## **Missouri Department of Transportation**

Code: R04695 Title: Information Systems Technologist

Exemption Status: Non-Exempt Grade: 11

Job Description	
Effective Date	01-16-2008
Replaces (Effective Date)	04-01-2006
General Summary	The information systems technologist performs routine entry-level activities in the areas of application/program development and computer system support for end users, including program debugging, server maintenance, information system management for software applications, problem diagnosis/resolution, and communications. Responsibilities are performed under direct supervision.
Minimum/Required Qualifications	Bachelor's Degree: Computer Science, Computer Information Systems, Business Administration, Mathematics, or related field
Supervisory Responsibilities	None
Location	Central and District Offices - Information Systems
Special Working Conditions/Job Characteristics	Job requires occasional, statewide, overnight travel.

## **Examples of Work**

- (1) Provides information system support to end-users relative to problem solving; analyzes and diagnoses problems relative to the equipment; instructs the user on operating the system.
- (2) Installs, maintains, troubleshoots, and repairs all software applications, operating systems, new products, and hardware for servers and workstations.
- Writes, tests, documents, and updates configurations, installations, upgrade procedures, and operator instructions for software applications, servers, and workstations.
- (4) Assists in coordination and planning with department personnel, management team, committees, and other agencies to recommend solutions for current or future application needs and systems compatibility issues.
- (5) Prepares application documentation, including user manuals, operations procedures, and technical and testing documentation.
- (6) Discusses program needs with users or prospective users; develops technical specifications, input/output layouts, program flow diagrams, data models and other technical deliverables required for application development.
- (7) Maintains an inventory of automation equipment; receives and ships equipment to and from the Central

Office and vendors.

- (8) Uses programming languages/tools to develop application code, scripts, graphical user interfaces and other application components.
- (9) Contacts vendors for technical support, product information, to report system problems, and resolve issues.
- (10) Develops, coordinates, schedules, and conducts software application training classes.
- (11) Performs other responsibilities as required or assigned.
