Pete K. Rahn, Director

October 19, 2006

Dear Legislator:

We know it's important for you as an elected official to be aware of transportation projects planned or under way in your area. For your information and reference, we are attaching the most recent list of approved highway projects in your legislative district.

These projects are part of the 2007-2011 Statewide Transportation Improvement Program (STIP), which the Missouri Highways and Transportation Commission recently approved. The STIP is a comprehensive list of state transportation projects planned for the next five years, barring any unforeseen obstacles in the development process.

In addition to road and bridge projects, the STIP includes aviation, rail, waterways and public transit projects for which the Missouri Department of Transportation is responsible. You can review the complete plan online at www.modot.org. A copy is also available in the legislative library or upon request.

Public involvement is a key component in developing the STIP. It starts with us working with local governments to determine project priorities and continues through various forms of public involvement that gives Missourians an opportunity to share their thoughts and opinions.

I hope you find this information helpful. Please call me at 573-751-4622 or Jay Wunderlich, governmental relations director, at 573-751-8273 if you have any questions or comments or if we can provide you with additional information.

Sincerely,

Pete K. Rahn
Director

Missouri Highway and Bridge 2007 – 2011 Scoping and Design Projects

The purpose of this section is to identify potential future projects. These projects may be in the evaluation stage, which is called project scoping, or may be further along in the preliminary design process. **Projects listed in this section are not commitments to construct or implement an improvement.**

After needs have been identified and prioritized, the higher priority needs are included in this section. Next, a core team is formed, comprising personnel from various MoDOT departments. The core team investigates the problem or concern. The core team develops several solutions that may be either short term or long term. Some problems have no transportation or construction solution and instead may require public education or assistance through law enforcement.

Once a solution is selected, additional preliminary design work occurs. Design progresses up to a point at which MoDOT is confident the solution will properly address the problem or concern and of the improvement's cost. The potential project moves into the next stage of the planning framework, which is the prioritization and selection of projects for construction. Projects that have been prioritized and selected for construction are listed in the construction program (see Section 4.) Only the construction projects in Section 4 represent a commitment by MoDOT to build the project.

Please see Section 2-2 through 2-5 for additional discussion regarding how a need becomes a project through the planning framework process of identifying and prioritizing needs, to developing solutions, to prioritizing and selecting projects for construction.

The amount of time a potential project spends in the scoping and design phase varies. Some potential projects are more complex than others, and they might remain in the scoping and design phase for several years. This is especially true for projects such as Missouri and Mississippi River bridge replacements, new roadway construction, or converting a two-lane road to a four-lane road.

County	Route	Job Number	Improvement and Location
Bates	US 71	7P0797	Scoping to determine needed improvements for future upgrade from Cass County to Route 71/Route 249 interchange in Jasper County.
Jasper	MO 171	7P0773	Scoping for roadway improvements from 0.1 mile west of Prairie Flower Road to 0.1 mile east of Ellis Street in Webb City.
Jasper	MO 171	7P0820	Scoping for roadway improvements from Rte. 96 to Rte. 43.
Jasper	MO 43	7S0788	Scoping for roadway improvements at Zora Street in Joplin.
Jasper	MO 66	7S0741	Scoping for culvert improvements between Moffet and Byers avenues in Joplin.
Jasper	RT D	7S0519	Scoping for bridge improvements over Spring River 2.0 mile west of Rte. O.
Jasper	RT FF	7S0770	Scoping for roadway improvements at Main Street in Joplin.
Jasper	RT FF	7S0811	Scoping for roadway improvements from 0.2 mile west of Rte. 71 to 0.2 mile east of Rte. 71 in Joplin.
Jasper	RT HH	7S0810	Scoping for roadway improvements at interchange with Rte. 71 in Carthage.
Jasper	RT P	7S0784	Scoping for bridge improvements over Turkey Creek 0.2 mile south of Rte. JJ.
Jasper	RT Y	7S0521	Scoping for bridge improvements over Little Spring River 0.9 mile north of Rte. H.
Jasper	US 71	7P0825	Scoping for signing modifications from Rte. 96 to the Arkansas state line.
Jasper	Var	7P0823	Scoping for signal interconnect system on various principal arterial highways in the Joplin metropolitan area.
Jasper	Var	7P0847	Scoping for roadway improvements for a potential new north/south corridor on the west side of the Joplin metropolitan area.

2007 - 2011 Highway and Bridge Construction Schedule RSMo 21.795.2.(3)

The Highway and Bridge Construction Schedule identifies highway and bridge projects funded for right-of-way acquisition and/or construction during the five-year period between July 1, 2006, and June 30, 2011.

Projects on this schedule are funded and represent a commitment to implement an improvement, purchase right-of-way and or construct. Projects on this schedule with right-of-way funding only represent a commitment to buy right-of-way, not a commitment to construct.

There are a number of assumptions and requirements that must be met for project construction to begin. Some assumptions and requirements apply to all projects. Other assumptions and requirements vary depending upon the complexity of the project. These assumptions are:

- The assumed funding levels from state and federal sources are reached.
- All environmental requirements and clearances are obtained.
- Any legal matters are resolved.
- Right-of-way acquisition and utility relocation occur as scheduled.
- Concurrence is obtained from the metropolitan planning organizations for projects in the Columbia, Joplin, Kansas City, St. Joseph, St. Louis, Springfield, and Jefferson City areas.

PROJECT DESCRIPTION KEY

2007-2011 Highway and Bridge Construction Schedule

Construction contingency at a rate of three percent or at the District's discretion is applied to the construction cost in the year the project is awarded.

Four percent inflation compounded annually is applied to right-of-way and construction in program years 2, 3, 4, and 5.

No inflation is applied to the Funding From Other Sources (FFOS).

Incidentals include PE costs, CE costs, and R/W incidentals.

Project Estimate Total includes costs to date and estimated future costs.
