Farewell: Thank You for All Your Support

This will mark my final MoDOT St. Charles County newsletter. I have been selected to be the new District Design Engineer for MoDOT in St. Louis.

I just wanted to take a few minutes to thank everyone that I have worked with over the past four years. You have all helped contribute to a growing and thriving community and really have a passion and commitment to transportation. I am proud to have served the residents and businesses in St. Charles and know that it will continue to flourish.

Whether it was something as simple as installing new signs at a sharp curve or more complex, like building and opening Route 364 all the way to I-64, it takes a team to make it happen. MoDOT can't do it alone and the partnerships and relationships formed help make our roads smoother and safer. I can't thank you all enough.

I will still be Area Engineer through the end of July and anticipate my replacement will be named in early August.

As always, be safe on the roads!
