Pete K. Rahn, Director

October 19, 2006

Dear Legislator:

We know it's important for you as an elected official to be aware of transportation projects planned or under way in your area. For your information and reference, we are attaching the most recent list of approved highway projects in your legislative district.

These projects are part of the 2007-2011 Statewide Transportation Improvement Program (STIP), which the Missouri Highways and Transportation Commission recently approved. The STIP is a comprehensive list of state transportation projects planned for the next five years, barring any unforeseen obstacles in the development process.

In addition to road and bridge projects, the STIP includes aviation, rail, waterways and public transit projects for which the Missouri Department of Transportation is responsible. You can review the complete plan online at www.modot.org. A copy is also available in the legislative library or upon request.

Public involvement is a key component in developing the STIP. It starts with us working with local governments to determine project priorities and continues through various forms of public involvement that gives Missourians an opportunity to share their thoughts and opinions.

I hope you find this information helpful. Please call me at 573-751-4622 or Jay Wunderlich, governmental relations director, at 573-751-8273 if you have any questions or comments or if we can provide you with additional information.

Sincerely,

Pete K. Rahn
Director

cc: Jay Wunderlich

Missouri Highway and Bridge 2007 – 2011 Scoping and Design Projects

The purpose of this section is to identify potential future projects. These projects may be in the evaluation stage, which is called project scoping, or may be further along in the preliminary design process. **Projects listed in this section are not commitments to construct or implement an improvement.**

After needs have been identified and prioritized, the higher priority needs are included in this section. Next, a core team is formed, comprising personnel from various MoDOT departments. The core team investigates the problem or concern. The core team develops several solutions that may be either short term or long term. Some problems have no transportation or construction solution and instead may require public education or assistance through law enforcement.

Once a solution is selected, additional preliminary design work occurs. Design progresses up to a point at which MoDOT is confident the solution will properly address the problem or concern and of the improvement's cost. The potential project moves into the next stage of the planning framework, which is the prioritization and selection of projects for construction. Projects that have been prioritized and selected for construction are listed in the construction program (see Section 4.) Only the construction projects in Section 4 represent a commitment by MoDOT to build the project.

Please see Section 2-2 through 2-5 for additional discussion regarding how a need becomes a project through the planning framework process of identifying and prioritizing needs, to developing solutions, to prioritizing and selecting projects for construction.

The amount of time a potential project spends in the scoping and design phase varies. Some potential projects are more complex than others, and they might remain in the scoping and design phase for several years. This is especially true for projects such as Missouri and Mississippi River bridge replacements, new roadway construction, or converting a two-lane road to a four-lane road.

County	Route	Job Number	Improvement and Location
Clay	IS 435	4I1930	Scoping for pavement rehabilitation from the Missouri River to Rte. 24.
Clay	MO 210	4U1114	Scoping to upgrade to expressway from west of Eldon Road to east of Rte. 291.
Clay	MO 9	4S1921	Scoping for a bicycle/pedestrian facility over the Missouri River.
Clay	MO 9	4S1931	Scoping for pavement rehabilitation from Tenth Avenue to Admiral Boulevard.
Clay	US 169	4P1918	Scoping for bridge rehabilitation from Missouri River to I-29.
Jackson	IS 435	4I1597	Scoping alternatives to relieve congestion at the I-435/I-70 interchange.
Jackson	IS 435	4I1731	Scoping and Design to install ramp metering signals from Holmes Road to State Line Road.
Jackson	IS 470	4I1942	Scoping for purpose and need statement, and traffic analysis of I-470 corridor from 39th Street to Blue Ridge Boulevard.
Jackson	IS 70	4I1486B	Scoping for First Tier Environmental Impact Statement from Kansas State line to just east of I-470 interchange.
Jackson	IS 70	4I1788	Scoping for bridge improvement on east and westbound bridges from Rte. 7 to the Saline County line.
Jackson	IS 70	4I1790	Scoping to rehabilitate eastbound and westbound bridges from east of the downtown loop to I-470.
Jackson	IS 70	4I1916	Scoping to rehabilitate bridge at the Manchester Trafficway.
Jackson	IS 70	4I1917	Scoping for bridge expansion joint repair on the Lewis and Clark viaduct.
Jackson	MO 150	4S1823	Scoping to redeck bridge over East Big Creek.
Jackson	OR 291	4S1940	Scoping for outer road study/design from Courtney Road to Kentucky Road.
Jackson	RT W	4S1937	Scoping for pavement rehabilitation from the Kansas state line to Rte. 435.
Jackson	US 24	4P1889	Scoping to rehabilitate bridge at Cambridge Avenue and BNSF Railroad.
Jackson	US 71	4S1936	Scoping for pavement rehabilitation from Swope Parkway to 75th Street.

2007 - 2011 Highway and Bridge Construction Schedule RSMo 21.795.2.(3)

The Highway and Bridge Construction Schedule identifies highway and bridge projects funded for right-of-way acquisition and/or construction during the five-year period between July 1, 2006, and June 30, 2011.

Projects on this schedule are funded and represent a commitment to implement an improvement, purchase right-of-way and or construct. Projects on this schedule with right-of-way funding only represent a commitment to buy right-of-way, not a commitment to construct.

There are a number of assumptions and requirements that must be met for project construction to begin. Some assumptions and requirements apply to all projects. Other assumptions and requirements vary depending upon the complexity of the project. These assumptions are:

- The assumed funding levels from state and federal sources are reached.
- All environmental requirements and clearances are obtained.
- Any legal matters are resolved.
- Right-of-way acquisition and utility relocation occur as scheduled.
- Concurrence is obtained from the metropolitan planning organizations for projects in the Columbia, Joplin, Kansas City, St. Joseph, St. Louis, Springfield, and Jefferson City areas.

PROJECT DESCRIPTION KEY

2007-2011 Highway and Bridge Construction Schedule

Construction contingency at a rate of three percent or at the District's discretion is applied to the construction cost in the year the project is awarded.

Four percent inflation compounded annually is applied to right-of-way and construction in program years 2, 3, 4, and 5.

No inflation is applied to the Funding From Other Sources (FFOS).

Incidentals include PE costs, CE costs, and R/W incidentals.

Project Estimate Total includes costs to date and estimated future costs.
