

Safe and Sound Bridge Improvement Project – 5B0800

The intent of the Safe and Sound Bridge Improvement Project is to provide for the rehabilitation/replacement of 802 bridges in poor condition throughout the state. Each county in Missouri will have at least one bridge improved as a result of this project. The list of bridges includes a majority of condition 3 and 4 structures, many of which are located on supplemental routes. Condition 3 and 4 bridges are structures that are still safe for the traveling public, but warrant rehabilitation/replacement work.

MoDOT will seek to award a single contract to design and build the bridge upgrades as well as maintain the bridges in good condition for at least 25 years. The Contractor will be required to restore these bridges to condition 6 within five years of award, and to maintain them at this condition until the end of the maintenance period. However, the contractor will determine the date for the improvement of any specific bridge.

The contract requires the awarded team to perform the project management, design, construction, maintenance and financing of this project. The anticipated financing model includes three progress payments estimated at \$50 million each tied to performance benchmarks anticipated to occur in SFY 2011, 2012 and 2013 with annual payments commencing thereafter for a minimum of 25 years. In addition to the payments described above, there was a one-time stipend payment made to the non-winning contractor in SFY 2008, and right of way and utility payments that will be made starting in SFY 2009 and continuing until SFY 2014. The Contractor will be required to reimburse MoDOT for the SFY 2009 - 2014 right of way payments. Financing for the Safe and Sound bridge project will come from anticipated federal and state funds and will require no additional revenue. The anticipated award date of the contract is during the summer of SFY 2009.

The following table lists all 802 bridges in the Safe and Sound Bridge Improvement Project. Duplicate bridge numbers represent two independent structures on the same route for both directions of traffic. Locations of each bridge are shown on a statewide map following the table as well as on the maps that accompany each district's construction schedule found in Section 4: Highway and Bridge Construction Schedule of this STIP. 108 of the 802 bridges in the Safe and Sound Bridge Improvement Project were previously programmed as commitments in a previous STIP, and a further 107 were in the process of being scoped. Any of those 215 projects that have been wholly incorporated into the Safe and Sound Bridge Improvement Project have been eliminated, resulting in those jobs no longer appearing in Section 3: Scoping and Design Projects and Section 4: Highway and Bridge Construction Schedule of the STIP. Included in the table below are the job numbers previously associated with the 215 bridge projects as they appeared in previous STIPs.

Since the approval of the 2008 – 2012 STIP, 16 bridges on the original Safe and Sound bridge list have been exchanged for 16 more suitable bridges.
