1:40-2:45: **Choose 2 Breakout Sessions, each lasting 25 minutes:**

Blueprint for Safety/ Regional Coalition (Room 470) – *Have you read the newly revised safety blueprint for Missouri? MoDOT Traffic Liaison Engineer John Miller will provide the latest strategies and goals to improve roadway safety. St. Louis Traffic Operations Engineer Teresa Krenning will provide a regional coalition perspective.*

Local Public Agency Programs (Room 450) - *Do you know what's changing this year for local federal programs? Come hear the ins and outs of keeping your program up to date from Local Programs Administrator Kenny Voss.*

TMS Data Zone (Room 315) - *Would you like to be on the cutting edge of analyzing your regional safety, traffic, pavement and bridge data? Experience firsthand the next generation of transportation data sharing with MoDOT Transportation System Analysis Engineer Brian Reagan as he demonstrates an interactive data analysis tool for regional planners.*

Transportation Performance Management Capability Maturity Model (Room 316) – *Would you like to improve how your agency collaborates with partners or how it sets targets? Get hands-on experience with FHWA's Transportation Performance Management Capability Maturity Model to see how to develop action items for your agency as MoDOT's Organizational Performance Specialist Karen Miller walks you through using this tool.*

2:45-3:00: **Wrap Up (Room 450)** – Mabelle Watkins, Transportation Planning Director
