractor shall conduct the work so as not to interfere with the daily activities of the MHTC and any or all employees and personnel located at the reclamation site(s).
- 5.12 The MHTC reserves the right to inspect the work sites covered by this bid, verify quantities and review operations at any time without advance notification to the Contractor.

6. Measurement

- 6.1 Measurement for all reclaimed concrete shall be by the cubic yard as determined by a measurement of the gradation piles by the MHTC and calculation of the cubic yards of material in each pile.
- 6.2 The estimated amount of concrete slabs to be reclaimed under this contract is shown on the individual price sheets, but not guaranteed. The unit price on the individual bid schedules will be used for payment based on the actual pile measurement and cubic yard calculation.
- 6.3 The Contractor may be requested to crush more or less than the estimated quantity of concrete slabs shown on the price sheets.
- 6.4 MHTC reserves the right to limit the total amount of reclamation quantities to 150% of the estimated amount of slabs shown on the pricing sheets.

7. Performance Schedule

- 7.1 The Contractor shall commence contract performance within five (5) working days of receipt of Notice to Proceed. Prior to commencing the on-site concrete slab crushing operations in the Southeast District, the Contractor shall, with the MHTC's direction, provide a WORK PLAN showing where operations will begin. The plan shall be updated if changes are made in the operations plan. Work cannot be started until the MHTC has issued a notice to proceed for the work.
- 7.2 **Work Plan:** The Contractor will submit a Work Plan that describes the method, equipment, anticipated production rate and completion date of the work for the Southeast District where the work is being performed. Information from the Work Plan will be used to determine what, if any, liquidated damages will be assessed for not completing the work in the Southeast District as approved in the Work Plan. Should the original amount of concrete slab material be increased or decreased in the Southeast District, the Work Plan will be updated by the Contractor and MHTC to reflect possible changes to the completion date for that work.
- 7.3 All activity associated with slab crushing operations shall be performed during normal working hours of 7:00 am to 5:00 pm, local time, unless an alternate work schedule is approved by the MHTC.
- 7.4 The Contractor may work six days per week, excluding holidays, if approved by the MHTC.
- 7.5 Both parties pursuant to applicable county, state and federal law will equitably negotiate subsequent changes in cost and completion time.

8. Equipment

8.1 All trucks and other equipment must be in compliance with all applicable federal, state, and local rules and regulations. All trucks and other equipment shall be equipped with back up alarms.

9. Payment

9.1 Payment for work completed may be invoiced twice a month. Invoices shall be based on MHTC estimates of the finished material stockpiles. Payment will be based on the unit pricing submitted by the Contractor in the bidding schedule.

9.2 Other than the payment specified above, no other payments or reimbursements shall be made to the Contractor for any reason whatsoever.

9.3 Unless otherwise provided for in the solicitation documents, payment for all services required herein shall be made in arrears. The MHTC shall not make any advance deposits.

10. Changes, Additions, Deductions and Extra Work

10.1 Upon proper action the MHTC may authorize changes, additions or deductions from the work to be performed by written notice to the Contractor.

10.2 No extra work shall be done or any obligation incurred except upon written order by the MHTC. If any change causes an increase or decrease in the Contractor's cost of, or the time required for, the performance of any part of the work under this contract, the MHTC shall make an equitable adjustment and modify the contract in writing through the use of a supplemental to the contract.

10.3 The MHTC reserves the right to direct additional services not described in the bid document as changed or unforeseen conditions may require. Such direction by the Commission Representative shall not be a breach of this Agreement. In this event, a supplemental agreement will be negotiated and executed prior to the Contractor performing the additional or changed services, or incurring any additional cost therefore.

11.1 Each bid must be mailed or hand-delivered in a sealed package to the RFB Coordinator at the Procurement Office. All questions regarding the RFB shall be submitted to the RFB Coordinator. All bids must be received at the Procurement Office no later than 10:00 AM, Local Time, March 15, 2017.

- a. Each bid shall be accompanied by a Bid Bond, Certified Check, Cashier's Check or Bank Money Order payable to the Director of Revenue – Credit State Road Fund for an amount equal to Five Percent (5%) of the amount of the BID submitted. No contract shall be considered effective until it has been executed by all parties thereto.

11.4 Bids will be reviewed to determine if the bid complies with the mandatory requirements, and to determine the lowest and best bid.

11.5 **Cost Determination** – The low bid shall be determined by multiplying the Bidder's firm, fixed prices with the applicable estimated quantity.

11.6 **Contract Period** – The contract period shall be from a six (6) month time period from date of contract execution. Upon the approval of both parties, the terms and conditions of this Agreement are renewable for an additional six (6) months from the date of the expiration of the Agreement. Any extension shall be memorialized in an appropriate Supplemental Agreement and executed by the duly authorized representatives of the parties.

11.7 **Contract Award** – The low bid shall be determined by multiplying the Bidder's firm, fixed prices with the applicable estimated quantity per county.

11.8 Open Competition/Request for Bid Document

- a. It shall be the bidder's responsibility to ask questions, request changes or clarification, or otherwise advise MoDOT if any language, specifications or requirements of an RFB appear to be ambiguous, contradictory, and/or arbitrary, or appear to inadvertently restrict or limit the requirements stated in the RFB to a single source. Any and all communication from bidders regarding specifications, requirements, competitive bid process, etc., must be directed to the buyer from the MoDOT, unless the RFB specifically refers the bidder to another contact. - b. When any of the above **holidays falls** on a **Sunday**, the holiday will be observed on the following **Monday**; when any of the above **holidays falls** on a **Saturday**, the **holiday** will be observed on the immediately preceding **Friday**.

Temporary Suspension of Work

- a. The **District Engineer** shall have authority to suspend work wholly or in part for such period or periods as may be deemed necessary when weather or other conditions are such that in the opinion of the engineer, the work may be done at a later time with advantage to MoDOT or for failure on the part of the Contractor to comply with any of the provisions of the Contract.
- b. If MoDOT suspends the work for its own advantages and not because of the Contractor's failure to comply with the Contract, the Contractor will be allowed an equal number of calendar days after the completion date for the completion of the work. MoDOT may at its discretion give the Contractor an extension of time for completing the work where the Contractor incurs delays for causes beyond his control.
- c. Normal rainfall is not considered a cause qualifying for an extension of time. Claim for extension of time for all causes must be submitted by the Contractor in writing within **30 Days** after the claimed cause for the delay has ceased to exist.

Liquidated Damages

- a. In the event the successful Contractor fails in providing the required deliverables/services within the time specified on the Work Plan, the Department and the public will sustain damages because of such delay in deliverables/services, the exact extent of which would be difficult to ascertain, and in order to liquidate such damage in advance it is agreed that the **sum of \$150.00 per day, per item**, for each assessable calendar day on which the deliverables/services have not been completed, is reasonable and the best estimate which the parties can arrive at as liquidated damages, and it is therefore agreed that said amount will be withheld from payments due the Contractor or otherwise collected from the Contractor as liquidated damages.
- b. If the Contractor is allowed to work on Saturdays, as approved by the MHTC, then Saturdays will be an assessable day. If Saturdays are not allowed as work days, then Saturdays, Sundays, holidays and days whereas the Department has suspended work shall not be assessable days.
