Pete K. Rahn, Director

October 19, 2006

Dear Legislator:

We know it's important for you as an elected official to be aware of transportation projects planned or under way in your area. For your information and reference, we are attaching the most recent list of approved highway projects in your legislative district.

These projects are part of the 2007-2011 Statewide Transportation Improvement Program (STIP), which the Missouri Highways and Transportation Commission recently approved. The STIP is a comprehensive list of state transportation projects planned for the next five years, barring any unforeseen obstacles in the development process.

In addition to road and bridge projects, the STIP includes aviation, rail, waterways and public transit projects for which the Missouri Department of Transportation is responsible. You can review the complete plan online at www.modot.org. A copy is also available in the legislative library or upon request.

Public involvement is a key component in developing the STIP. It starts with us working with local governments to determine project priorities and continues through various forms of public involvement that gives Missourians an opportunity to share their thoughts and opinions.

I hope you find this information helpful. Please call me at 573-751-4622 or Jay Wunderlich, governmental relations director, at 573-751-8273 if you have any questions or comments or if we can provide you with additional information.

Sincerely,

Pete K. Rahn
Director

cc: Jay Wunderlich

Missouri Highway and Bridge 2007 – 2011 Scoping and Design Projects

The purpose of this section is to identify potential future projects. These projects may be in the evaluation stage, which is called project scoping, or may be further along in the preliminary design process. **Projects listed in this section are not commitments to construct or implement an improvement.**

After needs have been identified and prioritized, the higher priority needs are included in this section. Next, a core team is formed, comprising personnel from various MoDOT departments. The core team investigates the problem or concern. The core team develops several solutions that may be either short term or long term. Some problems have no transportation or construction solution and instead may require public education or assistance through law enforcement.

Once a solution is selected, additional preliminary design work occurs. Design progresses up to a point at which MoDOT is confident the solution will properly address the problem or concern and of the improvement's cost. The potential project moves into the next stage of the planning framework, which is the prioritization and selection of projects for construction. Projects that have been prioritized and selected for construction are listed in the construction program (see Section 4.) Only the construction projects in Section 4 represent a commitment by MoDOT to build the project.

Please see Section 2-2 through 2-5 for additional discussion regarding how a need becomes a project through the planning framework process of identifying and prioritizing needs, to developing solutions, to prioritizing and selecting projects for construction.

The amount of time a potential project spends in the scoping and design phase varies. Some potential projects are more complex than others, and they might remain in the scoping and design phase for several years. This is especially true for projects such as Missouri and Mississippi River bridge replacements, new roadway construction, or converting a two-lane road to a four-lane road.

County	Route	Job Number	Improvement and Location
Buchanan	IS 229	1I0904	Scoping for pavement improvements from Rte. 371 to I-29 in St. Joseph.
Buchanan	IS 229	1I0905	Scoping for slide repair adjacent to southbound lane south of Southwest Parkway in St. Joseph.
Buchanan	MO 759	1S0859	Scoping for roadway improvements from US 36 to Monterey Street/Port access.
Buchanan	US 169	1P0851	Scoping for pavement improvements from Rte. YY (Mitchell) to Loop 29 (Pear) in St. Joseph.
Buchanan	US 36	1P0862	Scoping for roadway improvements from Missouri River bridge to 0.75 mile east of Rte. AC in St. Joseph.
Buchanan	US 59	1P0565	Scoping for bridge improvements over BNSF Railroad from 3.0 miles north of Rte. KK (north junction).
Buchanan	US 59	1P0800	Scoping for location study/environmental document and design activities for new Missouri River Bridge and roadway from Atchison, Kansas to Rte. 45.
Buchanan	US 59	1P0816	Scoping for intersection improvements at Rtes. 752 and U in St. Joseph.
Platte	IS 29	4Q1730	Scoping and Design to install ITS elements at the I-29/I-35 interchange.
Platte	IS 635	4I1643	Scoping for bridge improvements from I-29 interchange to north end of Missouri River bridge.
Platte	MO 152	4S1926	Scoping for pavement rehabilitation from Rte. N to Rte. 1.
Platte	MO 45	4P1927	Scoping for pavement rehabilitation from Rte. K to Rte. 435.
Platte	MO 9	4S1780	Scoping to construct ramp and modify alignment of outer road from southbound Rte. 9 to Briarcliff.
Platte	MO 92	4P1925	Scoping for pavement rehabilitation from Rte. 29 to Rte. DD.
Platte	US 69	4P1750	Scoping for grading, paving and drainage to upgrade to 4 lanes from Gateway to Old Pike.

2007 - 2011 Highway and Bridge Construction Schedule RSMo 21.795.2.(3)

The Highway and Bridge Construction Schedule identifies highway and bridge projects funded for right-of-way acquisition and/or construction during the five-year period between July 1, 2006, and June 30, 2011.

Projects on this schedule are funded and represent a commitment to implement an improvement, purchase right-of-way and or construct. Projects on this schedule with right-of-way funding only represent a commitment to buy right-of-way, not a commitment to construct.

There are a number of assumptions and requirements that must be met for project construction to begin. Some assumptions and requirements apply to all projects. Other assumptions and requirements vary depending upon the complexity of the project. These assumptions are:

- The assumed funding levels from state and federal sources are reached.
- All environmental requirements and clearances are obtained.
- Any legal matters are resolved.
- Right-of-way acquisition and utility relocation occur as scheduled.
- Concurrence is obtained from the metropolitan planning organizations for projects in the Columbia, Joplin, Kansas City, St. Joseph, St. Louis, Springfield, and Jefferson City areas.

PROJECT DESCRIPTION KEY

2007-2011 Highway and Bridge Construction Schedule

Construction contingency at a rate of three percent or at the District's discretion is applied to the construction cost in the year the project is awarded.

Four percent inflation compounded annually is applied to right-of-way and construction in program years 2, 3, 4, and 5.

No inflation is applied to the Funding From Other Sources (FFOS).

Incidentals include PE costs, CE costs, and R/W incidentals.

Project Estimate Total includes costs to date and estimated future costs.
