MoDOT Seeking Projects Under New Missouri Moves Program

MoDOT is looking for a few good projects under the new Missouri Moves Cost Share Program. The program provides financial assistance to public and private applicants for projects that satisfy a transportation need.

Eligible projects include roads, bridges, multimodal facilities and bicycle/pedestrian accommodations. This will allow communities to address specific transportation-related needs in their region.

MoDOT will participate up to 50 percent of the total project cost under the program which is funded by a \$20 million General Revenue appropriation from the General Assembly.

Guidelines, application and rating information are available at www.modot.org/missourimoves. Applications are due by July 29, 2016.

I-70 at Fifth Street/Fairgrounds Road Project Moves Forward

If you drive along Interstate 70 between Route 94 and Fifth Street you can see how much progress is being made on the two new interchanges being built. Things are changing rapidly as crews work hard to make their late November deadline of having all roads open.

For additional project information, go to http://www.modot.org/stlouis/major_projects/705thStImprovements.htm.
