Pete K. Rahn, Director

October 19, 2006

Dear Legislator:

We know it's important for you as an elected official to be aware of transportation projects planned or under way in your area. For your information and reference, we are attaching the most recent list of approved highway projects in your legislative district.

These projects are part of the 2007-2011 Statewide Transportation Improvement Program (STIP), which the Missouri Highways and Transportation Commission recently approved. The STIP is a comprehensive list of state transportation projects planned for the next five years, barring any unforeseen obstacles in the development process.

In addition to road and bridge projects, the STIP includes aviation, rail, waterways and public transit projects for which the Missouri Department of Transportation is responsible. You can review the complete plan online at www.modot.org. A copy is also available in the legislative library or upon request.

Public involvement is a key component in developing the STIP. It starts with us working with local governments to determine project priorities and continues through various forms of public involvement that gives Missourians an opportunity to share their thoughts and opinions.

I hope you find this information helpful. Please call me at 573-751-4622 or Jay Wunderlich, governmental relations director, at 573-751-8273 if you have any questions or comments or if we can provide you with additional information.

Sincerely,

Pete K. Rahn
Director

cc: Jay Wunderlich

Missouri Highway and Bridge 2007 – 2011 Scoping and Design Projects

The purpose of this section is to identify potential future projects. These projects may be in the evaluation stage, which is called project scoping, or may be further along in the preliminary design process. **Projects listed in this section are not commitments to construct or implement an improvement.**

After needs have been identified and prioritized, the higher priority needs are included in this section. Next, a core team is formed, comprising personnel from various MoDOT departments. The core team investigates the problem or concern. The core team develops several solutions that may be either short term or long term. Some problems have no transportation or construction solution and instead may require public education or assistance through law enforcement.

Once a solution is selected, additional preliminary design work occurs. Design progresses up to a point at which MoDOT is confident the solution will properly address the problem or concern and of the improvement's cost. The potential project moves into the next stage of the planning framework, which is the prioritization and selection of projects for construction. Projects that have been prioritized and selected for construction are listed in the construction program (see Section 4.) Only the construction projects in Section 4 represent a commitment by MoDOT to build the project.

Please see Section 2-2 through 2-5 for additional discussion regarding how a need becomes a project through the planning framework process of identifying and prioritizing needs, to developing solutions, to prioritizing and selecting projects for construction.

The amount of time a potential project spends in the scoping and design phase varies. Some potential projects are more complex than others, and they might remain in the scoping and design phase for several years. This is especially true for projects such as Missouri and Mississippi River bridge replacements, new roadway construction, or converting a two-lane road to a four-lane road.

County	Route	Job Number	Improvement and Location
Christian	US 65	8P0605	Scoping to improve system efficiency and capacity from Valley Water Mill Road in Springfield to Rte. F in Ozark.
Greene	44	8I0860	Scoping for SFY 2010 on-call guard cable repair in the Ozarks Transportation Organization area.
Greene	44	8I0862	Scoping for SFY 2011 on-call guard cable repair in the Ozarks Transportation Organization area.
Greene	BU 65	8P0789	Scoping for intersection improvements at Glenstone and Primrose in Springfield.
Greene	MO 13	8P0841	Scoping to improve interchange capacity at I-44.
Greene	MO 266	8S0851	Scoping to improve capacity on Chestnut Expressway at the I-44 interchange and between I-44 and Route AB.
Greene	MO 744	8S0790	Scoping for intersection improvements at Kearney and National in Springfield.
Greene	MO 744	8S0852	Scoping to determine pavement rehabilitation needs from Route 65 to Route OO.
Greene	NEW	8S0795	Scoping to determine a roadway connection to serve new Midfield Terminal at Springfield/Branson National Airport.
Greene	RT H	8S0724	Scoping to determine needs at interchange and intersections on Rte. H from north of FR 102 (Valley Water Mill) to south of I-44.
Greene	RT M	8S0835	Scoping for adding turn lanes, signal at Republic High School.
Greene	US 160	8P0896	Scoping to improve intersection capacity at Hughes Road in Willard.
Greene	US 60	8P0683	Scoping for roadway improvements and develop plans for corridor preservation from Farm Road 247 to east of Rogersville.
Greene	US 60	8P0683B	Scoping for interchange and ramp improvements at Rte. 60/65 interchange in southeast Springfield.
Greene	US 60	8P0683D	Scoping for corridor preservation for Rtes. 60/J/NN interchange with corresponding outer roads from west of Highland Springs Road to east of Farm Road 213.
Greene	US 60	8P0683E	Scoping for corridor preservation for interchange at Route 125 and outer roads from west of FR 213 to FR 247.
Greene	US 60	8P0791	Scoping to improve interchange safety and capacity at James River Freeway and National Avenue in Springfield.
Greene	US 60	8P0792	Scoping to improve interchange safety and capacity at James River Freeway and Route 160 (Campbell Avenue) in Springfield.
Greene	US 65	8P0850	Scoping to improve interchange capacity at Rte. Business 65 (Chestnut Expressway).
Greene	Var	8P0760	Scoping for Transportation Management System software for congestion and incident management various routes in the Springfield area.
Greene	Var	8Q0830C	Scoping for Field Device Development Deployment of Intelligent Transportation System in the Ozarks Transportation Organization Area on various routes in the Ozarks Transportation Organization area.
Greene	ZZ AND MM	8S0836	Scoping to extend Rte. ZZ to Rte. MM and eliminate at-grade railroad crossing. Between Rte. M and Rte. 60.
Various	Var	8P0858	Scoping for SFY 2011 on-call guardrail repair in the Ozarks Transportation Organization area.

2007 - 2011 Highway and Bridge Construction Schedule RSMo 21.795.2.(3)

The Highway and Bridge Construction Schedule identifies highway and bridge projects funded for right-of-way acquisition and/or construction during the five-year period between July 1, 2006, and June 30, 2011.

Projects on this schedule are funded and represent a commitment to implement an improvement, purchase right-of-way and or construct. Projects on this schedule with right-of-way funding only represent a commitment to buy right-of-way, not a commitment to construct.

There are a number of assumptions and requirements that must be met for project construction to begin. Some assumptions and requirements apply to all projects. Other assumptions and requirements vary depending upon the complexity of the project. These assumptions are:

- The assumed funding levels from state and federal sources are reached.
- All environmental requirements and clearances are obtained.
- Any legal matters are resolved.
- Right-of-way acquisition and utility relocation occur as scheduled.
- Concurrence is obtained from the metropolitan planning organizations for projects in the Columbia, Joplin, Kansas City, St. Joseph, St. Louis, Springfield, and Jefferson City areas.

PROJECT DESCRIPTION KEY

2007-2011 Highway and Bridge Construction Schedule

Construction contingency at a rate of three percent or at the District's discretion is applied to the construction cost in the year the project is awarded.

Four percent inflation compounded annually is applied to right-of-way and construction in program years 2, 3, 4, and 5.

No inflation is applied to the Funding From Other Sources (FFOS).

Incidentals include PE costs, CE costs, and R/W incidentals.

Project Estimate Total includes costs to date and estimated future costs.
