Mainline Paving Underway on Route 364/Page Phase 3

Paving is underway on the new Route 364/Page Phase 3. Crews have poured nearly all the mainline lanes between Interstate 64 and Route K. That stretch of road will open in early October. Crews will spend the remaining few weeks laying asphalt for the shoulders, striping the new road and putting up signs. The section of road between Route K and Mid Rivers Mall Drive will be paved in the next few weeks and will be open to traffic by October 31. Below are some pictures of the paving operations.

Major Traffic Impacts Coming to Route 94/Mid Rivers

One of the final things to do on Route 364/Page Phase 3 will be to connect the new road to the existing stretch. In order to do that, eastbound Route 94 will be closed at Mid Rivers Mall Drive for about a month. Motorists will detour around the closure by exiting Route 94 at Mid Rivers, going through the intersection and back onto Route 94/Route 364. An exact date of the detour will be available soon.
