Pete K. Rahn, Director

October 19, 2006

Dear Legislator:

We know it's important for you as an elected official to be aware of transportation projects planned or under way in your area. For your information and reference, we are attaching the most recent list of approved highway projects in your legislative district.

These projects are part of the 2007-2011 Statewide Transportation Improvement Program (STIP), which the Missouri Highways and Transportation Commission recently approved. The STIP is a comprehensive list of state transportation projects planned for the next five years, barring any unforeseen obstacles in the development process.

In addition to road and bridge projects, the STIP includes aviation, rail, waterways and public transit projects for which the Missouri Department of Transportation is responsible. You can review the complete plan online at www.modot.org. A copy is also available in the legislative library or upon request.

Public involvement is a key component in developing the STIP. It starts with us working with local governments to determine project priorities and continues through various forms of public involvement that gives Missourians an opportunity to share their thoughts and opinions.

I hope you find this information helpful. Please call me at 573-751-4622 or Jay Wunderlich, governmental relations director, at 573-751-8273 if you have any questions or comments or if we can provide you with additional information.

Sincerely,

Pete K. Rahn
Director

cc: Jay Wunderlich

Enclosure

Missouri Highway and Bridge 2007 – 2011 Scoping and Design Projects

The purpose of this section is to identify potential future projects. These projects may be in the evaluation stage, which is called project scoping, or may be further along in the preliminary design process. **Projects listed in this section are not commitments to construct or implement an improvement.**

After needs have been identified and prioritized, the higher priority needs are included in this section. Next, a core team is formed, comprising personnel from various MoDOT departments. The core team investigates the problem or concern. The core team develops several solutions that may be either short term or long term. Some problems have no transportation or construction solution and instead may require public education or assistance through law enforcement.

Once a solution is selected, additional preliminary design work occurs. Design progresses up to a point at which MoDOT is confident the solution will properly address the problem or concern and of the improvement's cost. The potential project moves into the next stage of the planning framework, which is the prioritization and selection of projects for construction. Projects that have been prioritized and selected for construction are listed in the construction program (see Section 4.) Only the construction projects in Section 4 represent a commitment by MoDOT to build the project.

Please see Section 2-2 through 2-5 for additional discussion regarding how a need becomes a project through the planning framework process of identifying and prioritizing needs, to developing solutions, to prioritizing and selecting projects for construction.

The amount of time a potential project spends in the scoping and design phase varies. Some potential projects are more complex than others, and they might remain in the scoping and design phase for several years. This is especially true for projects such as Missouri and Mississippi River bridge replacements, new roadway construction, or converting a two-lane road to a four-lane road.

County	Route	Job Number	Improvement and Location
Lincoln	MO 47	3P0747	Scoping for improvements to Rte. 47 from Rte. 61 west ramps to Main Street in Troy.
Lincoln	RT C	3S0765	Scoping for bridge improvements on Rte. C in Lincoln County.
Lincoln	RT V	3S0598	Scoping for bridge project over Sugar Creek 0.9 mile east of Rte. 61.
Lincoln	US 61	3P0749	Scoping for potential future roadway improvements to Rte. 61 at Troy.
St. Charles	IS 70	6I1751	Scoping for fence replacement along I-70 South Outer Road from Dardenne Creek to west of Rte. C.
St. Charles	IS 70	6I1945	Scoping for bridge improvements (rehabilitate) at the Rte. 370 interchange.
St. Charles	IS 70	6I1999	Scoping for an the addition of a southbound right turn lane to the I-70 westbound on-ramp and add a dual left turn lane to the eastbound I-70 on-ramp at Wentzville Parkway.
St. Charles	IS 70	6I2002	Scoping for an addition of a westbound lane from TR Hughes Boulevard interchange to Rte. K.
St. Charles	IS 70	6I2051	Scoping for the addition of an auxiliary lane on I-70 eastbound from T.R. Hughes to Rte. 79.
St. Charles	IS 70	6I2052	Scoping for the addition of an auxiliary lane on I-70 eastbound from Rte. K/M to T.R. Hughes.
St. Charles	IS 70	6I2059	Scoping for interchange interconnects from Rte.40/61 to 5th Street.
St. Charles	MO 364	6U1028D	Scoping for grading, drainage, bridges and interchange for Page Avenue extension from Hanley Road to McCluer Road.
St. Charles	MO 364	6U1028Y	Scoping for grading, paving, one way outer road, signing, signals and lighting from w/o Central School Road to east of Jungerman Road (Page Extension).
St. Charles	MO 370	6P1943	Scoping for bridge improvements (rehabilitate) 0.3 mile east of I-70 over the Norfolk and Western Railroad.
St. Charles	MO 370	6P1944	Scoping for eastbound and westbound bridge improvements (rehabilitate) over the Missouri River.
St. Charles	MO 94	6S1529	Scoping for pavement repair, resurfacing and widening for a left turn lane from Rte. B to Clark Street.
St. Charles	MO 94	6S1837	Scoping for signal facility improvements to arterial ITS requirements from I-70 to Rte. 40.
St. Charles	MO 94	6S1946	Scoping for bridge improvements (rehabilitate) over Femme Osage Creek.
St. Charles	MO 94	6S1955	Scoping for pavement improvements (resurface) from Rte. H/J intersection to Rte. 67.
St. Charles	OR 70	6I1982	Scoping for resurface the north and south outer roads from Rte. K to Rte. 79.
St. Charles	RT A	6S1942	Scoping for pavement and bridge improvements (rehabilitate) from Rte. 40/61 to I-70.
St. Charles	RT B	6S1947	Scoping for bridge improvements (rehabilitate) over Dardenne Creek.
St. Charles	RT N	6S1988	Scoping to widen for a left turn lane and shoulders and realign Rte. N from Meadowlake Drive to Dardenne Farms Drive.
St. Charles	US 61	6P1527	Scoping for resurfacing the outer roads, pave and light the pool parking lot, light the intersection, and add turn lanes at Rte. P.
St. Charles	US 67	6P2031	Scoping for structural steel painting on the Lewis Bridge over the Missouri River.
St. Louis	US 40	6P1436	Scoping to construct a new bridge and rehabilitate existing bridge to connect a new outer roadway from 1.0 mile west of to 1.0 mile

2007 - 2011 Highway and Bridge Construction Schedule RSMo 21.795.2.(3)

The Highway and Bridge Construction Schedule identifies highway and bridge projects funded for right-of-way acquisition and/or construction during the five-year period between July 1, 2006, and June 30, 2011.

Projects on this schedule are funded and represent a commitment to implement an improvement, purchase right-of-way and or construct. Projects on this schedule with right-of-way funding only represent a commitment to buy right-of-way, not a commitment to construct.

There are a number of assumptions and requirements that must be met for project construction to begin. Some assumptions and requirements apply to all projects. Other assumptions and requirements vary depending upon the complexity of the project. These assumptions are:

- The assumed funding levels from state and federal sources are reached.
- All environmental requirements and clearances are obtained.
- Any legal matters are resolved.
- Right-of-way acquisition and utility relocation occur as scheduled.
- Concurrence is obtained from the metropolitan planning organizations for projects in the Columbia, Joplin, Kansas City, St. Joseph, St. Louis, Springfield, and Jefferson City areas.

PROJECT DESCRIPTION KEY

2007-2011 Highway and Bridge Construction Schedule

Construction contingency at a rate of three percent or at the District's discretion is applied to the construction cost in the year the project is awarded.

Four percent inflation compounded annually is applied to right-of-way and construction in program years 2, 3, 4, and 5.

No inflation is applied to the Funding From Other Sources (FFOS).

Incidentals include PE costs, CE costs, and R/W incidentals.

Project Estimate Total includes costs to date and estimated future costs.

Construction contingency applied to construction cost in the year the project is awarded.

Three percent inflation compounded annually is applied to right-of-way and construction costs in program years 2, 3, 4, and 5.

No inflation is applied to the Funding From Other Sources (FFOS) or Paybacks or projects in the Amendment 3 Funding Category.

Incidentals include PE costs, CE costs and R/W incidentals.
